## Free PDF Huawei - Efficient H19-308\_V4.0 Examcollection

Our Actual4Exams's H19-308\_V4.0 exam dumps and answers are researched by experienced IT team experts. These H19-308\_V4.0 test training materials are the most accurate in current market. You can download H19-308\_V4.0 free demo on

Actual4Exams.COM, it will be a good helper to help you pass H19-308\_V4.0 certification exam.

## Huawei HCSA-Presales-Storage V4.0 Sample Questions (Q51-Q56):

### NEW QUESTION # 51

OceanStor Pacific supports only three types of protocols: file (NFS/CIFS), object (S3), and HDFS?

- A. TRUE
- B. FALSE

**Answer: B**

Explanation:

The statement is False because Huawei OceanStor Pacific is a multi-protocol storage system that supports more than just the three mentioned protocols. While File (NFS/CIFS), Object (S3), and HDFS are the core protocols for mass data access, the system also supports:

DPC (Distributed Parallel Client): A specialized parallel file system interface that supports standard POSIX and MPI-IO, enabling high-performance computing (HPC) clients to connect directly to multiple storage nodes for balanced I/O.

Block Storage: Certain configurations of OceanStor Pacific can provide block storage services, making it a truly unified distributed platform.

S3 Versioning and Advanced Object APIs: It supports native S3 semantics for object versioning and other advanced cloud-native features.

Because it supports high-performance parallel interfaces (POSIX/MPI-IO) via DPC in addition to the standard protocols, it is technically incorrect to say it supports only three types.

### NEW QUESTION # 52

Which of the following are the main differences between enterprise WORM and compliance WORM? (Choose all that apply.)

- A. Enterprise WORM complies with SEC Rule 17a-4.
- B. Compliance WORM supports privileged deletion.
- C. Enterprise WORM supports privileged deletion.
- D. Compliance WORM complies with SEC Rule 17a-4.

**Answer: C,D**

Explanation:

Enterprise WORM supports privileged deletion, allowing authorized users to delete data before the retention period ends if necessary.

Compliance WORM complies with SEC Rule 17a-4, meaning it meets strict regulatory requirements for data retention and immutability, and does not allow privileged deletion.

### NEW QUESTION # 53

OceanStor Pacific supports multi-protocol interworking that allows a file to be accessed using different protocols at the same time.

- A. TRUE
- B. FALSE

**Answer: A**

Explanation:

OceanStor Pacific supports multi-protocol interworking, enabling the same file to be accessed simultaneously through different protocols (such as NFS, SMB, HDFS, or S3), which enhances data sharing and flexibility across various applications and services.

### NEW QUESTION # 54

Which of the following API can be used to upload objects?

- A. put object
- B. get object

- C. update object
- D. delete object

**Answer: A**

Explanation:

The put object API is the standard operation used in object storage systems (including Huawei OBS and S3-compatible platforms) to upload data. It allows a client to send a complete object - consisting of the data and its associated metadata - to the storage system in a single request.

This operation creates a new object if it does not exist or overwrites it if it already exists.

## NEW QUESTION # 55

OceanStor F V5 series are hybrid-flash storage systems.

- A. TRUE
- B. FALSE

**Answer: B**

## NEW QUESTION # 56

.....

Actual4Exams has a huge Huawei industry elite team. They all have high authority in the H19-308\_V4.0 area. They use professional knowledge and experience to provide training materials for people ready to participate in different IT certification exams. The accuracy rate of exam practice questions and answers provided by Actual4Exams is very high and they can 100% guarantee you pass the exam successfully for one time. Besides, we will provide you a free one-year update service.
