Undoubtedly, passing the Fortinet FCSS_SASE_AD-25 Certification Exam is one big achievement. Regardless of how tough the FCSS - FortiSASE 25 Administrator (FCSS_SASE_AD-25) exam is, it serves an important purpose of improving your skills and knowledge of a specific field. Once you become certified by Fortinet, a whole new career scope will open up to you.

Fortinet FCSS_SASE_AD-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• SASE Deployment: This section of the exam measures the knowledge of Implementation Consultants and focuses on the practical aspects of deploying FortiSASE. Candidates will explore user onboarding methods, configuration of administration settings, and the application of security posture checks with compliance rules. The exam also includes key functions such as SIA, SSA, and SPA, alongside the design of security profiles that perform effective content inspection. By combining these tasks, learners demonstrate readiness to roll out secure and scalable deployments.
Topic 2	• SASE Architecture and Components: This section of the exam measures the skills of Network Engineers and introduces the fundamentals of SASE within enterprise environments. Candidates are expected to understand the SASE architecture, identify FortiSASE components, and build deployment cases for real-world scenarios. The content emphasizes how SASE can be integrated into a hybrid network, showcasing secure design principles and the use of FortiSASE capabilities to support business and security objectives.

Topic 3	Analytics and Monitoring: This section of the exam measures the skills of Security Analysts and emphasizes the monitoring and reporting aspects of FortiSASE. Candidates are expected to configure dashboards, logging settings, and analyze reports for user traffic and security issues. Additionally, they must use FortiSASE logs to identify potential threats and provide insights into incidents or abnormal behavior. The focus is on leveraging analytics for operational visibility and strengthening the organization's security posture.
Topic 4	Advanced FortiSASE Solutions: This section of the exam measures the expertise of Solution Architects and validates the ability to work with advanced FortiSASE features. It covers deployment of SD-WAN using FortiSASE, implementation of Zero Trust Network Access (ZTNA), and the overall role of FortiSASE in optimizing enterprise connectivity. The section highlights how these advanced solutions improve flexibility, enforce zero-trust principles, and extend security controls across distributed networks and cloud systems.

Use the Latest Fortinet FCSS_SASE_AD-25 Questions to pass your Certification Exam

Time is very important for everyone. As the saying goes, time is life so spend it wisely. We believe that you also don't want to spend much time on preparing for your FCSS - FortiSASE 25 Administrator exam. How can you pass your exam and get your certificate in a short time? Our FCSS_SASE_AD-25 exam torrent will be your best choice to help you achieve your aim. According to customers' needs, our product was revised by a lot of experts; the most functions of our FCSS - FortiSASE 25 Administrator exam dumps are to help customers save more time, and make customers relaxed. If you choose to use our FCSS_SASE_AD-25 Test Quiz, you will find it is very easy for you to pass your exam in a short time. You just need to spend 20-30 hours on studying; you will have more free time to do other things.

Fortinet FCSS - FortiSASE 25 Administrator Sample Questions (Q30-Q35):

NEW QUESTION # 30

Refer to the exhibit.

Based on the configuration shown, in which two ways will FortiSASE process sessions that require FortiSandbox inspection? (Choose two.)

- A. All files executed on a USB drive will be sent to FortiSandbox for analysis.
- B. All files will be sent to a on-premises FortiSandbox for inspection.
- C. Only endpoints assigned a profile for sandbox detection will be processed by the sandbox feature.
- D. FortiClient quarantines only infected files that FortiSandbox detects as medium level.

Answer: A,C

Explanation:

The sandbox feature applies only to endpoints assigned this profile, and the configuration explicitly enables the submission of all files executed from removable media (like USB drives) to FortiSandbox for analysis.

NEW QUESTION # 31

Refer to the exhibit.

In the user connection monitor, the FortiSASE administrator notices the user name is showing random characters. Which configuration change must the administrator make to get proper user information?

- A. Change the deployment type from SWG to VPN.
- B. Configure the username using FortiSASE naming convention.
- C. Add more endpoint licenses on FortiSASE.
- D. Turn off log anonymization on FortiSASE.

Answer: D

Explanation:

In the user connection monitor, the random characters shown for the username indicate that log anonymization is enabled. Log anonymization is a feature that hides the actual user information in the logs for privacy and security reasons. To display proper user information, you need to disable log anonymization.

Log Anonymization:

When log anonymization is turned on, the actual usernames are replaced with random characters to protect user privacy. This feature can be beneficial in certain environments but can cause issues when detailed user monitoring is required.

Disabling Log Anonymization:

Navigate to the FortiSASE settings.

Locate the log settings section.

Disable the log anonymization feature to ensure that actual usernames are displayed in the logs and user connection monitors.

FortiSASE 23.2 Documentation: Provides detailed steps on enabling and disabling log anonymization.

Fortinet Knowledge Base: Explains the impact of log anonymization on user monitoring and logging.

NEW QUESTION # 32

Refer to the exhibits.

How will the application vulnerabilities be patched, based on the exhibits provided?

- A. The end user will patch the vulnerabilities using the FortiClient software.
- **B. The vulnerability will be patched by installing the patch from the vendor's website.**
- C. The vulnerability will be patched automatically based on the endpoint profile configuration.
- D. An administrator will patch the vulnerability remotely using FortiSASE.

Answer: B

NEW QUESTION # 33

Which description of the FortiSASE inline-CASB component is true?

- **A. It detects data in motion.**
- B. It relies on API to integrate with cloud services.
- C. It has limited visibility when data is transmitted.
- D. It is placed outside the traffic path.

Answer: A

Explanation:

FortiSASE inline-CASB operates in the traffic path to provide real-time visibility and control over data in motion as it is transmitted to and from cloud applications.

NEW QUESTION # 34

Your FortiSASE customer has a small branch office in which ten users will be using their personal laptops and mobile devices to access the internet.

Which deployment should they use to secure their internet access with minimal configuration?

- A. Deploy FortiClient endpoint agent to secure internet access.
- **B. Deploy FortiAP to secure internet access.**
- C. Deploy FortiGate as a LAN extension to secure internet access.
- D. Deploy SD-WAN on-ramp to secure internet access.

Answer: B

Explanation:

Deploying FortiAP enables secure internet access for unmanaged personal devices in small branch offices with minimal configuration by automatically directing traffic through FortiSASE, eliminating the need for endpoint installation or complex setup.

NEW QUESTION # 35

.....

By overcoming your mistakes before the actual Fortinet FCSS_SASE_AD-25 exam, you can avoid making those same errors during the FCSS - FortiSASE 25 Administrator (FCSS_SASE_AD-25) real test. With customizable FCSS_SASE_AD-25 practice tests, you can adjust the duration and quantity of FCSS_SASE_AD-25 Practice Questions. This self-assessment FCSS_SASE_AD-25 exam display your marks, helping you improve your performance while tracking your progress.
