

# Valid C-BW4H-2505 Torrent, C-BW4H-2505 Exam Demo

BONUS!!! Download part of ActualTestsQuiz C-BW4H-2505 dumps for free: [https://drive.google.com/open?id=1zh-2kC65F-qvLLuM1x8\\_C-Fz3vBm\\_LZq](https://drive.google.com/open?id=1zh-2kC65F-qvLLuM1x8_C-Fz3vBm_LZq)

To get prepared for the SAP Certified Associate - Data Engineer - SAP BW/4HANA (C-BW4H-2505) certification exam, applicants face a lot of trouble if the study material is not updated. They are using outdated materials resulting in failure and loss of money and time. So to solve all these problems, ActualTestsQuiz offers actual C-BW4H-2505 Questions to help candidates overcome all the obstacles and difficulties they face during C-BW4H-2505 examination preparation.

Taking the SAP C-BW4H-2505 practice test is very beneficial to clear the SAP Certified Associate - Data Engineer - SAP BW/4HANA C-BW4H-2505 exam on the first try. You get awareness about the SAP C-BW4H-2505 real exam environment because the C-BW4H-2505 Practice Exam has an actual exam-like pattern. Furthermore, the SAP C-BW4H-2505 practice test tracks and reports your performance.

## SAP C-BW4H-2505 Study Material in Different Formats

We believe our C-BW4H-2505 exam questions will meet all demand of all customers. If you long to pass the exam and get the certification successfully, you will not find the better choice than our C-BW4H-2505 preparation questions. Now you can have a chance to try our C-BW4H-2505 study braindumps before you pay for them. There are the free demos on our website for you download to check the quality and validity of our C-BW4H-2505 practice engine. Just have a try, then you will fall in love with our C-BW4H-2505 learning quiz!

## SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q40-Q45):

### NEW QUESTION # 40

Which features of an SAP BW/4HANA InfoObject are intended to reduce physical data storage space? Note: There are 2 correct answers to this question.

- A. Reference characteristic
- B. Transitive attribute
- C. Enhanced master data update
- D. Compounding characteristic

**Answer: A,B**

### NEW QUESTION # 41

Which development object needs to be built to generate an HDI Container?

- A. HDB module
- B. Space
- C. Package
- D. SQL script procedure

**Answer: A**

Explanation:

In the context of SAP HANA Deployment Infrastructure (HDI), an HDI Container is a dedicated, isolated schema in the SAP HANA database that stores and manages database objects such as tables, views, procedures, and other artifacts. HDI Containers are used to support multi-target applications (MTAs) and enable developers to manage database objects in a structured and modular way.

\* HDB Module (B): An HDB module is a development object within the SAP Web IDE for SAP HANA or SAP Business Application Studio. It contains the database design-time artifacts (e.g., .hdbtable, .hdbview, .hdbsynonym) that define the structure and logic of the database objects. When you build an HDB module, it triggers the creation of an HDI Container if one does not already exist. The HDI Container is then populated with the runtime objects generated from the design-time artifacts defined in the HDB module.

\* Key Points:

\* The HDB module is part of a Multi-Target Application (MTA) project.

\* It uses the HDI Deployer service to deploy the design-time artifacts into the HDI Container.

\* The HDI Container ensures isolation and versioning of database objects, making it suitable for modern application development practices.

\* Why Not the Other Options?

\* Space (A): A space is a concept in Cloud Foundry environments where applications and services are deployed. While spaces are used to organize and isolate resources, they are not directly related to generating an HDI Container. Spaces host applications and services but do not define the database objects required for an HDI Container.

\* Package (C): In SAP HANA, a package is a folder-like structure used to organize development objects in the SAP HANA repository. However, packages alone do not generate HDI Containers.

They are used in the classic repository-based development model (XSA or XS Classic), whereas HDI Containers are associated with the newer HDI-based development model.

\* SQL Script Procedure (D): An SQL script procedure is a database artifact used to define procedural logic in SQL. While SQL script procedures can be deployed into an HDI Container, they are not responsible for generating the container itself. The container must already exist before deploying such artifacts.

Development Object Required to Generate an HDI Container:

SAP Data Engineer - Data Fabric Context: In the SAP Data Engineer - Data Fabric landscape, HDI Containers play a crucial role in enabling modular and scalable data management. They allow developers to create isolated environments for different applications or tenants, ensuring data security and consistency. By leveraging HDB modules, developers can define and deploy database objects in a structured manner, aligning with modern DevOps practices.

For more information, refer to the following resources:

\* SAP HANA Developer Guide for SAP HANA XS Advanced: Explains the role of HDB modules and HDI Containers in application development.

\* SAP Business Application Studio Documentation: Provides guidance on creating and building HDB modules in the context of

MTAs.

\* SAP Learning Hub: Offers training on SAP HANA development, including HDI and MTA concepts.

By selecting B (HDB module), you ensure that the correct development object is identified for generating an HDI Container, enabling efficient database development and deployment.

#### NEW QUESTION # 42

You have already loaded data from a non-SAP system into SAP Datasphere. You want to federate this data with data from an InfoCube of your SAP BW powered by SAP HANA.

