P.S. Free & New NSE8_812 dumps are available on Google Drive shared by Itexamguide: <https://drive.google.com/open?id=1jG4mYAa1zjT996cuBWKIvncERQ3-bVly>

Our products are global, and you can purchase NSE8_812 training guide is wherever you are. Believe us, our NSE8_812 exam questions will not disappoint you. Our global users can prove our strength in this career. Just look at the hot hit on the website and you can see how popular our NSE8_812 Study Materials are. And the numerous of the grateful feedbacks from our worthy customers as well as the high pass rate as 98% to 100%. What are you waiting for? Just rush to buy our NSE8_812 preparation quiz!

Our company in the field of the NSE8_812 exam bootcamp for years, we also enjoy high reputation in the business. You choose us, we will give you the best we have, and your right choice will also bring the benefits to you. With the high reputation in the field, we can guarantee the quality of the NSE8_812 Exam Dumps. It also contains the free update for one year for you. It can save your money for updating, and the update version will send to your mailbox automatically.

NSE8_812 Exam Objectives Pdf Updated Questions Pool Only at Itexamguide

They are not forced to buy one format or the other to prepare for the Fortinet NSE 8 - Written Exam (NSE8_812) NSE8_812

exam. Itexamguide designed Fortinet NSE8_812 exam preparation material in Fortinet NSE 8 - Written Exam (NSE8_812) NSE8_812 PDF and practice test. If you prefer PDF Dumps notes or practicing on the Fortinet NSE 8 - Written Exam (NSE8_812) NSE8_812 practice test software, use either.

Fortinet NSE 8 - Written Exam (NSE8_812) Sample Questions (Q63-Q68):

NEW QUESTION # 63

You are troubleshooting a FortiMail Cloud service integrated with Office 365 where outgoing emails are not reaching the recipients' mail. What are two possible reasons for this problem? (Choose two.)

- A. A Mail Flow connector from the Exchange Admin Center has not been set properly to the FortiMail Cloud FQDN.
- **B. The FortiMail access control rule to relay from Office 365 servers FQDN is missing.**
- C. The FortiMail DKIM key was not set using the Auto Generation option.
- **D. The FortiMail access control rules to relay from Office 365 servers public IPs are missing.**

Answer: B,D

Explanation:

A: The FortiMail access control rule to relay from Office 365 servers FQDN is missing.

If the access control rule to relay from Office 365 servers FQDN is missing, then FortiMail will not be able to send emails to Office 365. This is because the access control rule specifies which IP addresses or domains are allowed to relay emails through FortiMail.

D: A Mail Flow connector from the Exchange Admin Center has not been set properly to the FortiMail Cloud FQDN.

If the Mail Flow connector from the Exchange Admin Center is not set properly to the FortiMail Cloud FQDN, then Office 365 will not be able to send emails to FortiMail. This is because the Mail Flow connector specifies which SMTP server is used to send emails to external recipients.

NEW QUESTION # 64

Refer to the exhibits, which show a network topology and VPN configuration.

Topology

Configuration

```
config vpn ipsec phase1-interface
  edit "vpn_endpts"
    set type dynamic
    set interface "port15"
    set mode aggressive
    set peertype any
    set net-device disable
    set mode-cfg enable
    set proposal aes128-sha256 aes256-sha256 aes128-sha1 aes256-sha1
    set dpd on-idle
    set dhgrp 5
    set xauthtype auto
    set authusrgrp "vpngroup"
    set assign-ip-from name
    set ipv4-netmask 255.255.255.0
    set dns-mode auto
    set ipv4-split-include "172.16.205.0"
    set ipv4-name "client_range"
    set save-password enable
    set psksecret "nse8exam"
    set dpd-retryinterval 60
  next
end

config system link-monitor
  edit "1"
    set srcintf "vpn_endpts"
    set server-type dynamic
  next
end
```

FORTINET

A network administrator has been tasked with modifying the existing dial-up IPsec VPN infrastructure to detect the path quality to the remote endpoints.

After applying the configuration shown in the configuration exhibit, the VPN clients can still connect and access the protected 172.16.205.0/24 network, but no SLA information shows up for the client tunnels when issuing the diagnose sys link-monitor tunnel all command on the FortiGate CLI.

What is wrong with the configuration?

- A. It is necessary to use the IKEv2 protocol in this situation.
- B. The admin needs to disable the mode-cfg setting.
- C. IPsec Phase1 Interface has to be configured in IPsec main mode.
- D. SLA link monitoring does not work with the net-device setting.

Answer: D

NEW QUESTION # 65

Refer to the exhibit.

A customer wants FortiClient EMS configured to deploy to 1500 endpoints. The deployment will be integrated with FortiOS and there is an Active Directory server.

Given the configuration shown in the exhibit, which two statements about the installation are correct? (Choose two.)

