- B. Design order capture and order fulfillment flows
- C. Design a contract creation and contract renewal flows
- D. Design opportunity management flows and convert the opportunity to quote.

Answer: A,D

NEW QUESTION # 50

The discovery phase has identified the industries order management should integrate with the provisioning system using HTTP protocol, however to activate the service the external system requires two HTTP requests passing formatted JSON payloads. A temporary identifier is returned from the first request and must be used on the second one, but it has no relevance to CRM. The provisioning system is known to reply within 750ms for each request. What are two out of the box options for integration within this system?

- A. Design for one callout each request and save the identifier in a non-assetizable attribute on the fulfillment request line
- B. Design integration procedure that makes both request and returns the result to order Management.
- C. Use Data raptor technology to make the request and return the response to order management
- D. Design for one callout each request and cache the identifier in memory

Answer: A,C

NEW QUESTION # 51

Universal containers (UC) sells bundle of the TV service and VOIP line to its customer UC requires a modem to be one of the technical products as part of the bundle decomposition. UC also requires that when a customer orders as additional VOIP line in the future, it reuses the same modem technical product that was decomposed as part of initial bundle order.

- A. Create an M:1 decomposition relationship between TV to Modem and delete the decomposition relationships after the initial bundle order.
- B. Create a 1:1 decomposition relationship between TV to Modem and VOIP to Modem and decompose conditionally based on whether the modem is already present in the Technical Inventory
- C. Create an M:1 decomposition relationship between TV to Modem and VOIP to Modem and set scope to account on modem technical product
- D. Create a 1:1 decomposition relationship between TV and VOIP to modem and set the scope to order item on Modem Technical Product

Answer: C

NEW QUESTION # 52
