정답：B,D,F,G,I,J

설명：
Comprehensive Detailed Explanation along with All ISO 45001 Audit References Clause 9.3 of ISO 45001:2018 outlines the requirements for management reviews. These reviews must evaluate the performance of the OHSMS and identify opportunities for improvement. Outputs of management reviews typically include decisions and actions that align with strategic and operational priorities.
Analysis of Options:
* A. Decisions related to continual improvement opportunities:This is a valid output, as continual improvement is a key objective of management reviews under Clause 10.3.
* B. Allocation of a bigger budget for the OHS department:Resource allocation is a common output of management reviews to address identified needs.
* C. Improvements in the OHSMS:Improvements reflect the organization's commitment to enhancing safety performance.

* D. Minutes of previous management reviews:While minutes provide context, they are not an output of the current management review.
* E. Opportunities to integrate the OHS management system with other business processes:
Integration opportunities are valid outputs, as they enhance the system's effectiveness.
* F. Plan to prioritize health and safety issues as a business strategy:Strategic alignment of health and safety with business objectives is an expected output.
* G. Procurement of new safety harnesses for workers:This is an operational action, not a direct output of the management review process.
* H. Report showing the trend of an increase in safety incidents:This is an input to the management review, not an output.
* I. Updates to the risk register:Risk register updates reflect changes in identified hazards and risks, making this a valid output.
* J. Worker feedback of positive and negative comments:Worker feedback is an input to the management review, not an output.
ISO References:
* Clause 9.3: Management review inputs and outputs.
* Clause 10.3: Continual improvement actions.

At a meeting with the OHSMS Manager, she is told that they have won their biggest contact from a construction organization to manufacture and install stairways.
During the audit, a team member found that several employees had suffered hand injuries over several months due to handrail welds not being property polished. The OHSMS Manager blames the new employees they had to take on because of the big contract. The auditor raises a nonconformance against clause 10.2 erf ISO 45001.
In relation to the nonconformity raised by the auditor and in line with the policy of the certification body, the audit team raise improvement opportunities in the audit report.
Which three of the options would represent acceptance opportunities for improvement in the report?

- A. A quality control programme could involve non-destructive testing of the welded handrails
- B. All workers should be given competence test.
- C. The molding polishers should be disciplined for Incompetency.
- D. Additional internal audits of the OHS management system may reduce production problems.
- E. Operational planning activities may benefit from an improved risk based approach based on international standards tor risk management.
- F. The requirement for wearing protective gloves could be extended to shop floor workers across all operations.
- G. A first aid station could be located next to the handrail polishing operation.
- H. The induction programme for new employees could include an awareness training video in health and safety.

정답: E,F,H

설명:

Comprehensive Detailed Explanation along with All ISO 45001 Audit References Opportunities for improvement (OFIs) are suggestions provided during audits that do not indicate nonconformities but are aimed at enhancing the system's performance.
Analysis of Options:
* A. A quality control program could involve non-destructive testing of the welded handrails:While beneficial, this focuses on product quality rather than OH&S improvements.
* B. Operational planning activities may benefit from an improved risk-based approach based on international standards for risk management:Correct. Enhancing risk-based thinking aligns with Clause 6.1.1.
* C. A first aid station could be located next to the handrail polishing operation:While useful, first aid station placement is an operational matter, not directly related to OH&S management system improvement.
* D. Additional internal audits of the OHS management system may reduce production problems:
Internal audits should address system performance, not production problems.
* F. The induction program for new employees could include an awareness training video on health and safety:Correct. Enhanced training for new employees addresses Clause 7.2 (competence).
* G. The requirement for wearing protective gloves could be extended to shop floor workers across all operations:Correct. This improves hazard control in line with Clause 8.1.2.
* H. The molding polishers should be disciplined for incompetency:Disciplinary actions are outside the scope of system improvement.
ISO References:
* Clause 6.1.1: Risk management.
* Clause 7.2: Competence.
* Clause 8.1.2: Hierarchy of controls.
