## Veeam Certified Engineer v12 VMCE\_v12 Sample Questions And Answers (Guaranteed A+)

A Veeam administrator is creating a protection group that needs to back up all servers for the accounting department using Veeam Agent for Microsoft Windows. New accounting servers must be automatically added to the protection group.

How is this accomplished?

A. Create a protection group that reads a .csv file listing the accounting servers.  
B. Create a protection group and set it to automatically scan every three hours for new servers.  
C. Install a configuration file on each of the accounting servers that adds it to the protection group.  
D. Create an Active Directory based protection group targeted at an Active Directory security group. - Answer✓ Answer: D

A backup administrator decided to move the Veeam Backup & Replication server and configuration database to new servers.

Which configuration restore mode should be used?

A. Migrate  
B. Planned failover  
C. Restore  
D. Failover plan - Answer✓ Answer: A

A file on a Windows VM hosted on vSphere is corrupted and must be restored. VMware tools are installed and up to date on the VM. For some reason, the Veeam mount server cannot connect to the VM through the network.

Which of the following restore methods provides the fastest restore (RTO)?

A. Run Veeam file restore wizard and let it restore through VIX.  
B. Start an Instant VM Recovery session and log on into the restored image to copy/paste the file to restore.

The study material to get Veeam Veeam Certified Engineer v12 certified should be according to individual's learning style and experience. Real Veeam VMCE\_v12 Exam Questions certification makes you more dedicated and professional as it will provide you complete information required to work within a professional working environment.

## Veeam VMCE\_v12 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Core components: This section of the exam covers exploring the functionality of Veeam Backup &amp; Replication and system requirements.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Backup copies: This section ensures the process of recoverability and adheres to the 3-2-1 Rule with backup copy processes.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Unstructured data backup: This section is about highlighting vital features required to protect unstructured data.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>Incident Response Planning: This section of the exam covers integrating Veeam Backup and Replication into the incident response strategy.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Data protection strategies: This section of the exam covers an overview of data protection strategies.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Scale-out Backup Repository: This section of the exam covers the description of the architecture, placement policies, and data tiers.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Verifying recoverability: This section of the exam covers the creation of automated tests to ensure recoverability from backups and replicas.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Agent backup: This section of the exam covers the identification of protection groups for automating the installation of Veeam Agents.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Virtual machine backup: This section of the exam covers protecting the VMware and Hyper V to safeguard VMware that follows SLAs.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>Recovery scenarios and features: This section covers the impact of various recovery procedures and choosing the most viable recovery technique.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Transport modes: This section aims to analyze different methods to collect and read data from the production environment.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>Moving or copying backups: This section of the exam covers use cases for backup processes using VeeamMover.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>Backup data optimizations: This section covers the need for object storage to be backed up and the supported object storage solutions while utilizing repositories.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>Replication: This section of the exam covers the description of use cases, architectures, and elements of replication jobs.</li> </ul>

## Veeam VMCE\_v12 Latest Exam Discount - VMCE\_v12 Exam Study Guide

Our VMCE\_v12 exam questions can meet your needs to the maximum extent, and our VMCE\_v12 learning materials are designed to the greatest extent from the customer's point of view. So you don't have to worry about the operational complexity. As soon as you enter the learning interface of our system and start practicing our VMCE\_v12 Learning Materials on our Windows software, you will find small buttons on the interface. These buttons show answers, and you can choose to hide answers during your learning of our VMCE\_v12 exam quiz so as not to interfere with your learning process. Every aspect is perfect.

### Veeam Certified Engineer v12 Sample Questions (Q53-Q58):

#### NEW QUESTION # 53

A backup administrator must enable guest file system indexing for a backup job of a Microsoft Windows file server VM. All required credentials are added to the Veeam Backup & Replication server. VMware Tools (VIX) cannot be used due to security regulations. What should be done to make it possible in the following environment?

