With the increasing demand for remote work and cloud computing solutions, the Microsoft AZ-140 certification can help IT professionals stand out in the job market and advance their careers in the field of virtualization.

## Microsoft Configuring and Operating Microsoft Azure Virtual Desktop Sample Questions (Q229-Q234):

### NEW QUESTION # 229

You have an Azure subscription that contains a hybrid Azure Active Directory (Azure AD) tenant and two domain-joined Azure virtual machines. The virtual machines run Windows Server 2019 and contain managed disks.

You plan to deploy an Azure Virtual Desktop host pool that will use a Storage Spaces Direct Scale-Out File Server to host user profiles.

You need to ensure that the virtual machines can host the Storage Spaces Direct deployment. The solution must meet the following requirements:

- \* Ensure that the user profiles are available if a single server fails.
- \* Minimize administrative effort.

What should you do? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

### Answer:

Explanation:

### NEW QUESTION # 230

Your network contains an on-premises Active Directory domain named contoso.com that syncs to an Azure Active Directory (Azure AD) tenant.

You have an Azure Virtual Desktop host pool named Pool1 that has the following settings:

- \* Host pool name: Pool1
- \* Host pool type: Personal
- \* Load balancing algorithm: Breadth-first
- \* Number of VMs: 3

The session hosts have the following configurations:

- \* Image used to create the virtual machines: Windows 10 Enterprise
- \* Virtual machines domain-joined to: On-premises contoso.com domain

You need to ensure that you can use Microsoft EndPoint Manager to manage security update on the session hosts.

What should you do?

- A. Change Host pool type to Pooled
- **B. Configure the session hosts as hybrid Azure AD-joined**
- C. Create Windows 10 Enterprise multi-session images
- D. Change Load balancing algorithm to Depth-first

### Answer: B

Explanation:

As the pool type is personal, you don't need multi-session vms.

#### NEW QUESTION # 231

You have a Windows Virtual Desktop deployment.

You plan to create the host pools shown in the following table.

You need to recommend the virtual machine size for each host pool. The solution must minimize costs.

Which size should you recommend for each pool? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

<https://docs.microsoft.com/en-us/azure/virtual-machines/dv4-dsv4-series>

#### NEW QUESTION # 232

You have an Azure subscription.

You need to deploy an Azure Virtual Desktop host pool that will contain 20 Windows 11 session hosts. The solution must meet the following requirements:

\* Each session host must have a Windows client license applied.

\* Administrative effort must be minimized.

What should you use to deploy the session hosts?

- A. the Azure portal
- B. Windows Autopilot
- C. Microsoft Intune
- D. an Azure Automation runbook

**Answer: A**

#### NEW QUESTION # 233

You have an Azure subscription named Sub1 and a Microsoft 365 E5 subscription.

The tenant contains user accounts for all internal users and users from a partner company named Fabrikam, Inc. Each internal user is assigned a Microsoft 365 E5 license. The users at Fabrikam are not assigned any licenses.

Sub1 has an Azure Virtual Desktop deployment that contains a host pool named Pool1. Pool1 contains a RemoteApp named App1.

You need to configure access to App1. The solution must meet the following requirements:

\* The Fabrikam users must be licensed by using Per-user access pricing.

\* App1 must be accessible to all the internal and Fabrikam users.

\* Costs must be minimized.

What should you do first?

- A. Add the Fabrikam users to the application group that contains App1.
- B. Add a new host pool to Sub1.
- C. Add a new host pool to a new Azure subscription.
- D. Assign a Microsoft 365 F3 license to each Fabrikam user.

**Answer: A**

#### NEW QUESTION # 234
