

EDGE-Expert Sample Exam, EDGE-Expert Best Preparation Materials

DOWNLOAD the newest TestSimulate EDGE-Expert PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=155p8piR8VAX7nF7Z1wFdTmCrIbuCoGtj>

As is known to us, there are best sale and after-sale service of the EDGE-Expert certification training materials all over the world in our company. Our company has employed a lot of excellent experts and professors in the field in the past years, in order to design the best and most suitable EDGE-Expert Latest Questions for all customers. More importantly, it is evident to all that the EDGE-Expert training materials from our company have a high quality, and we can make sure that the quality of our EDGE-Expert exam questions will be higher than other study materials in the market.

EDGE EDGE-Expert Exam Dumps are one of the best ways to prepare for your EDGE EDGE-Expert certification exams. They offer an excellent range of study materials and practice tests that can help you become certified in no time. These EDGE EDGE-Expert Exam Dumps are also updated regularly to ensure that you are always up to date with the latest information.

2026 EDGE High Pass-Rate EDGE-Expert: Excellence in Design for Greater Efficiencies (EDGE Expert) Exam Sample Exam

The successful selection, development and EDGE-Expert training of personnel are critical to our company's ability to provide a high

standard of service to our customers and to respond their needs. That's the reason why we can produce the best EDGE-Expert exam prep and can get so much praise in the international market. And we always believe first-class quality comes with the first-class service. You will find we are professional on the answering the questions on our EDGE-Expert Study Materials.

EDGE Excellence in Design for Greater Efficiencies (EDGE Expert) Exam Sample Questions (Q67-Q72):

NEW QUESTION # 67

Ceiling fans are an efficient way to increase air movement and therefore thermal comfort. Which of the following forms part of the evidence to demonstrate compliance at the design stage?

- A. Computational Fluid Dynamics (CFD) assessment of all habitable spaces
- B. Purchase receipts of the ceiling fans
- **C. Manufacturer's data sheet of the ceiling fans**
- D. Photographs of the installed ceiling fans

Answer: C

Explanation:

At the design stage (Preliminary Certification), EDGE requires specific documentation to verify that proposed measures, such as ceiling fans, will be implemented as claimed. The EDGE Certification Protocol specifies:

"For measures like ceiling fans at the design stage, the Client must provide evidence such as manufacturer's data sheets that detail the make, model, and specifications (e.g., power rating, air movement capacity) to confirm the fans meet the efficiency criteria for improving thermal comfort" (EDGE Certification Protocol, Section 3.2: Audit Requirements). Option C, manufacturer's data sheet of the ceiling fans, aligns with this requirement, as it provides the necessary specifications for verification. Option A (photographs of installed ceiling fans) is relevant at the post-construction stage, not design: "Photographs are required at the post-construction stage to confirm installation, not at the design stage" (EDGE Certification Protocol, Section 3.4:

Post-Construction Requirements). Option B (CFD assessment) is not required, as EDGE uses simplified calculations: "EDGE does not require CFD assessments for air movement; fan specifications suffice for design-stage verification" (EDGE Methodology Report Version 2.0, Section 5.5: Thermal Comfort Measures). Option D (purchase receipts) is also a post-construction requirement:

"Purchase receipts verify installation, not design intent" (EDGE Certification Protocol, Section 3.4: Post-Construction Requirements). Thus, the manufacturer's data sheet (Option C) is the correct evidence at the design stage.

Reference: EDGE Certification Protocol, Section 3.2: Audit Requirements, Section 3.4: Post-Construction Requirements; EDGE Methodology Report Version 2.0, Section 5.5: Thermal Comfort Measures.

NEW QUESTION # 68

An EDGE Auditor has received initial documentation from a Client which implies that measures not selected on the downloaded PDF can be claimed. What should the Auditor do?

- A. As submission documents are correct, the Auditor should ignore the error on PDF.
- **B. Inform the Client to update the EDGE software and prepare a new PDF.**
- C. The Auditor should ask for advice from the EDGE Partner and then take action.
- D. The Auditor should modify the self-assessment and submit the project for certification.

Answer: B

Explanation:

The EDGE audit process requires that the documentation submitted by the Client accurately reflects the self-assessment in the EDGE software, ensuring consistency and transparency. The EDGE Expert and Auditor Protocols address discrepancies in documentation: "If an EDGE Auditor identifies a discrepancy between the submitted documentation and the self-assessment PDF, such as measures being claimed that were not selected in the EDGE software, the Auditor must inform the Client to update the EDGE software to reflect the correct measures and prepare a new PDF for submission. This ensures that the audit is based on an accurate representation of the project's claims" (EDGE Expert and Auditor Protocols, Section 4.2: Evidence Verification). Option C, inform the Client to update the EDGE software and prepare a new PDF, directly aligns with this protocol, as it corrects the error at the source and ensures the self-assessment matches the claimed measures. Option A (ask for advice from the EDGE Partner) is unnecessary, as the protocol provides clear guidance: "Auditors are expected to follow standard procedures for discrepancies without needing to consult the EDGE Partner, unless the issue involves a policy interpretation beyond the protocols" (EDGE Expert and Auditor Protocols, Section 4.1: Audit Process). Option B (modify the self-assessment and submit) is unethical and prohibited, as Auditors cannot alter the Client's submission: "The Auditor must not modify the Client's self-assessment in the EDGE software, as this compromises the independence of the audit process; the Client is responsible for updating the assessment" (EDGE Certification

