NEW QUESTION # 183

Project Scenario - Health and Safety Training Project:
ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.
ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.
The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.
The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.
ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.
