CompTIA Dumps | CompTIA Data+ Certification Exam

Learn more about them.

### Things You Should Know about the CompTIA DA0-001 Exam

CompTIA Data+ is a certification to demonstrate your understanding of the fundamentals of computer data storage and management. It's a foundational certification that can be used to secure entry-level positions in various fields, such as IT, business intelligence, and application development.

CompTIA Data+ is not the only certification available for this industry sector. The CompTIA A+ and Microsoft Certified Solutions Associate exams also cover similar material. However, unlike these exams, CompTIA Data+ does not have a core requisite requirement for passing it. If you already have a working knowledge of networking, operating systems (OS), and some basic computer hardware, you can prepare for this exam without any prior experience in these areas. **CompTIA DA0-001 exam dumps** will help you to clear the concepts.

CompTIA Data+ is designed to assure that candidates have a thorough understanding of how data storage works and the basic concepts involved in managing it. This includes an understanding of how information is stored electronically as well as other, such as tape drives (SDRs), magnetic tapes, optical discs and other storage devices; using with how data can be retrieved from these devices using appropriate software tools.

## New C\_ADBTP Braindumps Ebook - Reliable C\_ADBTP Test Braindumps

The Adminstrating SAP Business Technology Platform(C\_ADBTP\_2601) (C\_ADBTP) actual questions we sell also come with a

free demo. Spend no time, otherwise, you will pass on these fantastic opportunities. Start preparing for the Administrating SAP Business Technology Platform(C\_ADBTP\_2601) (C\_ADBTP) exam by purchasing the most recent SAP C\_ADBTP exam dumps. You must improve your skills and knowledge to stay current and competitive. You merely need to obtain the C\_ADBTP Certification Exam badge in order to achieve this. You must pass the Administrating SAP Business Technology Platform(C\_ADBTP\_2601) exam to accomplish this, which can only be done with thorough exam preparation. Download the Administrating SAP Business Technology Platform(C\_ADBTP\_2601) (C\_ADBTP) exam questions right away for immediate and thorough exam preparation.

## **SAP Administrating SAP Business Technology Platform(C\_ADBTP\_2601) Sample Questions (Q10-Q15):**

### **NEW QUESTION # 10**

#### **SIMULATION**

Establish Shared Services

Task 2: Entitle and Subscribe a Service in a Shared Subaccount

In your SAP BTP cockpit, in your SH Dev subaccount, entitle one standard (Application) service plan for the SAP Build Work Zone, advanced edition.

In the SH Dev subaccount, establish a trust to the agvlankzw.accounts.ondemand.com identity provider.

In your SH Dev subaccount, create a service subscription for SAP Build Work Zone, advanced edition with the standard service plan.

#### **Answer:**

Explanation:

See the Explanation below for complete solution.

Explanation:

Before you start

Log in to SAP BTP Cockpit.

Open your correct Global Account.

Go to the Shared Services directory.

Open the SH Dev subaccount.

This matters because all three required actions must be done inside SH Dev, not in the directory and not in another subaccount.

Part 1 - Entitle the service in SH Dev

Step 1 - Open the subaccount

In the cockpit, choose Directories.

Open Shared Services.

Select SH Dev.

You should now be on the SH Dev subaccount page.

Step 2 - Open Entitlements

In SH Dev, choose Entitlements.

SAP documents that service plans and quotas for a subaccount are added in the subaccount's Entitlements are a.

Step 3 - Add the required service plan

Click Configure Entitlements or Add Service Plans.

Search for SAP Build Work Zone, advanced edition.

Select the service.

Choose the plan standard (Application).

Set the quantity to 1 if a quota/amount field is shown.

Save the entitlement changes.

This task explicitly asks for one standard (Application) service plan. SAP Help also notes that SAP Build Work Zone usage depends on the correct entitlement being available in the subaccount first.

