NEW QUESTION # 122

Prerequisite steps should be followed to ensure a successful Initial Load was performed. One of the steps is to "prepare target tables." What does it mean to prepare target tables?

- A. The target table must exist in the target database before Initial Load process at source site.
- B. The target database must exist, and all tables for replication must exist with data already loaded into tables.
- C. The target database must exist, and an obey file must be used to create all tables for replication before Initial Load process at target site.

- **D. The target table must exist in the target database before Initial Load process at target site.**

Answer: D

Explanation:

Before performing an Initial Load in Oracle GoldenGate: The structure (tables) must already be created on the target database. GoldenGate does not create target tables during Initial Load - it only copies the data. So, you must manually prepare the tables beforehand.