- A. Use the proxy server as a guest interaction proxy
- B. Connect the ESXi host to the VM network
- C. Install a file system indexing plugin on the Microsoft Windows file server
- D. Use the Veeam Backup & Replication server as a guest interaction proxy

**Answer: A**

Explanation:

If VMware Tools (VIX) cannot be used due to security regulations, the backup administrator can use the proxy server as a guest interaction proxy to enable guest file system indexing for a backup job. The guest interaction proxy is responsible for the deployment and coordination of guest processing tasks, such as guest file system indexing, which does not require VIX. References:

#### NEW QUESTION # 54

An administrator is asked to change a backup copy job from periodic mode to immediate mode. How can this be accomplished?

- A. Create a new copy job and delete the original job.
- B. Enable immediate mode on the repository.
- C. **Edit the original job and select immediate copy mode from the job settings.**
- D. Modify the job settings on the proxy performing the copy job.

#### Answer: C

Explanation:

To change a backup copy job from periodic mode to immediate mode, an administrator can edit the original backup copy job and select the immediate copy mode from within the job settings. This change ensures that backup copy jobs are started immediately after the source backup job completes, rather than waiting for a defined copy interval. References:

- \* Veeam Backup & Replication User Guide: Backup Copy Job
- \* Veeam Help Center: Backup Copy Job Modes

#### NEW QUESTION # 55

A company is running nightly backups to satisfy their 24-hour RPO. There are two critical applications that cannot be offline more than 4 hours with no more than an hour of data loss.

How can this be accomplished?

- A. **Backup copy jobs with hourly VM replication**
- B. Enable Continuous Backup Replication
- C. A local SOBR with AWS Object storage
- D. Linux hardened repository with immutability

#### Answer: A

Explanation:

To meet the stringent Recovery Time Objective (RTO) of 4 hours and Recovery Point Objective (RPO) of 1 hour for the two critical applications, the most suitable approach is to use a combination of backup copy jobs and hourly VM replication, which corresponds to answer C.

Backup copy jobs can ensure that backups are available offsite for disaster recovery purposes, while VM replication provides the ability to quickly failover to a replica VM in case of a primary VM failure, thereby minimizing downtime. Veeam's replication capabilities are designed to create exact copies of VMs at regular intervals, which can then be rapidly activated in case of a failure. This strategy ensures that the applications can be brought back online within the 4-hour RTO, with data loss not exceeding the 1-hour RPO, thus meeting the company's stringent data protection requirements for these critical applications.

#### NEW QUESTION # 56

Which of the following Veeam Backup & Replication jobs can utilize storage snapshots on VMware vSphere?

Choose two options.

- A. **Backup**
- B. **Replication**
- C. Tape
- D. VeeamZIP
- E. VM copy
- F. Backup copy

#### Answer: A,B

## NEW QUESTION # 57

A company is running nightly backups to satisfy their 24-hour RPO. There are two critical applications that cannot be offline more than 4 hours with no more than an hour of data loss.

How can this be accomplished?

- A. Backup copy jobs with hourly VM replication
- B. Enable Continuous Backup Replication
- C. A local SOBR with AWS Object storage
- D. Linux hardened repository with immutability

**Answer: A**

### Explanation:

To meet the stringent Recovery Time Objective (RTO) of 4 hours and Recovery Point Objective (RPO) of 1 hour for the two critical applications, the most suitable approach is to use a combination of backup copy jobs and hourly VM replication, which corresponds to answer C. Backup copy jobs can ensure that backups are available offsite for disaster recovery purposes, while VM replication provides the ability to quickly failover to a replica VM in case of a primary VM failure, thereby minimizing downtime. Veeam's replication capabilities are designed to create exact copies of VMs at regular intervals, which can then be rapidly activated in case of a failure. This strategy ensures that the applications can be brought back online within the 4-hour RTO, with data loss not exceeding the 1-hour RPO, thus meeting the company's stringent data protection requirements for these critical applications.

## NEW QUESTION # 58

Our company is a multinational company which is famous for the VMCE\_v12 training materials in the international market. After nearly ten years' efforts, now our company have become the topnotch one in the field, therefore, if you want to pass the VMCE\_v12 Exam as well as getting the related certification at a great ease, I strongly believe that the VMCE\_v12 study materials compiled by our company is your solid choice.