Verify

Under Entitlements, you should now see:

SAP Build Work Zone, advanced edition

plan: standard (Application)

quantity: 1 if shown

Part 2 - Establish trust to the identity provider

Step 4 - Open Trust Configuration

In SH Dev, go to Security.

Choose Trust Configuration.

SAP Help states that trust to a custom identity provider is established from Security > Trust Configuration in the SAP BTP cockpit.

Step 5 - Create the trust

Click Establish Trust.

Enter or select the identity provider:

agvlamkzw.accounts.ondemand.com

Continue through the wizard.

Save the trust configuration.

SAP documents that to use a custom identity provider, the subaccount must have a trust relationship to that provider. SAP also highlights that apps such as SAP Build Work Zone rely on SAP Cloud Identity Services trust configuration.

Verify

On the Trust Configuration page, you should see:

agvlamkzw.accounts.ondemand.com

as a trusted identity provider.

Part 3 - Create the subscription

Step 6 - Open Instances and Subscriptions

In SH Dev, go to Services.

Choose Instances and Subscriptions.

Step 7 - Create the subscription

Click Create.

Choose Subscription if the cockpit asks for a type.

Search for SAP Build Work Zone, advanced edition.

Select the service.

Choose the plan standard.

Confirm the creation.

SAP Help for SAP Build Work Zone scenarios indicates that the subaccount needs the correct entitlements and subscription flow to expose and use SAP Build Work Zone content.

Step 8 - Confirm subscription status

Stay on Instances and Subscriptions.

Check that the new subscription appears and is active.

Verify

You should see:

SAP Build Work Zone, advanced edition

plan: standard

subscription created successfully

Final expected result

Inside SH Dev:

the entitlement for SAP Build Work Zone, advanced edition exists

the entitled plan is standard (Application)

trust is established to agvlamkzw.accounts.ondemand.com

a subscription exists for SAP Build Work Zone, advanced edition

the subscription uses the standard plan

Common mistakes to avoid

Doing the entitlement in Shared Services directory instead of SH Dev

Choosing SAP Build Work Zone, standard edition instead of advanced edition Choosing the wrong plan; the entitlement must be standard (Application) Forgetting the trust step to agvlamkzw.accounts.ondemand.com Trying to subscribe before the entitlement exists

□

## NEW QUESTION # 11

### SIMULATION

Enable a Cloud Foundry Environment

Add a service plan for Cloud Foundry environment and enable it in a subaccount.

Task 1: Add a Service Plan for Cloud Foundry Environment

In your SAP BTP cockpit, in your EU HCM Dev subaccount, entitle one MEMORY service plan for the Cloud Foundry Runtime.

### Answer:

Explanation:

See the Explanation below for complete solution.

Explanation:

Before you start

Log in to SAP BTP Cockpit.

Open your correct Global Account.

Go to the Human Resources directory.

Open the EU HCM Dev subaccount.

This matters because the runtime memory quota must be assigned to the EU HCM Dev subaccount specifically. SAP documents that the MEMORY plan is the quota-bearing plan for Cloud Foundry Runtime.

Step 1 - Open the EU HCM Dev subaccount

In the cockpit, choose Directories.

Open Human Resources.

Select EU HCM Dev.

You should now be on the EU HCM Dev subaccount page.

Step 2 - Open Entitlements

In EU HCM Dev, choose Entitlements.

SAP Help confirms that service plans and quota assignments for a subaccount are configured in the Entitlements area.

Step 3 - Configure entitlements

Click Configure Entitlements or Add Service Plans.

Search for:

Cloud Foundry Runtime

In SAP Help, this appears as Cloud Foundry Runtime (APPLICATION\_RUNTIME), and the relevant plan for assigning runtime memory is MEMORY.

Step 4 - Select the MEMORY plan

Under Cloud Foundry Runtime, select:

MEMORY

Set the quantity to 1 if the cockpit shows an amount/quota field.

Add the plan to the subaccount.

