SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Financial Accounting Sample Questions (Q46-Q51):

NEW QUESTION # 46

What is the correct release code for the second feature delivery in February 2025?

- A. 2025.2
- **B. 2502.2**
- C. 2025.2.2
- D. 0

Answer: B

Explanation:

Comprehensive and Detailed in Depth Explanation:

SAP S/4HANA Cloud uses a YYMM.release format for updates.

B: Correct. 2502.2 indicates February 2025, second delivery.

A, C, D: Incorrect. These do not match the standard convention.

NEW QUESTION # 47

Which tasks are mandatory before you can migrate data for a specific object?

Note: There are 2 correct answers to this question.

- **A. Predecessor objects have been migrated**

- B. Permission to migrate the data has been assigned
- C. You select the same migration method previously used for other objects
- D. All previous migration projects are in the "Finished" status

Answer: A,B

Explanation:

Comprehensive and Detailed in Depth Explanation:

In the SAP S/4HANA Migration Cockpit, data migration for a specific object requires certain prerequisites to ensure data integrity and system consistency.

Option A (Predecessor objects have been migrated): This is correct because SAP S/4HANA migration follows a dependency-driven approach. Predecessor objects (e.g., master data like business partners or G/L accounts) must be migrated first to provide the foundational data required for dependent objects (e.g., transactional data like open items). This ensures referential integrity and prevents errors during the migration process.

Option D (Permission to migrate the data has been assigned): This is also correct. Migration in SAP S/4HANA Cloud requires proper authorization, typically assigned via roles in the SAP Fiori Launchpad (e.g., the "Data Migration Specialist" role). Without this, users cannot access or execute migration tasks, ensuring security and compliance with governance policies.

Option B (You select the same migration method previously used for other objects): This is incorrect. The migration method (e.g., file upload, staging tables) can vary by object and project requirements. SAP does not mandate using the same method across all objects.

Option C (All previous migration projects are in the "Finished" status): This is not a requirement. While completing prior projects can be a best practice, the Migration Cockpit allows parallel or independent migration projects, provided dependencies are met.

NEW QUESTION # 48

You need to produce additional financial statements according to local GAAP requirements. Which of the following can help?

- A. Functional area
- B. Profit center group
- C. Ledger group
- D. Journal entry type

Answer: C

Explanation:

Comprehensive and Detailed in Depth Explanation:

Local GAAP compliance often requires parallel accounting.

C: Correct. Ledger groups support multiple accounting principles (e.g., IFRS vs. GAAP).

A, B, D: Incorrect. These do not address GAAP-specific reporting.

NEW QUESTION # 49

In which SAP Activate Methodology phase do consultants configure business processes based on the information gathered in the Fit-to-Standard workshops?

- A. Realize
- B. Deploy
- C. Explore
- D. Prepare

Answer: A

Explanation:

Comprehensive and Detailed in Depth Explanation:

Configuration happens post-Fit-to-Standard in SAP Activate.

B: Correct. Realize phase implements workshop outcomes.

A, C, D: Incorrect. These are pre- or post-configuration phases.

NEW QUESTION # 50

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a
