PRINCE2 7 Foundation written Exam Sample Questions (Q462-Q467):

NEW QUESTION # 462

Which is performed as part of the recommended risk management procedure?

- A. Allocation of a budget to investigate issues facing the project
- **B. Sending of information about risks to the project to project stakeholders**
- C. Review of risk management practices to ensure that they are performed effectively
- D. Resolution of conflicts between the project and the programme board

Answer: B

NEW QUESTION # 463

Which role is responsible for creating Checkpoint Reports?

- **A. Team Manager**
- B. Project Support
- C. Change Authority
- D. Senior Supplier

Answer: A

Explanation:

Section: Volume B

NEW QUESTION # 464

Which is NOT a type of issue?

- A. A request for change
- B. An off-specification
- **C. A constraint**
- D. A problem/concern

Answer: C

NEW QUESTION # 465

Which describes a time-driven control?

- A. The dates for the project's end stage assessment included in the project plan
- B. The expected dates for planned checks of specialist products included in a stage plan
- C. The planned exception assessment meeting to authorize a requested exception plan
- **D. The expected frequency of progress reports specified in a work package**

Answer: D

Explanation:

A time-driven control is defined as a monitoring system that is based on a fixed time interval, such as weekly or monthly progress reports. The expected frequency of progress reports specified in a work package represents a time-driven control, where updates are required at predefined intervals irrespective of the state of the project at those times.