Save the entitlement changes.

SAP documents that the MEMORY plan is specifically used to assign runtime memory quota to the subaccount, and that 1 unit corresponds to 1 GB of runtime memory when quota is adjusted or assigned.

Step 5 - Verify the result

After saving, check the Entitlements page of EU HCM Dev.

You should see:

Cloud Foundry Runtime

plan: MEMORY

quantity: 1 if shown

Final expected result

Inside EU HCM Dev:

Cloud Foundry Runtime is entitled

the service plan is MEMORY

the assigned amount is 1 if the cockpit displays quantity/quota units

Common mistakes to avoid

Doing this in the wrong subaccount; it must be EU HCM Dev

Choosing the wrong Cloud Foundry plan; the task asks for MEMORY

Forgetting to save the entitlement change after adding the plan

Confusing the runtime memory entitlement with the later step of actually enabling the Cloud Foundry environment; SAP distinguishes the MEMORY runtime quota from enabling the Cloud Foundry org itself.

## **NEW QUESTION # 12**

### **SIMULATION**

Enable Service Subscriptions

Task 2: Entitle and Subscribe a Service in a Subaccount

In your AM PA Prod subaccount, entitle the standard (Application) service plan for SAP Build Work Zone, standard edition.

In the AM PA Prod subaccount, establish a trust to the agylamkzw.accounts.ondemand.com identity provider.

In your AM PA Prod subaccount, create a service subscription for SAP Build Work Zone, standard edition with the standard service plan .

### **Answer:**

Explanation:

See the Explanation below for complete solution.

Explanation:

Part A - Entitle the Service Plan in AM PA Prod

Step 1 - Open the AM PA Prod Subaccount

What to do

In the SAP BTP Cockpit, go to Directories.

Open the Partner directory.

Select the subaccount AM PA Prod.

Explanation:

This opens the exact subaccount where the entitlement and subscription must be created.

What to verify

You should now be on the AM PA Prod subaccount page.

Step 2 - Open Entitlements in the Subaccount

What to do

In AM PA Prod, open Entitlements.

Explanation:

SAP documents that subaccount entitlements are configured in the subaccount's entitlement area, where you add service plans and quotas available to that subaccount.

What to verify

You should see the Entitlements screen for AM PA Prod.

☐ Step 3 - Add the Required Service Plan

What to do

Click Configure Entitlements or Add Service Plans.

Search for:

SAP Build Work Zone, standard edition

Select the service.

Choose the plan:

standard (Application)

Add the service plan.

Save the entitlement changes.

Explanation:

The task requires the standard (Application) plan specifically. SAP's entitlement flow requires you to add the service plan to the subaccount before you can subscribe to the application.

What to verify

Under Entitlements, you should now see:

SAP Build Work Zone, standard edition

plan: standard (Application)

Part B - Establish Trust to the Identity Provider

Step 4 - Open Trust Configuration

What to do

In the AM PA Prod subaccount, go to:

Security

Trust Configuration

Explanation:

SAP Help states that trust to a custom identity provider is established from the cockpit in Security > Trust Configuration.

What to verify

You should be on the Trust Configuration page of AM PA Prod.

Step 5 - Start the Trust Setup

What to do

Click Establish Trust or New Trust Configuration.

☐ Explanation:

This opens the wizard or form to add a trusted identity provider for the subaccount. SAP documents this as the standard cockpit flow for custom identity provider trust.

Step 6 - Enter the Identity Provider

What to do

In the trust configuration, use the identity provider:

agvlankzw.accounts.ondemand.com

Continue through the wizard and confirm the trust setup.

Save the configuration.

Explanation:

The simulation explicitly requires trust to that identity provider domain. For SAP Build Work Zone, standard edition, SAP also notes

that the subaccount must trust an identity provider before subscription use cases for business users are completed.

What to verify

On the Trust Configuration page, the identity provider  
agvlamkzw.accounts.ondemand.com should appear as trusted.

