

Reliable JN0-351 Dumps Questions - JN0-351 Authorized Exam Dumps

BONUS!!! Download part of Itcerttest JN0-351 dumps for free: https://drive.google.com/open?id=1f8Z_pwUXvcy0H87190-xoQmFU3aoGntk

We have always been known as the superior after sale service provider, since we all tend to take lead of the whole process after you choose our JN0-351 exam questions. So you have no need to trouble about our JN0-351 learning guide. Our JN0-351 training materials will continue to pursue our passion for better performance and comprehensive service of JN0-351 Exam. Our worldwide after sale staff will be online and reassure your rows of doubts as well as exclude the difficulties and anxiety with all the customers. Just let us know your puzzles and we will figure out together.

Some candidates may wonder that if the payment is quite complex and hard, in fact it is quite easy and simple. Once you have selected the JN0-351 study materials, please add them to your cart. Then when you finish browsing our web pages, you can directly come to the shopping cart page and submit your orders of the JN0-351 learning quiz. Our payment system will soon start to work. Then certain money will soon be deducted from your credit card to pay for the JN0-351 preparation questions. And we will send them to you in 5 to 10 minutes after your purchase.

Pass Guaranteed Quiz Juniper First-grade JN0-351 Reliable Enterprise Routing and Switching, Specialist (JNCIS-ENT) Dumps Questions

Some customers might worry that passing the exam is a time-consuming process. Now our JN0-351 actual test guide can make you the whole relax down, with all the troubles left behind. Involving all types of questions in accordance with the real exam content, our JN0-351 exam questions are compiled to meet all of your requirements. The comprehensive coverage would be beneficial for you to pass the exam. Only need to spend about 20-30 hours practicing our JN0-351 study files can you be fully prepared for the exam. With deeply understand of core knowledge JN0-351 actual test guide, you can overcome all the difficulties in the way. So our JN0-351 exam questions would be an advisable choice for you.

Juniper JN0-351 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Layer 2 Switching or VLANs: This topic deepens the understanding of Layer 2 switching operations within the Junos OS, including VLAN concepts and benefits. Experienced networking professionals gain insights into configuration, monitoring, and troubleshooting techniques essential for network segmentation and efficiency.
Topic 2	<ul style="list-style-type: none">BGP: This topic focuses on the operational and conceptual elements of BGP, a cornerstone in enterprise networks.

Topic 3	<ul style="list-style-type: none"> IS-IS: Aspiring Juniper networking professionals enhance their understanding of IS-IS routing protocols. This topic equips candidates with the knowledge to configure and monitor IS-IS systems, addressing specific exam challenges and practical applications.
Topic 4	<ul style="list-style-type: none"> OSPF: The concepts and operational details of OSPF are explored, providing tools for routing efficiency. Configuration and troubleshooting mastery ensure readiness for both the exam and complex enterprise environments.
Topic 5	<ul style="list-style-type: none"> Protocol Independent Routing: An essential domain for understanding routing components outside protocol dependencies, this topic enhances expertise in configuring, monitoring, and troubleshooting critical elements.

Juniper Enterprise Routing and Switching, Specialist (JNCIS-ENT) Sample Questions (Q14-Q19):

NEW QUESTION # 14

Your switches are managed using Junos Space Network Director. You want to secure the switches using a Network Director filter profile. A filter profile containing one term shown in the exhibit is deployed to ports on managed devices.

Term name*: 1

Source and Destination Parameters

Source Parameters

Value	Except
<input checked="" type="checkbox"/>	<input type="checkbox"/>
MAC	
<input checked="" type="checkbox"/>	<input type="checkbox"/>
02:85:05:00:00:24	

Destination Parameters

Value	Except
<input type="checkbox"/>	<input type="checkbox"/>

Protocols and Ethertypes

DSCP Settings

TCP Settings

ICMP Settings

Action

Action: ☐ Discard ☒ Accept

Counter name: Count Unauthorized

Loss priority: NONE

Policer:

Forwarding class:

Which traffic will be accepted by the filter?

- A. Traffic containing a source MAC of 02:85:05:00:00:24 will be accepted.
- B. Traffic containing a destination MAC of 02:85:05:00:00:24 will be accepted.
- C. No traffic will be accepted.
- D. All traffic will be accepted.

Answer: A

NEW QUESTION # 15

What is the default MAC age-out timer on an EX Series switch?

- A. 300 seconds
- B. 300 minutes
- C. 30 seconds
- D. 30 minutes

Answer: A

Explanation:

The default MAC age-out timer on an EX Series switch is 300 seconds. The MAC age-out timer is the maximum time that an entry can remain in the MAC table before it "ages out," or is removed.

This configuration can influence efficiency of network resource use by affecting the amount of traffic that is flooded to all interfaces. When traffic is received for MAC addresses no longer in the Ethernet routing table, the router floods the traffic to all interfaces.

NEW QUESTION # 16

When electing a DIS in an IS-IS network, what is used to break a priority tie?

- A. lowest MAC address
- **B. highest MAC address**
- C. highest router ID
- D. lowest router ID

Answer: B

NEW QUESTION # 17

Which two elements are used to create the STP bridge ID? (Choose two.)

- A. the port cost
- **B. the bridge priority value**
- C. the root port number
- **D. the system MAC address**

Answer: B,D

NEW QUESTION # 18

Which statement about aggregate routes is correct?

- A. Aggregate routes can only be used for static routing but not for dynamic routing protocols.
- B. Aggregate routes are automatically generated for all of the subnets in a routing table.
- **C. Aggregate routes are used for advertising summarized network prefixes.**
- D. Aggregate routes are always preferred over more specific routes, even when the specific routes have a better path.

Answer: C

Explanation:

Explanation

Aggregate routes are used for advertising summarized network prefixes¹². They help minimize the number of routing tables in an IP network by consolidating selected multiple routes into a single route advertisement¹. This approach is in contrast to non-aggregation routing, in which every routing table contains a unique entry for each route¹.

Therefore, option D is correct. Options A, B, and C are not correct because:

Aggregate routes can be used with both static routing and dynamic routing protocols¹.

Aggregate routes are not automatically generated for all of the subnets in a routing table. They need to be manually configured¹.

Aggregate routes are not always preferred over more specific routes. The route selection process in Junos OS considers several factors, including route preference and metric, before determining the active route¹.

NEW QUESTION # 19

.....

JN0-351 offers free demo for JN0-351 real test. You can check out the interface, question quality and usability of our JN0-351 practice exams before you decide to buy it. You can download our JN0-351 test engine and install it on your phone or other device, then if you are waiting for the bus or on the subway, you can take JN0-351 Exam Dumps out for study. The promotion is regular, so please hurry up to get the most cost-effective Juniper prep exam dumps.
