SAP C_HRHPC_2505 시험요강:

주제	소개
주제 1	Provisioning Settings for Employee Central Payroll: This section of the exam measures the skills of integration analysts and covers the provisioning-level configurations required to enable Employee Central Payroll functionality. It includes system setup tasks that must be completed during the initial implementation to ensure the system is payroll-ready.
주제 2	This section of the exam measures the skills of integration analysts and covers the technical and functional configuration for point-to-point integration between Employee Central and the payroll system. It ensures data consistency and proper communication between the two platforms.
주제 3	Declassified Payroll Results: This section of the exam measures the skills of payroll implementation consultants and covers the concept and use of declassified payroll results. It introduces how payroll data is stored and accessed more efficiently for reporting and auditing in SAP's modern payroll architecture.
주제 4	Point-to-Point Integration (Employee Central, Employee Central Time Off): This section of the exam measures the skills of integration analysts and covers the synchronization between Employee Central Time Off and payroll systems through direct integration. It focuses on how leave and absence data are transferred and calculated accurately in payroll.
주제 5	Authorizations In Payroll Control Center: This section of the exam measures the skills of integration analysts and covers how to set up and manage user permissions and access control within the Payroll Control Center. It ensures proper role-based access is maintained to secure payroll data and processes.
