Besides, when conceive and design our C\_THR84\_2505 Exam Questions at the first beginning, we target the aim customers like you, a group of exam candidates preparing for the exam. Up to now, more than 98 percent of buyers of our C\_THR84\_2505 latest dumps have passed it successfully. Up to now they can be classified into three versions: the PDF, the software and the app version. So we give emphasis on your goals, and higher quality of our C\_THR84\_2505 test guide.

## SAP Certified Associate - Implementation Consultant - SAP SuccessFactors Recruiting: Candidate Experience Sample Questions (Q42-Q47):

### NEW QUESTION # 42

You have created a data capture form. What are some options when adding the form to a Landing page? Note: There are 3 correct answers to this question.

- A. You can configure the options when a candidate already has a candidate profile.
- B. You can modify the messages displayed after the candidate submits the form.
- C. You can customize the instructions to complete the form.
- D. You can configure a specific job alert associated with candidates who submit the form.
- E. You can update the text on the data privacy consent statement.

**Answer: A,B,C**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Data capture forms on CSB Landing pages collect candidate information (e.g., for talent pipelines) and offer configurable options to enhance user experience. Let's explore each possibility:

\* Option C (You can configure the options when a candidate already has a candidate profile):

Correct. CSB allows settings to handle existing candidates, such as prompting them to log in or update their profile instead of creating duplicates.

\* SAP Documentation Excerpt: From the Recruiting Marketing Guide: "For data capture forms, configure options for candidates with existing profiles, such as prompting them to update their information or linking to their current profile, to avoid duplication."

\* Reasoning: If a candidate with a profile (e.g., john.doe@bestrun.com) submits a form on a Landing page (e.g., careers.bestrun.com/campaign), CSB can display "Log in to update" rather than a new form, configured in CSB > Forms > Settings > Profile Matching.

- \* Practical Example: For "Best Run," a returning candidate sees a login prompt, ensuring data integrity.
  - \* Option D (You can customize the instructions to complete the form): Correct. Instructions guide candidates and can be tailored to clarify expectations.
  - \* SAP Documentation Excerpt: From the Career Site Builder Administration Guide: "When adding a data capture form to a Landing page, administrators can customize the instructions displayed above the form to provide clear guidance to candidates on how to complete it."
  - \* Reasoning: Adding "Please enter your skills and email to join our talent network" in CSB > Landing Pages > Form Settings improves completion rates.
  - \* Practical Example: On careers.bestrun.com/join, instructions like "Fill all fields for faster processing" are set.
  - \* Option E (You can modify the messages displayed after the candidate submits the form): Correct. Post-submission messages can be personalized to confirm success or guide next steps.
  - \* SAP Documentation Excerpt: From the Career Site Builder Administration Guide: "Post- submission messages for data capture forms on Landing pages can be modified to reflect the customer's messaging, such as thanking candidates or providing next steps."
  - \* Reasoning: Changing the default "Thank you" to "Welcome to Best Run! Check your email" in CSB > Forms > Success Messages enhances engagement.
  - \* Practical Example: After submission on careers.bestrun.com/join, "You're now in our talent pool!" appears.
  - \* Option A (You can configure a specific job alert associated with candidates): Incorrect. Job alerts are set in E-Mail Notification Templates Settings, not tied directly to form submissions on Landing pages.

#### NEW QUESTION # 43

What should you consider regarding mapping candidate statuses for Advanced Analytics? Note: There are 2 correct answers to this question.

- A. Status mappings can only be completed when there is candidate data associated with each status on the Talent Pipeline.
- B. With some exceptions, if a status is NOT mapped when the OData integration is run, the sync will fail.
- C. After saving the status mappings in Command Center, you can correct mapping errors as long as you do it during the same session.
- D. Any status that indicates that the candidate was NOT hired, such as Automatically Disqualified, does NOT need to be mapped.

Answer: A,B

#### NEW QUESTION # 44

What results can you expect if the sitewide metadata is set up as shown below in Career Site Builder (CSB)?  
Page Title: Jobs at Best Run  
Meta Keywords: Sales, Engineering, Human Resources, Management Jobs  
Meta Description: Apply online for jobs at Best Run  
Engineering Jobs, Sales Jobs, Human Resources Jobs, and more  
Note: There are 2 correct answers to this question.

- A. Populating the Meta Keywords field is much more important than using keywords in the page content.
- B. When Jobs at Best Run is returned in search engine results, it will display as a link to the CSB site.
- C. Assuming that metadata leading practices have been followed, when a user opens a Category page on the site, Jobs at Best Run will display on the browser tab.
- D. When a user opens the home page for the site, Jobs at Best Run will display on the browser tab.

Answer: A,C

#### NEW QUESTION # 45

Which of the following apply to the candidate's search experience when the Google Map integration and the Unified Data model are enabled? Note: There are 2 correct answers to this question.

- A. Administrators CANNOT customize the Google map component outside of Career Site Builder settings.
- B. Administrators can customize the color of the list and map icons.
- C. Candidates will only see the map view of their search results.
- D. Candidates can toggle between a list view and a map view of their search results.

Answer: B,D

### NEW QUESTION # 46

our customer would like to take advantage of the enhanced search capabilities for location. Which of these steps below are required? Note: There are 2 correct answers to this question.

- A. Configure Job Location Generic Objects.
- B. Map each Job Location Generic Object to a Location Foundation Object.
- C. Configure multi-locations for the locations.
- D. Enable the Unified Data Model in Career Site Builder.

Answer: A,D

### NEW QUESTION # 47
