Successful people are those who never stop advancing. They are interested in new things and making efforts to achieve their goals. If you still have dreams and never give up, you just need our ISO-IEC-27001-Foundation actual test guide to broaden your horizons and enrich your experienceyou can enjoy the first-class after sales service. Whenever you have questions about our ISO-IEC-27001-Foundation Actual Test guide, you will get satisfied answers from our online workers through email. We are responsible for all customers. All of our ISO-IEC-27001-Foundation question materials are going through strict inspection. The quality completely has no problem. The good chance will slip away if you still hesitate.

APMG-International ISO-IEC-27001-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	• Compliance: Regulatory compliance refers to an organization's commitment to understanding and adhering to applicable laws, policies, and regulations to operate within established legal and ethical standards.
Topic 2	• Security Breaches: Security breaches occur when unauthorized access or violations of security protocols are detected or imminent, potentially compromising data or system integrity.
Topic 3	• Information Management (IM): Information management (IM) encompasses the entire lifecycle of information within an organization—from its collection and storage to its distribution, use, and eventual archiving or disposal.
Topic 4	• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.
Topic 5	• Data Security: Data security refers to protecting digital information—such as that stored in databases or networks—from destruction, unauthorized access, or malicious attacks, ensuring confidentiality and integrity.
Topic 6	• Self Confidence: Self-confidence is the belief in one's abilities, competence, and value, reflecting a sense of assurance and inner strength.

ISO-IEC-27001-Foundation New Exam Camp & ISO-IEC-27001-Foundation Certification Dump

Whereas the other two ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam questions formats are concerned both are the easy-to-use and compatible mock ISO-IEC-27001-Foundation exam that will give you a real-time environment for quick APMG-International Exams preparation. Now choose the right ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam questions format and start this career advancement journey.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q51-Q56):

NEW QUESTION # 51
Identify the missing words in the following sentence.
The organization shall establish, implement, maintain and [?] an information security management system, including the processes needed and their interactions, in accordance with the requirements of this document.

- A. continually improve
- B. communicate the importance of
- C. report on
- D. enforce standards for

Answer: A

Explanation:
Clause 4.4 of ISO/IEC 27001:2022 states:
"The organization shall establish, implement, maintain and continually improve an information security management system, including the processes needed and their interactions, in accordance with the requirements of this document." This requirement highlights that an ISMS is not static; it must evolve continuously to adapt to new risks, technologies, and business changes. Options A, C, and D are not mentioned in the clause. The continual improvement cycle is central to ISO standards, aligning with the Plan-Do-Check-Act (PDCA) model.
Thus, the missing words are "continually improve."

NEW QUESTION # 52
To whom does the scope of the Terms and conditions of employment control apply?

- A. Employees only
- B. Personnel and the organization
- C. Contractors only
- D. All employees, contractors and third-party users

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.6.1 (Terms and conditions of employment) states:
"The contractual agreements with employees and contractors shall state their and the organization's responsibilities for information security." This means the control applies not just to employees, but also contractors and, where relevant, third-party users who are subject to contractual obligations with the organization. The goal is to ensure that all parties engaged in work under the organization's control understand their security responsibilities before, during, and after employment or contract engagement.
Options A and B are too narrow, excluding key groups. Option C misrepresents the scope by implying a mutual responsibility but not identifying the individuals covered. The explicit scope includes employees, contractors, and third-party users.
Therefore, the correct answer is D.

NEW QUESTION # 53
Identify the missing word(s) in the following control relating to the Policies for information security control.
"Information security policy and topic-specific policies should be defined, approved by management, [?] and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur."

- A. published
- B. published, communicated to
- C. communicated to
- D. established and maintained

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.5.1 (Policies for information security) states:
"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur." This confirms that the missing words are"published, communicated to."The control emphasizes not just defining and approving policies but ensuring they are actively distributed and communicated so that relevant stakeholders are aware of and acknowledge them. Options A, B, and D are partial but incomplete.
Thus, the correct answer isC.

NEW QUESTION # 54
Which statement describes a requirement of an internal audit programme?

- A. The programme must use third party auditors to ensure impartiality
- B. Previous audit results are disregarded to ensure objectivity
- C. The programme must consider the importance of the target processes
- D. All processes must be audited within a 3-year cycle

Answer: C

Explanation:
Clause 9.2.2 of ISO/IEC 27001:2022 specifies requirements for the internal audit programme. It requires organizations to:
"Plan, establish, implement and maintain an audit programme(s) including the frequency, methods, responsibilities, planning requirements and reporting, which shall take into consideration the importance of the processes concerned, changes affecting the organization, and the results of previous audits." This makes optionCcorrect, since importance of the processes is a required factor.
Option A is incorrect because audits do not need third-party auditors; objectivity can be maintained internally if independence is respected. Option B is wrong because previous audit results must be considered, not disregarded. Option D is also incorrect - the standard does not specify a 3-year cycle; frequency depends on risks and needs.
Thus, the correct verified answer isC.

NEW QUESTION # 55
Which is a control title within Annex A of ISO/IEC 27001?

- A. Responsibilities and procedures
- B. Information security in supplier relationships
- C. Change control
- D. Protection of documents

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
In ISO/IEC 27002:2022, which provides control guidance for Annex A of ISO/IEC 27001, Clause 5.19 is titled:"Information security in supplier relationships." This control requires organizations to ensure that information security is addressed in supplier agreements and relationships. It is part of theOrganizational Controls theme. The other options are not control titles in Annex A:
* "Responsibilities and procedures" (B) was used in older standards like ISO/IEC 27001:2005 but no longer exists.
* "Protection of documents" (C) relates to document control but is not a specific Annex A control.
* "Change control" (D) is relevant to ITIL/ITSM but not listed as a control title in Annex A.
Therefore, the correct Annex A control title isA: Information security in supplier relationships.

NEW QUESTION # 56