- A. You can only deploy initial installations to Windows clients.
- B. The Windows clients only require "File and Printer Sharing" allowed and the rest is handled by Active Directory group policy
- C. If no client update time is specified on EMS, the user will be able to choose the time of installation if they wish to delay.
- D. You must use Standard or Enterprise SQL Server rather than the included SQL Server Express
- E. A client can be eligible for multiple enabled configurations on the EMS server, and one will be chosen based on first priority

Answer: B,C

Explanation:

A is correct because if no client update time is specified on EMS, the user will be able to choose the time of installation if they wish to delay. This is because the FortiClient EMS server will not force the installation on the client.

E is correct because the Windows clients only require "File and Printer Sharing" allowed and the rest is handled by Active Directory group policy. This is because the Active Directory group policy will configure the Windows clients to automatically install FortiClient and the FortiClient EMS server will only need to push the initial configuration to the clients.

The other options are incorrect. Option B is incorrect because a client can only be eligible for one enabled configuration on the EMS server. Option C is incorrect because you can deploy initial installations to both Windows and macOS clients. Option D is incorrect because you can use the included SQL Server Express to deploy FortiClient EMS.

NEW QUESTION # 66

SD-WAN is configured on a FortiGate. You notice that when one of the internet links has high latency the time to resolve names using DNS from FortiGate is very high.

You must ensure that the FortiGate DNS resolution times are as low as possible with the least amount of work.

What should you configure?

- A. Configure two DNS servers and use DNS servers recommended by the two internet providers.
- B. Configure an SD-WAN rule to the DNS server and use the FortiGate interface IPs in the source address.
- C. Configure local out traffic to use the outgoing interface based on SD-WAN rules with a manual defined IP associated to a loopback interface and configure an SD-WAN rule from the loopback to the DNS server.
- D. Configure local out traffic to use the outgoing interface based on SD-WAN rules with the interface IP and configure an SD-WAN rule to the DNS server.

Answer: D

Explanation:

SD-WAN is a feature that allows users to optimize network performance and reliability by using multiple WAN links and applying rules based on various criteria, such as latency, jitter, packet loss, etc. One way to ensure that the FortiGate DNS resolution times are as low as possible with the least amount of work is to configure local out traffic to use the outgoing interface based on SD-WAN rules with the interface IP and configure an SD-WAN rule to the DNS server. This means that the FortiGate will use the best WAN link available to send DNS queries to the DNS server according to the SD-WAN rule, and use its own interface IP as the source address. This avoids NAT issues and ensures optimal DNS performance. References:
<https://docs.fortinet.com/document/fortigate/7.0.0/sd-wan/19662/sd-wan>

NEW QUESTION # 67

Refer to the exhibit, which shows a multi-region SD-WAN architecture.

Given this scenario, which two statements are true? (Choose two.)

- A. If iBGP is used, cross-regional spoke-to-hub shortcuts can be established.
- **B. If eBGP is used, ADVPN can be established only for branch-to-branch traffic within each region.**
- C. If eBGP is used, ADVPN can be established for branch-to-branch traffic across regions.
- D. If iBGP is used, cross-regional spoke-to-hub shortcuts cannot be used.

Answer: B

NEW QUESTION # 68

.....

Be certain about what you believe and consistent in what you say. If you intend to pass Fortinet NSE8_812 exam, you must take prompt action. Which is the best for your reference on the website? If you don't know how to choose your reference materials, we commend our Itexamguide Fortinet NSE8_812 Study Guide to you. Itexamguide Fortinet NSE8_812 certification training materials is the most complete. There is another advantage: we can provide you with free update for a year.

Verified NSE8_812 Answers: https://www.itexamguide.com/NSE8_812_braindumps.html

I can assure you that you will pass the exam as well as getting the related certification under the guidance of our training materials NSE8_812 as easy as pie, Whereas the NSE8_812 PDF file is concerned this file is the collection of real, valid, and updated Fortinet NSE8_812 exam questions, Live a self-confident and motivational life with Itexamguide Verified NSE8_812 Answers.

Three Examples of Architectures, To learn more about NSE8_812 window procedures and various messages, study the Help files that come with your compiler, I can assure you that you will pass the exam as well as getting the related certification under the guidance of our training materials NSE8_812 as easy as pie.

NSE8_812 Exam Objectives Pdf 100% Pass | Pass-Sure NSE8_812: Fortinet NSE 8 - Written Exam (NSE8_812) 100% Pass

Whereas the NSE8_812 PDF file is concerned this file is the collection of real, valid, and updated Fortinet NSE8_812 exam questions, Live a self-confident and motivational life with Itexamguide.

With time goes by, we have a large number of regular customers in many countries, all of them are the beneficiaries of our NSE8_812 study guide and have become very successful in the IT field now, if you want to be one of them, just join us, there is no denying that we will provide inexpensive but high-quality NSE8_812 actual lab questions as well as efficient service to you.

NSE8_812 pdf dumps format is the best way to quickly prepare for the NSE8_812 exam.
