You can freely download our PDF version and print it on papers. Also, you can share our PSP study materials with other classmates. The online test engine of the study materials can run on all windows system, which means you can begin your practice without downloading the PSP Study Materials as long as there have a computer. Also, our windows software support downloading for many times. What is more, you can install our PSP study materials on many computers. All of them can be

operated normally. The three versions of PSP study materials are excellent. Just choose them as your good learning helpers.

ASIS Physical Security Professional (PSP) Certification Exam is a comprehensive exam designed to test a security professional's knowledge and expertise in physical security. PSP Exam is administered by the American Society for Industrial Security (ASIS), a global organization dedicated to advancing security practices and providing education and certification opportunities to security professionals.

ASIS Physical Security Professional Exam Sample Questions (Q65-Q70):

NEW QUESTION # 65
Due to a testing delay, release of the product for manufacture is delayed by 5 workdays and the product manual misses its print window at the printer. If the printer is delayed by 10 workdays, what is the delay to produce release?

- A. 10 days.
- B. 0 days.
- C. 15 days.
- D. 5 days.

Answer: D

NEW QUESTION # 66
Using the normal schedule, what is the owner's total cost of the project?

- A. S13.102.900
- B. S12.953.600
- C. S13.990.600
- D. S12.990.000

Answer: D

Explanation:
Owner's total project cost is calculated by summing all direct and indirect costs, including any adjustments for delays or bonuses. Using the normal schedule, the provided cost aligns with $12,990,000 after applying standard rates and durations.
References: PSP Study Guide, Section 1.3.10 - Cost Estimate Development, which highlights cost aggregation methods.

NEW QUESTION # 67
What portion of Activity B is on the critical path?

- A. Last half of the activity
- B. First half of the activity
- C. The whole activity
- D. None of it

Answer: A

Explanation:
The Critical Path comprises the sequence of activities that directly impact the project's completion time.
If only the last half of Activity B delays the subsequent activities, then this portion lies on the critical path.
References: PSP Study Guide, Section 2.4.3 - Schedule Analysis, emphasizes identifying segments of activities that are critical due to dependencies and float values.

NEW QUESTION # 68
If the administrative constraints for developing the precedence diagram, as provided in the contract documents, indicate that no individual construction activities shall have a longer duration of two months, how many activities in the "normal" schedule would be affected?

- A. 13.

- B. 14.
- C. Cannot be determined.
- D. 12.

Answer: D

Explanation:

To determine how many activities in the "normal" schedule would be affected by the constraint of no activity exceeding a two-month duration (approximately 60 days):

* Review the "Normal Schedule Days" Column:Look for activities with a duration greater than 60 days in the "Normal Schedule Days" column of the table provided in the image.
* Count the Affected Activities:Count all activities where the "Normal Schedule Days" value exceeds 60.

Activities with durations greater than 60 days:

* Activity ID 1000: 1072 days
* Activity ID 1001: 85 days
* Activity ID 2001: 92 days
* Activity ID 3001: 152 days
* Activity ID 4001: 152 days
* Activity ID 5001: 102 days
* Activity ID 6001: 140 days
* Activity ID 6002: 115 days
* Activity ID 6003: 152 days
* Activity ID 9001: 175 days
* Activity ID 9002: 180 days
* Activity ID 9005: 72 days

Total Count:

There are 12 activities in the "normal" schedule exceeding the 60-day duration constraint.

Verified answer:A. 12.

Detailed Explanation with References: The constraint specifies that no activity should exceed a two-month (60-day) duration. By examining the "Normal Schedule Days" column, any activity with a duration greater than 60 days is non-compliant and therefore affected. The PSP study guide emphasizes reviewing contract requirements to ensure schedules adhere to such administrative constraints.

NEW QUESTION # 69

For the late finish for Activity 11001, select the most appropriate response for transitioning from the forward pass.

- A. EF.11001.
- B. EF.11001 + 1 day.
- C. LS.11001 + 25 days.
- D. 02-19-04.

Answer: D
