Keeping in view different preparation styles of Avaya IP Office™ Platform Support Online Test (78202T) test applicant BraindumpsPass has designed three easy-to-use formats for its product.

Avaya IP Office™ Platform Support Online Test Sample Questions (Q134-Q139):

NEW QUESTION # 134

Which method can be used to add new users to a Server Edition in Select mode?

- A. Duplicate User
- B. LMS
- C. Outlook Plugin
- D. LDAP

Answer: D

Explanation:

The LDAP (Lightweight Directory Access Protocol) method can be used to add new users to a Server Edition in Select mode. LDAP integration allows for user information to be automatically imported from an existing directory service, such as Microsoft Active Directory, streamlining the user creation process.

NEW QUESTION # 135

When a voicemail message is left for a user, and if the customer is using Embedded Voicemail, where are the voice files held?

- A. on the voicemail server
- B. on the Application Server
- C. on the System SD card
- D. on the User PC

Answer: C

Explanation:

When a voicemail message is left for a user and the customer is using Embedded Voicemail, the voice files are stored on the System SD card. The SD card provides local storage for the voicemail system on the Avaya IP Office™, allowing users to access and manage their voicemail messages.

NEW QUESTION # 136

Which two email clients are fully supported for IP Office IMAP services, which enable users to retrieve their voicemail messages through specific email programs? (Choose two.)

- A. Lotus Messages with Domino Server
- B. Microsoft Office Communicator with Exchange Server
- C. MS Outlook with Exchange Server
- D. Lotus Notes with Domino Server

Answer: C,D

NEW QUESTION # 137

Upon plugging in a new IP500 V2 device, the dashboard displays two ports in one of the modules to be green, even though no telephones are connected.

What could be the reason behind it?

- A. The chassis contains a Combo Card.
- B. The operating system is operational, and an administrator is configuring the system.
- C. Both LAN1 and LAN2 connections are disconnected.
- D. The device has passed self-test and is powered on.

Answer: A

NEW QUESTION # 138

A customer wants to synchronize the time and date of their IP Office with a local server. In the System menu/Time Config Source, which of the following options would you select?

- A. Local
- B. Simple Network Time Protocol
- C. Network Time Protocol
- D. SNTP
- E. Voicemail Pro/Manager

Answer: C
