Assessment of Security Controls (16%):

- Appraise Provisional Security Assessment Report & Carry Out Preliminary Remediation Actions – This subject area covers your skills in establishing preliminary risk responses, applying preliminary remediation, and re-valuating and validating the remediated controls;
- Prepare the Preliminary Security Assessment Report – This requires your knowledge of how to analyze the evaluation results, identify weaknesses, as well as proposing remediation steps;
- Prepare for the Security Control Assessment – This subsection evaluates your competence in establishing the SCA requirements, objectives, and scope as well as determining the level and techniques of efforts and relevant resources and logistics. It also covers the skills in collecting and reviewing artifacts and finalizing a SCA plan;
- Conduct the Security Control Assessment – The potential candidates should demonstrate the skills in collecting and inventorying evaluation evidence and evaluating security control with the use of the standard assessment techniques;
- Create Final SAR & Optional Addendum.

Exam Prerequisites

You must have at least two years of industrial experience in IT and security authorization, combined with one or more of the seven domains of the CAP objectives. You should demonstrate your IT experience in IT Security, Information Assurance, Information Risk Management, System Administration, and Information Security Policy.
