**Answer: B,D,E**

Explanation:

Based on WalkMe's positioning within the SAP ecosystem, the three key objectives of their SAP-focused sales plays are:

C. Enabling ERP transformation through user engagement and adoption

WalkMe plays a central role in digital transformation by driving user engagement, increasing software adoption, and ensuring smooth rollouts of SAP ERP like S/4HANA and SuccessFactors

A. Ensuring compliance and efficiency in finance and spend management WalkMe's in-app guidance helps prevent user errors, ensure policy compliance, and streamline critical finance and procurement workflows-especially within SAP S/4HANA and Ariba environments [blog.sap-press.com](http://blog.sap-press.com)

E. Driving measurable ROI across SAP and non-SAP applications

WalkMe emphasizes actionable insights, highlighting software usage, and driving ROI not just in SAP but across heterogeneous systems through analytics and usage data visibility.

Not correct:

\* B. Providing analytics and insights for cloud-based HR systems

While WalkMe supports HR applications like SuccessFactors, the offering is broader-including ERP, procurement, and cross-app usage-so this choice is too narrow.

\* D. Simplifying procurement processes to enhance competitive differentiation WalkMe does simplify workflows in SAP Ariba, but the "competitive differentiation" language doesn't match their core positioning.

D. Experience

Focuses on crafting engaging, user-centric in-app experiences-covering Smart Walk-Thrus, conversational assistants, theming, and workstation support-for a seamless adoption journey.

E. Data

Centers on powerful analytics, behavior insights, flow diagnostics, and custom dashboards that help organizations uncover friction and optimize tool usage.

Why not the others?

\* B. Integration - While integrations are part of the platform, they aren't labeled as a core strategic pillar.

\* C. Results - This reflects outcomes rather than a foundational pillar in the product framework.
