MB-700 Exam Tests the candidate's ability to plan and design solutions, configure and implement solutions, manage data, and monitor and optimize performance.

Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Sample Questions (Q309-Q314):

NEW QUESTION # 309

A company plans to implement Dynamics 365 Finance.

The company's current system contains sales tax-related data.

You need to design a solution that sequences the transfer of sales tax codes and sales tax groups. What should you do?

- A. Design user acceptance testing processes.
- B. Write customization requirements.
- **C. Design a data migration scenario.**
- D. Analyze data integration points.

Answer: C

NEW QUESTION # 310

A company plans to implement Dynamics 365 Finance and purchase licenses through an Enterprise Agreement (EA).

Development environments must be licensed for the duration of the implementation.

You need to recommend solutions for activating development environments that allows the company to manage costs based on usage.

What should you recommend? To answer, drag the appropriate solutions to the correct requirements.

Each requirement may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows a Microsoft Dynamics 365 interface with three main columns: 'Solutions', 'Answer Area', and 'Solution'.
- **Solutions:** Contains three items: 'Azure Subscription Environment', 'Enterprise Agreement (EA)', and 'Server and Cloud Enrollment (SCE)'.
- **Answer Area:** Contains two requirements: 'Determine environment licensing.' and 'Manage development environment costs.'
- **Solution:** Contains two dashed boxes, each labeled 'Solution'.
A watermark 'Microsoft' and 'studump.com' are visible across the interface.

Answer:

Explanation:

The screenshot shows the same Microsoft Dynamics 365 interface as above, but with the correct solutions dragged to the requirements. 'Server and Cloud Enrollment (SCE)' is dragged to 'Determine environment licensing.', and 'Azure Subscription Environment' is dragged to 'Manage development environment costs.'
A watermark 'Microsoft' and 'studump.com' are visible across the interface.

Explanation:

Box 1: Server and Cloud Enrollment (SCE)

The Server and Cloud Enrollment (SCE) is a licensing vehicle under the Microsoft Enterprise Agreement that enables organizations to standardize on one or more Microsoft Server and Cloud technologies.

To enroll, an installed base-wide commitment, or monetary commitment in the case of Azure, is required to one or more of the following four SCE components:

- * Core Infrastructure
- * Application Platform
- * Developer Platform
- * Microsoft Azure

Enrolling in SCE requires the following:

- * Enterprise Agreement: Although you need to sign an Enterprise Agreement, an Enterprise Enrollment for Desktop is not needed to qualify.
- * Annuity coverage: 100 percent Software Assurance or Subscription coverage is required on your install base for each product

family that you commit to. This includes those licenses that were not covered by Software Assurance when you entered the program.
Box 2: Azure Subscription Environment

NEW QUESTION # 311

A client is planning to implement a Dynamics 365 environment.
The client wants to use Power BI for near real-time reporting and plans on using the Regression suite automation tool to automate testing.
You need to recommend a solution based on the requirements.
What should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Scenario	Solution
Implementation type	<div style="border: 1px solid gray; padding: 5px;"><div style="background-color: #ccc; padding: 2px; display: flex; justify-content: space-between; align-items: center;">▼</div><ul style="list-style-type: none">CloudHybridOn-premises</div>
Workspace type	<div style="border: 1px solid gray; padding: 5px;"><div style="background-color: #ccc; padding: 2px; display: flex; justify-content: space-between; align-items: center;">▼</div><ul style="list-style-type: none">Power BI embeddedPower BI pinned dashboardPower BI tiles</div>

Answer:

Explanation:

The screenshot shows the same interface as above, but with red boxes highlighting the selected options: 'Cloud' in the Implementation type dropdown and 'Power BI embedded' in the Workspace type dropdown.

NEW QUESTION # 312

You need to recommend a performance and load testing strategy for the requirement. What should you recommend? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Recommend objects for load testing.

Recommend a testing sequence.

Option

Customer imports and user count
Order imports and warehouse picking
Order imports, user count, and order entry
Warehouse picking and user count

Data migration and then order import
Order import and then data migration
Vendor import and then order import

Answer:

Explanation:

Answer Area

Requirement

Recommend objects for load testing.

Recommend a testing sequence.

Option

Customer imports and user count
Order imports and warehouse picking
Order imports, user count, and order entry
Warehouse picking and user count

Data migration and then order import
Order import and then data migration
Vendor import and then order import

NEW QUESTION # 313

A company uses Dynamics 365 Supply Chain Management and Microsoft 365 apps to manage sales orders and purchase orders.

A sales manager wants to be able to view sales orders on a monthly basis grouped by sales associate.

The sales manager must be able to do the following:

- * Query the data.
- * Create pie and bar charts.
- * Include or exclude fields.
- * Filter data month to month.
- * Change data within visuals before monthly meetings.

The solution must not require additional licensing.

You need to identify the correct solution and skill set to implement the solution.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Solution required

Skill set required

Skill set required

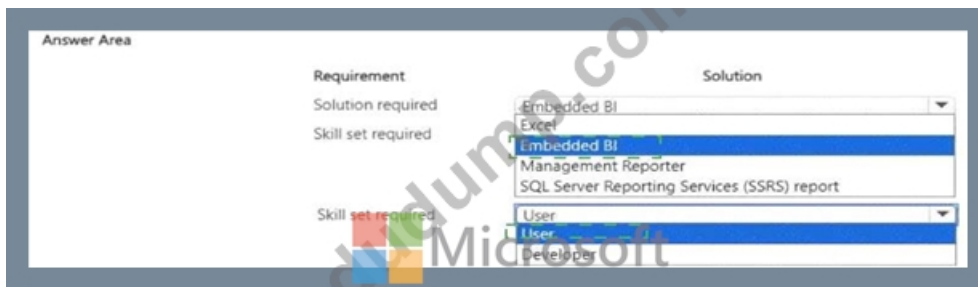

Solution

Embedded BI
Excel
Embedded BI
Management Reporter
SQL Server Reporting Services (SSRS) report

User
User
Developer