What do you need to use to combine the data?

- A. SAP BW Remote Migration
- B. SAP BW Shell Migration
- C. SAP BW/4HANA Model Transfer
- **D. SAP ABAP Connection**

**Answer: D**

Explanation:

To federate data between SAP Datasphere and an InfoCube in SAP BW powered by SAP HANA, you need to establish a connection that allows SAP Datasphere to access the data stored in the InfoCube. Below is an explanation of the options:

\* Explanation: This is the correct answer. An SAP ABAP Connection allows SAP Datasphere to connect to an SAP BW system and access its data objects, including InfoCubes. This connection leverages the ABAP stack to enable seamless integration between SAP Datasphere and SAP BW.

1. SAP Datasphere supports SAP BW connections via the ABAP stack, enabling federated queries and data access. This is documented in SAP's integration guides for SAP Datasphere and SAP BW.

2. SAP BW Shell Migration Explanation: This option is incorrect. SAP BW Shell Migration refers to the process of migrating SAP BW objects (e.g., InfoCubes, DataStore Objects) to SAP BW/4HANA. It is not related to federating data between SAP Datasphere and SAP BW.

Reference: Shell migration is a one-time activity focused on upgrading SAP BW systems to SAP BW/4HANA, as described in SAP's migration documentation.

3. SAP BW Remote Migration Explanation: This option is incorrect. SAP BW Remote Migration involves moving data and objects from a remote SAP BW system to SAP BW/4HANA. Like Shell Migration, it is not relevant to federating data with SAP Datasphere.

Reference: Remote migration is part of SAP's BW/4HANA transition strategy and does not address real-time data federation.

4. SAP BW/4HANA Model Transfer Explanation: This option is incorrect. SAP BW/4HANA Model Transfer refers to transferring BW models (e.g., InfoCubes, DataSources) to SAP BW/4HANA. It is unrelated to federating data between SAP Datasphere and SAP BW.

Reference: Model transfer is a migration activity, not a mechanism for real-time data integration or federation.

Conclusion To federate data from an InfoCube in SAP BW powered by SAP HANA with SAP Datasphere, you need to use an SAP ABAP Connection. This connection enables SAP Datasphere to access and query data from the InfoCube in real time, facilitating seamless integration between the two systems.

#### NEW QUESTION # 43

You are allowed to run a BW query, but the data selection is only partially covered by your authorizations.

What happens related to the BW query in this scenario?

- A. The BW query starts and shows an error message.
- B. The BW query does not start running.
- C. The BW query starts and the unauthorized values are 0.
- **D. The BW query starts and only the authorized data is displayed.**

**Answer: D**

#### NEW QUESTION # 44

Which source types are available to create a generic DataSource in SAP ERP? Note: There are 3 correct answers to this question.

- A. ABAP class method

- B. ABAP managed database procedure
- C. SAP query
- D. ABAP function module
- E. Database view

Answer: C,D,E

## NEW QUESTION # 45

.....

There is no doubt that you can certainly understand every important knowledge point without difficulty and pass the exam successfully with our C-BW4H-2505 learning prep as long as you follow the information that we provide to you. After you purchase our C-BW4H-2505 test materials, then our staff will immediately send our C-BW4H-2505 training guide to you in a few minutes. Please believe that we dare to guarantee that you will pass the C-BW4H-2505 exam for sure because we have enough confidence in our C-BW4H-2505 preparation torrent.

**C-BW4H-2505 Exam Demo:** <https://www.actualtestsquiz.com/C-BW4H-2505-test-torrent.html>

ActualTestsQuiz hires the top industry experts to draft the SAP Certified Associate - Data Engineer - SAP BW/4HANA (C-BW4H-2505) exam dumps and help the candidates to clear their SAP Certified Associate - Data Engineer - SAP BW/4HANA (C-BW4H-2505) exam easily, SAP Valid C-BW4H-2505 Torrent Please do not give up no matter how difficult you feel now, ActualTestsQuiz is forever best for your SAP C-BW4H-2505 exam preparation, If you want to know more about our products, you can consult our staff, or you can download our free trial version of our C-BW4H-2505 practice engine.

Quickly view project activity on the Dashboard, Three C-BW4H-2505 versions for your choice: PDF file, PC test engine, APP test engine, ActualTestsQuiz hires the top industry experts to draft the SAP Certified Associate - Data Engineer - SAP BW/4HANA (C-BW4H-2505) exam dumps and help the candidates to clear their SAP Certified Associate - Data Engineer - SAP BW/4HANA (C-BW4H-2505) exam easily.

## 2026 Perfect SAP Valid C-BW4H-2505 Torrent

Please do not give up no matter how difficult you feel now, ActualTestsQuiz is forever best for your SAP C-BW4H-2505 exam preparation, If you want to know more about our products, you can consult our staff, or you can download our free trial version of our C-BW4H-2505 practice engine.

Besides, our technicians will check the website constantly to ensure you have a good online shopping environment while buying C-BW4H-2505 exam dumps from us.
