NEW QUESTION # 179
You have insurance claim reports that are stored as text.
You need to extract key terms from the reports to generate summaries.
Which type of AI workload should you use?

- A. computer vision
- B. natural language processing
- C. conversational AI
- D. anomaly detection

Answer: B

Explanation:
Explanation
Key phrase extraction is the concept of evaluating the text of a document, or documents, and then identifying the main talking points of the document(s).
Key phase extraction is a part of Text Analytics. The Text Analytics service is a part of the Azure Cognitive Services offerings that can perform over raw text.
