HP Aruba Certified Data Center Professional Exam Sample Questions (Q50-Q55):

NEW QUESTION # 50

When configuring server virtualization in a data center solution, which technology allows multiple virtual machines to share physical resources?

- A. XenServer
- B. Kernel-based Virtual Machine (KVM)
- C. Hypervisor
- D. VMware vSphere

Answer: C

Explanation:

Hypervisor technology allows multiple virtual machines to share physical resources in a data center solution.

NEW QUESTION # 51

When configuring a RADIUS CoA (Change of Authorization) in ClearPass, which of the following scenarios would require CoA instead of standard authentication? (Select two.)

- A. Applying QoS policies to an already connected device.
- B. Blocking a device after detecting malicious activity.
- C. Forcing a reauthentication of the user without disconnecting them.
- D. Dynamically adjusting VLAN assignments after initial authentication.

Answer: A,D

Explanation:

CoA is used to modify session parameters (e.g., VLAN, QoS) post-authentication without disconnecting the client. Blocking a device (D) typically uses ACLs or disconnection, while reauthentication (B) can be done via standard RADIUS.

NEW QUESTION # 52

Which diagnostic tool is essential for pinpointing the source of network performance issues by capturing and analyzing data packets?

- A. System logs
- B. Performance monitoring
- C. Packet sniffing
- D. Traceroute

Answer: C

Explanation:

Packet sniffing tools capture and analyze data packets to pinpoint the source of network performance issues.

NEW QUESTION # 53

Which of the following is an important aspect of integration testing in a data center environment?

- A. Testing individual components in isolation
- **B. Testing the interactions between multiple components**
- C. Using production data for testing
- D. Skipping the testing phase to speed up deployment

Answer: B

Explanation:

Integration testing in a data center environment focuses on testing the interactions between multiple components to ensure smooth operation.

NEW QUESTION # 54

When planning the low-level design of a data center solution, which of the following factors should be considered?

- A. Server rack color
- B. Employee lunch preferences
- C. Outdoor temperature trends
- **D. Network bandwidth requirements**

Answer: D

Explanation:

Network bandwidth requirements are essential to consider when planning the low-level design of a data center solution.

NEW QUESTION # 55

.....