□ Part C - Create the Service Subscription

Step 7 - Open the Subscription Area

What to do

In AM PA Prod, go to:

Services

Instances and Subscriptions

Explanation:

SAP Help for SAP Build subscriptions points to the subaccount subscription flow after the entitlement is available. In current cockpit usage, subscriptions are created from the subaccount's services are a.

What to verify

You should see the Instances and Subscriptions page.

□ Step 8 - Create the Subscription

What to do

Click Create.

Choose Subscription if a type selection appears.

Search for:

SAP Build Work Zone, standard edition

Select the plan:

standard

Then confirm the creation.

□ Explanation:

SAP's getting-started guidance for SAP Build Work Zone, standard edition says that once the subaccount has the required entitlement, you can subscribe to the application from the subaccount.

What to verify

You should now see a subscription entry for:

SAP Build Work Zone, standard edition

plan: standard

Step 9 - Confirm the Subscription Is Active

What to do

Check the status of the new subscription in Instances and Subscriptions.

Explanation:

The subscription should be visible and active in the subaccount after creation.

What to verify

You should see:

SAP Build Work Zone, standard edition

subscription created successfully

SAP's guidance for subscription-based applications consistently uses this subaccount subscription flow after entitlement is present.

□ Final Expected Result for Task 2

Inside AM PA Prod:

the entitlement SAP Build Work Zone, standard edition is assigned

the entitled plan is standard (Application)

trust is established to agvlamkzw.accounts.ondemand.com

a subscription exists for SAP Build Work Zone, standard edition

the subscription uses the standard service plan

Common Mistakes to Avoid

1. Doing the entitlement in the wrong place

This task must be done in:

AM PA Prod subaccount

Not only in:

Partner directory

Directory entitlement and subaccount entitlement are different scopes in the cockpit.

2. Choosing the wrong service or wrong plan

Use exactly:

SAP Build Work Zone, standard edition

standard (Application) for entitlement

standard for the subscription selection screen

SAP's service subscription flow starts only after the correct entitlement exists.

### 3. Skipping trust configuration

The simulation explicitly requires trust to:

agvlamkzw.accounts.ondemand.com

Trust is configured in Security > Trust Configuration.

### 4. Looking for subscription creation before entitlement

The entitlement must be added first, otherwise the service may not appear in the subscription creation flow.

Quick Validation Checklist

Confirm all of the following in AM PA Prod:

Entitlements contains SAP Build Work Zone, standard edition

the plan is standard (Application)

Trust Configuration shows agvlamkzw.accounts.ondemand.com

Instances and Subscriptions shows SAP Build Work Zone, standard edition the subscription is created successfully

## NEW QUESTION # 13

### SIMULATION

Create Directories and Subaccounts

In a global account for SAP Business Technology Platform (BTP), create a hierarchy of subaccounts using directories.

Task 1: Create Directories

In your SAP BTP cockpit, create the directory Americas (Description: Americas Accounts) with your global account as the parent.

Create the directory Eurasia (Description: Eurasia Accounts) with your global account as the parent.

Create the directory Partner (Description: Partner Accounts) with the Americas directory as the parent. Add the label access with value external.

Create the directory Human Resources (Description: Human Resources Accounts) with the Eurasia directory as the parent. Add the label access with value internal.

### Answer:

Explanation:

See the Explanation below for complete solution

Explanation:

Task 1: Create Directories

You need to create these directories:

Americas

Eurasia

Partner under Americas with label access=external

Human Resources under Eurasia with label access=internal

Before You Start

Log in to the SAP BTP Cockpit.

Make sure you are inside the correct Global Account.

Open the left-side navigation menu.

Why this is important:

All directories in this task must be created inside the correct global account hierarchy. If you create them in the wrong location, the simulation result will be incorrect.

Step 1 - Create Directory Americas

What to do

In the SAP BTP Cockpit, select your Global Account.

