NSE7_CDS_AR-7.6 Best Vce | New NSE7_CDS_AR-7.6 Braindumps Ebook

Are you still feeling stressful to the increasing difficulty of the NSE7_CDS_AR-7.6 exam? If the answer is yes, you may wish to spend a little time learning our NSE7_CDS_AR-7.6 study materials. You will think this is the most correct thing you did for preparing for the NSE7_CDS_AR-7.6 Exam. Our NSE7_CDS_AR-7.6 exam guide can help you pass the exam more efficiently. Just click to the free demos and you will get the exam questions to have a check!

Fortinet NSE 7 - Public Cloud Security 7.6 Architect Sample Questions (Q54-Q59):**NEW QUESTION # 54**

Refer to the exhibit.

Network Topology

You attempted to access the Linux1 EC2 instance directly from the internet using its public IP address in AWS. However, your connection is not successful.

Given the network topology, what can be the issue?

- A. There is no connection between VPC A and VPC B.
- B. The Transit Gateway BGP IP address is incorrect.
- C. There is no elastic IP address attached to FortiGate in the Security VPC.
- **D. There is no internet gateway attached to the Spoke VPC A.**

Answer: D

Explanation:

The Fortinet documentation states: "An IGW in AWS is a VPC component that allows communication between instances in your VPC and the internet... AWS users with less experience may face connectivity issues if they create a new VPC, add EC2 instances to it, but forget that they need an IGW for internet connectivity."

NEW QUESTION # 55

Your organization has several FortiGate VMs deployed in Azure. You need to implement a solution with Azure native tools that allows you to determine whether packets are being permitted or blocked by the FortiGate VMs. Which solution can you use to meet these requirements?

- A. Install the Azure Monitor agent in all VMs.
- B. Configure Azure Advisor to analyze the network traffic.
- C. Insert the VM traffic logs in Azure Sentinel.
- **D. Use IP flow verify for each of the VMs.**

Answer: D

Explanation:

Azure IP flow verify is part of Network Watcher and lets you check if traffic is allowed or denied for a specific VM by analyzing its effective security rules and routing. This provides visibility into whether packets are being permitted or blocked for the FortiGate VMs.

NEW QUESTION # 56

Exhibit.

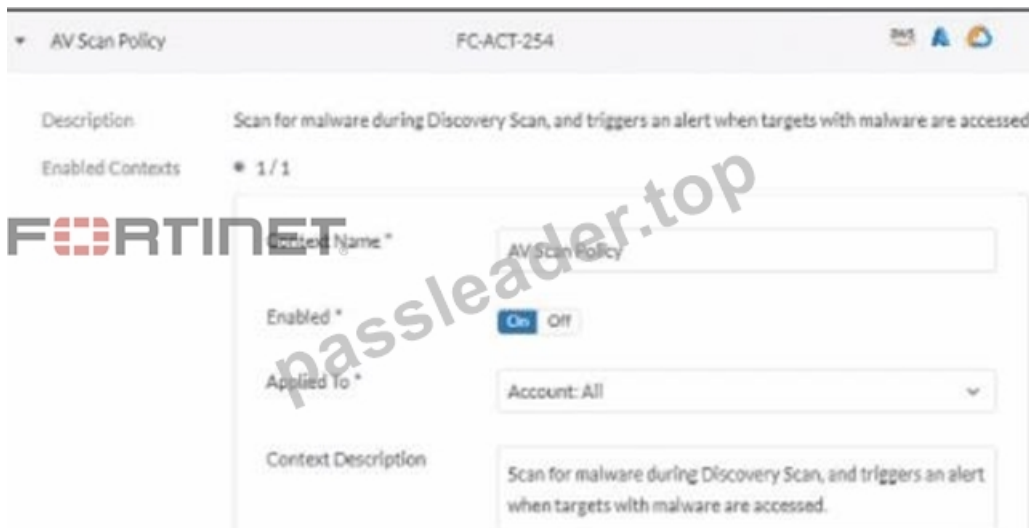

In which type of FortiCNP insights can an administrator examine the findings triggered by this policy?

- A. User activity
- B. Data
- C. Threat
- **D. Risk**

Answer: D

NEW QUESTION # 57

Exhibit.

In which type of FortiCNP insights can an administrator examine the findings triggered by this policy?

- A. User activity
- B. Data
- C. Threat
- **D. Risk**

Answer: D

NEW QUESTION # 58

Refer to the exhibit.

What is the purpose of this section of an Azure Bicep file?

- A. To document the FortiOS versions in the resulting topology
- **B. To restrict which FortiOS versions are accepted for deployment**
- C. To add a comment with the permitted FortiOS versions that can be deployed
- D. To indicate the correct FortiOS upgrade path after deployment

Answer: B

NEW QUESTION # 59

.....

All of our considerate designs have a strong practicability. We are still researching on adding more useful buttons on our NSE7_CDS_AR-7.6 Test Answers. The aim of our design is to improve your learning and all of the functions of our products are completely real. Then the learning plan of the NSE7_CDS_AR-7.6 exam torrent can be arranged reasonably. You need to pay great attention to the questions that you make lots of mistakes. If you are interested in our products, click to purchase and all of the functions. In a word, our company seriously promises that we do not cheat every customer.