Protocol, Section 3.2:

Audit Requirements). Option D (ignore the error on PDF) is also incorrect, as ignoring discrepancies violates audit integrity. "All discrepancies between the PDF and submitted documents must be resolved before the audit proceeds, as ignoring errors could lead to incorrect certification outcomes" (EDGE Expert and Auditor Protocols, Section 4.2: Evidence Verification). The EDGE User Guide further reinforces: "The self-assessment PDF must accurately reflect the measures selected in the EDGE software, and any mismatch requires the Client to revise the assessment to ensure a fair and transparent audit" (EDGE User Guide, Section 6.2: Documentation Requirements). Thus, the Auditor should inform the Client to update the software and prepare a new PDF (Option C).

Reference:EDGE Expert and Auditor Protocols, Section 4.2: Evidence Verification, Section 4.1: Audit Process; EDGE Certification Protocol, Section 3.2: Audit Requirements; EDGE User Guide Version 2.1, Section 6.2: Documentation Requirements.

NEW QUESTION # 69

For which of the following is EDGE Advanced certification available?

- A. Green lease agreements
- B. Infrastructure constructions
- C. New constructions
- D. Parks and landscape projects

Answer: C

Explanation:

The EDGE Standard defines specific project types eligible for certification levels, including EDGE Advanced, which requires at least 40% energy savings. The EDGE Certification Protocol specifies: "EDGE Advanced certification is available for new constructions that achieve a minimum of 40% energy savings compared to the base case, applicable to building typologies such as homes, hotels, offices, hospitals, retail, and schools" (EDGE Certification Protocol, Section 2.3: Certification Levels). Option A, new constructions, aligns with this scope, as EDGE focuses on new buildings across supported typologies. Option B, green lease agreements, is not a building type and is outside EDGE's certification framework. Option C, infrastructure constructions, and Option D, parks and landscape projects, are also not covered under EDGE typologies, as confirmed by the EDGE User Guide: "EDGE certification applies to new buildings and major renovations of specific typologies, excluding infrastructure or landscape-only projects" (EDGE User Guide, Section 1.2:

Scope of EDGE Certification). Thus, only new constructions qualify for EDGE Advanced certification.

Reference:EDGE Certification Protocol, Section 2.3: Certification Levels; EDGE User Guide Version 2.1, Section 1.2: Scope of EDGE Certification.

NEW QUESTION # 70

The Client informs an EDGE Auditor that a key member of the design team has resigned. The Client requests the Auditor to take the member's place for the remainder of the project's design development as it would provide the Auditor an opportunity to identify suitable green building measures, making audit tasks much simpler. What should the EDGE Auditor do?

- A. Accept the additional commission on the basis that this will save the Client time and money, and would reduce the volume of work required for the audit.
- B. Refer the Client to an associate within the organization who will be working with the Auditor on the EDGE audit, since the Auditor organization has spare capacity.
- C. Resign from the audit role on the basis that its position has been compromised by this direct approach by the Client.
- D. Refer the Client to an associate within the organization who works in another department, but is qualified and available to carry out the work.

Answer: D

Explanation:

The EDGE framework strictly prohibits Auditors from engaging in roles that could compromise their independence, such as providing design consultancy on the same project they are auditing. The EDGE Expert and Auditor Protocols address this scenario explicitly: "An EDGE Auditor must not accept any role in the design development of a project they are auditing, as this creates a conflict of interest by blurring the lines between consultancy and independent verification. If the Client requests the Auditor to take on a design role, the Auditor should decline and may refer the Client to another qualified professional who is not involved in the audit process" (EDGE Expert and Auditor Protocols, Section 2.3: Conflict of Interest). Option B, refer the Client to an associate within the organization who works in another department, but is qualified and available to carry out the work, aligns with this guidance, as it maintains the Auditor's independence while helping the Client find a suitable replacement. Option A (resign from the audit role) is an

overreaction, as the request itself does not compromise the Auditor's position unless accepted: "The Auditor is not required to resign unless they have already engaged in a conflicting role, which can be avoided by declining the request" (EDGE Expert and Auditor Protocols, Section 4.1: Audit Process). Option C (accept the additional commission) is unethical, as it violates conflict-of-interest rules: "Accepting a design role on a project being audited undermines the Auditor's impartiality, as they would be auditing their own work, which is strictly prohibited" (EDGE Certification Protocol, Section 3.1: Certification Process). Option D (refer the Client to an associate working with the Auditor on the EDGE audit) is also incorrect, as this associate is already involved in the audit, creating a potential conflict: "Referring the Client to someone involved in the same audit does not resolve the conflict of interest, as the audit team must remain independent from design activities" (EDGE Expert and Auditor Protocols, Section 2.3: Conflict of Interest). The EDGE User Guide reinforces this principle: "Auditors must maintain strict separation from design roles to ensure an unbiased audit, and should assist the Client by referring them to independent professionals if needed" (EDGE User Guide, Section 6.5: Working with EDGE Auditors). Thus, referring the Client to a qualified associate in another department (Option B) is the correct action.