In the left navigation menu, click Directories.

Click Create or Create Directory.

Fill the fields as follows:

Name: Americas

Description: Americas Accounts

Parent: your Global Account

Click Create.

Explanation:

This creates a top-level directory directly under the global account.

It will later be used as the parent for the Partner directory.

What to verify

After creation, you should see:

Americas

listed under the directories of the global account.

Step 2 - Create Directory Eurasia

What to do

Stay in Directories.

Click Create Directory again.

Fill the fields:

Name: Eurasia

Description: Eurasia Accounts

Parent: your Global Account

Click Create.

□ Explanation:

This creates another top-level directory, parallel to Americas.

What to verify

You should now see both:

Americas

Eurasia

under the global account.

Step 3 - Create Directory Partner under Americas

What to do

In the Directories area, select Americas.

Click Create Directory.

Enter:

Name: Partner

Description: Partner Accounts

Parent: Americas

Locate the Labels section.

Add a new label:

Key: access

Value: external

Click Create.

□ Explanation:

This creates Partner as a child directory under Americas.

The label is required and must be entered exactly:

access = external

This label helps classify the directory.

What to verify

Under Americas, you should now see:

Partner

and the directory should contain the label:

access=external

Step 4 - Create Directory Human Resources under Eurasia

What to do

Go back to the Directories list.

Select Eurasia.

Click Create Directory.

Enter:

Name: Human Resources

Description: Human Resources Accounts

Parent: Eurasia

In the Labels section, add:

Key: access

Value: internal

Click Create.

□ Explanation:

This creates Human Resources as a child directory under Eurasia.

The required label is:

access = internal

What to verify

Under Eurasia, you should now see:

Human Resources

and the label should be:

access=internal

Final Expected Directory Structure

After completing Task 1, your structure must be exactly like this:

Global Account

Americas

Partner

Label: access=external

Eurasia

Human Resources

Label: access=internal

□ Important Checks Before Moving On

Verify all of the following:

Americas exists

Eurasia exists

Partner is under Americas

Human Resources is under Eurasia

Partner has label access=external

Human Resources has label access=internal

All names and descriptions are entered exactly as required

Common Mistakes to Avoid

1. Wrong parent

Partner must be created under Americas

Human Resources must be created under Eurasia

2. Wrong label key or value

Use exactly:

access → external

access → internal

3. Spelling errors

Be careful with:

Americas

Eurasia

Partner

Human Resources

4. Creating all directories directly under the global account

Only Americas and Eurasia are direct children of the global account.

Partner and Human Resources must be child directories.

## NEW QUESTION # 14

.....

In order to provide the most effective C\_ADBTP exam materials which cover all of the current events for our customers, a group of experts in our company always keep an close eye on the changes of the C\_ADBTP exam even the smallest one, and then will compile all of the new key points as well as the latest types of exam questions into the new version of our C\_ADBTP Practice Test, and you can get the latest version of our study materials for free during the whole year. Do not lose the wonderful chance to advance with times.

**New C\_ADBTP Braindumps Ebook:** [https://www.dumptorrent.com/C\\_ADBTP-braindumps-torrent.html](https://www.dumptorrent.com/C_ADBTP-braindumps-torrent.html)

We Real4dumps helped more 5800 candidates pass C\_ADBTP exam since the year of 2009, PC version of C\_ADBTP exam torrent is popular, Or, you can consult someone who has participated in the C\_ADBTP exam, Our C\_ADBTP study materials will help you save money, energy and time, They will carefully tell their thoughts about our C\_ADBTP study guide, SAP Pdf C\_ADBTP Dumps The unique dumps, prepared and approved the industry's specialists, are meant to impart you the most relevant knowledge, you need to pass your certification exam.

These are all compensating factors, Dan's project work has ranged C\_ADBTP from analyzing complex genomics and proteomics data to designing and implementing numerous database applications.
