

Providing You Unparalleled HQT-4160 Accurate Answers with 100% Passing Guarantee

If you are having the same challenging problem, don't worry; Hitachi is here to help. Our direct and dependable Hitachi Treasury with Hitachi Vantara Qualified Professional - VSP 5000 Series Installation Exam Questions in three formats will surely help you pass the Hitachi Treasury with HQT-4160 certification exam. Because this is a defining moment in your career, do not undervalue the importance of our Treasury with Hitachi Vantara Qualified Professional - VSP 5000 Series Installation (HQT-4160) exam dumps. Profit from the opportunity to get these top-notch exam questions for the HQT-4160 certification test.

The HQT-4160 certification exam is intended for IT professionals, including storage administrators, architects, engineers, and consultants. The test validates their knowledge and skills to install, configure, and troubleshoot the Hitachi Vantara VSP 5000 series. HQT-4160 exam is an essential step for IT professionals looking to enhance their career opportunities in the storage industry.

Hitachi HQT-4160 Exam is a challenging test that requires a deep understanding of Hitachi's storage solutions. Candidates must be able to demonstrate their knowledge and expertise in a variety of areas including storage architecture, data protection, and disaster recovery. HQT-4160 exam is designed to ensure that only the most qualified candidates can become certified Hitachi Vantara Qualified Professionals.

Hitachi HQT-4160 Exam Brain Dumps | HQT-4160 Pass4sure Dumps Pdf

If you buy our HQT-4160 exam questions, we will offer you high quality products and perfect after service just as in the past. We believe our consummate after-sale service system will make our customers feel the most satisfactory. Our company has designed the perfect after sale service system for these people who buy our HQT-4160 practice materials. We can always give the most professional suggestion on our HQT-4160 learning guide to our customers at the first time for our service are working 24/7 online.

Hitachi Vantara Qualified Professional - VSP 5000 Series Installation Sample Questions (Q15-Q20):

NEW QUESTION # 15

A drive in a VSP 5000 series storage system is blocked. The microcode is now searching for a matching spare drive. What are the three requirements for the spare drive? (Choose three.)

- A. It must have the same or a larger capacity.
- B. It must be of the same type (NL-SAS, SSD, FMD etc.).
- C. It must have the same rotation speed (RPM).
- D. It must be defined in the SVP Spare Drive Mapping table.
- E. It must be located in the same DKU.

Answer: A,B,C

Explanation:

It must have the same or a larger capacity.

The spare drive must be equal to or larger in capacity than the failed drive to ensure data can be fully rebuilt.

It must have the same rotation speed (RPM).

Matching rotation speed is required to maintain consistent performance and RAID group behavior.

It must be of the same type (NL-SAS, SSD, FMD etc.).

The spare drive must be the same drive type as the failed drive to ensure compatibility and maintain system reliability.

NEW QUESTION # 16

Which three Channel Board (CHB) protocols are supported on a VSP 5000 system? (Choose three.)

- A. iSCSI
- B. FC
- C. SCSI
- D. FICON
- E. Wide SCSI

Answer: A,B,D

Explanation:

iSCSI

The VSP 5000 supports iSCSI Channel Boards, enabling block storage over IP networks.

FICON

FICON Channel Boards are supported for mainframe connectivity.

FC

Fibre Channel (FC) Channel Boards are supported for high-performance SAN connectivity.

NEW QUESTION # 17

When installing a VSP 5000, it's essential to properly plan the _____ to avoid future connectivity issues.

- A. power distribution
- B. cooling paths
- C. network configuration
- D. cable management

Answer: C

Explanation:

During installation of the Hitachi VSP 5000 enterprise storage system, network configuration planning is essential to ensure proper communication between the storage array and other components in the IT infrastructure.

Key elements of network configuration include:

Assigning IP addresses for management interfaces

Configuring VLANs and subnets

Planning SAN connectivity (Fibre Channel / Ethernet)

Setting up redundant network paths

Ensuring compatibility with existing switches and hosts

Proper planning prevents common connectivity problems such as:

host access failures

misrouted traffic

management interface inaccessibility.

NEW QUESTION # 18

What are two ways to identify that a problem occurred on a VSP 5000 system? (Choose two.)

- A. A SIM was generated and could be displayed using the SVP GUI.
- B. The Remote Ops SVP Agent called home and a support case was generated.

- C. The Master Alarm LED at the top right of the front door is lit.
- D. An Alert Information Message (AIM) was generated and communicated by SNMP to notify the customer.

Answer: A,C

Explanation:

The Master Alarm LED at the top right of the front door is lit.

A lit Master Alarm LED is a direct hardware indicator that a problem has occurred on the system.

A SIM was generated and could be displayed using the SVP GUI.

A Service Information Message (SIM) indicates an event or error and can be viewed via the SVP GUI, helping identify and diagnose system issues.

NEW QUESTION # 19

What distinguishes the back-end design of VSP 5000 systems from traditional storage systems?

- A. The absence of any physical drives
- B. The use of solid-state drives only
- C. The direct connection to cloud storage
- D. The use of Disk Adapters (DKAs) for enhanced data management

Answer: D

Explanation:

In the Hitachi VSP 5000 storage system:

Disk Adapters (DKAs) are specialized components that manage communication between the storage controllers and physical disks.

DKAs provide:

Efficient I/O routing

Support for multiple disk types (SSD, SAS, etc.)

RAID management and data distribution

High performance and reliability compared to traditional storage systems that rely on simpler disk controllers.

This back-end architecture allows the VSP 5000 to handle large-scale, high-speed enterprise workloads while maintaining data protection and flexibility.

NEW QUESTION # 20

.....

All these three ActualPDF's Hitachi HQT-4160 exam dumps formats contain the real and updated Hitachi HQT-4160 practice test. These Hitachi HQT-4160 pdf questions are being presented in practice test software and PDF dumps file formats. The Hitachi HQT-4160 desktop practice test software is easy to use and install on your desktop computers. Whereas the other Hitachi HQT-4160 web-based practice test software is concerned, this is a simple browser-based application that works with all operating systems. Both practice tests are customizable, simulate actual exam scenarios, and help you overcome mistakes.