Reference: EDGE Expert and Auditor Protocols, Section 2.3: Conflict of Interest, Section 4.1: Audit Process; EDGE Certification Protocol, Section 3.1: Certification Process; EDGE User Guide Version 2.1, Section 6.5: Working with EDGE Auditors.

NEW QUESTION # 71

How many years of experience in related fields are required for applicants without a construction-related higher qualification to become an EDGE Expert?

- A. At least 5 years
- B. At least 2 years
- **C. At least 3 years**
- D. At least 1 year

Answer: C

Explanation:

The eligibility criteria for becoming an EDGE Expert are designed to ensure candidates have sufficient background to advise on green building projects. The EDGE Expert and Auditor Protocols specify the requirements for candidates without a construction-related higher qualification: "Applicants without a higher education qualification in a construction-related field (e.g., architecture, engineering) must have a higher education qualification in any field plus at least three years of experience in the construction industry as a skilled professional or tradesperson to qualify for EDGE Expert training and certification" (EDGE Expert and Auditor Protocols, Section 3.1: Eligibility Criteria). Option C, at least 3 years, directly matches this requirement. Option A (at least 1 year) and Option B (at least 2 years) are insufficient, as they fall below the minimum threshold: "Less than three years of experience does not meet the eligibility criteria for candidates without a construction-related degree, as this duration ensures adequate practical knowledge of building design and construction processes" (EDGE Expert and Auditor Protocols, Section 3.1: Eligibility Criteria).

Option D (at least 5 years) exceeds the minimum requirement, which is not necessary: "While additional experience is beneficial, the minimum requirement for EDGE Expert eligibility is three years for non- construction degree holders" (EDGE User Guide, Section 6.4: Working with EDGE Experts). The EDGE Certification Protocol also notes: "The three-year experience requirement for non-construction graduates ensures that EDGE Experts have sufficient industry exposure to provide meaningful consultancy, balancing accessibility with competence" (EDGE Certification Protocol, Section 1.3: Program Structure). Additionally, the EDGE User Guide clarifies: "Candidates with a construction-related degree are exempt from the experience requirement, but those without such a degree must demonstrate at least three years of relevant experience to qualify for the EDGE Expert exam" (EDGE User Guide, Section 6.4: Working with EDGE Experts). Therefore, at least 3 years of experience (Option C) is required for applicants without a construction- related higher qualification.

Reference: EDGE Expert and Auditor Protocols, Section 3.1: Eligibility Criteria; EDGE Certification Protocol, Section 1.3: Program Structure; EDGE User Guide Version 2.1, Section 6.4: Working with EDGE Experts.

NEW QUESTION # 72

.....

Our considerate service is not only reflected in the purchase process, but also reflected in the considerate after-sales assistance on our EDGE-Expert exam questions. We will provide considerate after-sales service to every user who purchased our EDGE-Expert practice materials. If you have any questions after you buy our EDGE-Expert study guide, you can always get thoughtful support and help by email or online inquiry. If you need any support, and we are always here to help you.

EDGE-Expert Best Preparation Materials: <https://www.testsimulate.com/EDGE-Expert-study-materials.html>

EDGE EDGE-Expert Sample Exam Fraudulent Activity You agree to cooperate fully with the Company in any investigation by the Company or its agents regarding fraudulent or improper activity related to the use of this site and its resource, including, but not limited to, fraudulent charge backs and false claims regarding to non-receipt of products, My suggestions to you are that you ought to take proactive actions to obtain as many certificates (EDGE-Expert torrent VCE) as possible which you own capacity need also to be improved.

Simply press and hold the first two keys, and then press the third key, The working EDGE-Expert group may subsequently publish a revised version of the draft, Fraudulent Activity You agree to cooperate fully with the Company in any investigation by the Company or its agents regarding fraudulent or improper activity related EDGE-Expert Best Preparation Materials to the use of this site and its resource, including, but not limited to, fraudulent charge backs and false claims regarding to non-receipt of products.

EDGE-Expert Training Materials are Worthy for You to Buy It - TestSimulate

My suggestions to you are that you ought to take proactive actions to obtain as many certificates (EDGE-Expert Torrent VCE) as possible which you own capacity need also to be improved.

When the exam questions are updated or changed, EDGE-Expert experts will devote all the time and energy to do study & research, then ensure that EDGE-Expert test dumps have high quality, facilitating customers.

Also we guarantee that if you fail exams with our EDGE-Expert practice questions we will refund the full cost of test torrent to you unconditionally, No website like us provide you with the best GBCI EDGE examcollection dumps to help EDGE-Expert Best Preparation Materials you pass the Excellence in Design for Greater Efficiencies (EDGE Expert) Exam valid test, also can provide you with the most quality services to let you 100% satisfied.
