BTW, DOWNLOAD part of Lead1Pass 3V0-32.23 dumps from Cloud Storage: [https://drive.google.com/open?id=1\\_H11H2S4soq3OijKv4PvkfE4SvE-UIHA](https://drive.google.com/open?id=1_H11H2S4soq3OijKv4PvkfE4SvE-UIHA)

There are many ways to help you pass VMware certification 3V0-32.23 exam and selecting a good pathway is a good protection. Lead1Pass can provide you a good training tool and high-quality reference information for you to participate in the VMware certification 3V0-32.23 exam. Lead1Pass's practice questions and answers are based on the research of VMware certification 3V0-32.23 examination Outline. Therefore, the high quality and high authoritative information provided by Lead1Pass can definitely do our best to help you pass VMware certification 3V0-32.23 exam. Lead1Pass will continue to update the information about VMware certification 3V0-32.23 exam to meet your need.

Customizable Cloud Management and Automation Advanced Design (3V0-32.23) exam conditions in such a way that you can create your desired 3V0-32.23 exam with pre-determined questions and exam duration. You will be able to see instant results after going through the 3V0-32.23 Practice Exam To confirm the product licence. For customer satisfaction, Lead1Pass has also designed a Cloud Management and Automation Advanced Design (3V0-32.23) demo version so the candidate can assure the reliability of the VMware PDF Dumps.

## 3V0-32.23 Reliable Exam Price | Sample 3V0-32.23 Questions

Choose the right format of VMware 3V0-32.23 actual questions and start 3V0-32.23 preparation today. Top Notch VMware 3V0-32.23 Actual Dumps Are Ready for Download. Now is the ideal time to prepare for and crack the VMware 3V0-32.23 Exam. To do this, you just need to enroll in the 3V0-32.23 examination and start preparation with top-notch and updated VMware 3V0-32.23 actual exam dumps.

VMware 3V0-32.23 certification exam is designed for professionals who want to validate their knowledge and skills in cloud management and automation advanced design. 3V0-32.23 exam is intended for individuals who have experience in designing, implementing, and managing complex cloud-based solutions. Cloud Management and Automation Advanced Design certification is vendor-neutral, and it demonstrates a deep understanding of cloud management and automation technologies.

VMware 3V0-32.23 certification exam is a highly respected and sought-after certification in the IT industry. It is designed for professionals who want to advance their careers in cloud management and automation and demonstrate their expertise in designing and implementing VMware solutions. Cloud Management and Automation Advanced Design certification is recognized globally and can open up new career opportunities for professionals in the IT industry.

VMware 3V0-32.23 Exam is designed to test the knowledge and skills of IT professionals in cloud management and automation. This advanced-level exam is intended for individuals who have a thorough understanding of VMware technologies and are experienced in designing and implementing cloud-based solutions. Passing 3V0-32.23 exam demonstrates a high level of expertise in cloud infrastructure design and automation, making certified professionals highly sought after in the industry.

## VMware Cloud Management and Automation Advanced Design Sample Questions (Q116-Q121):

### NEW QUESTION # 116

A cloud architect is writing an implementation plan for deployment of a clustered vRealize Automation deployment that will use a third-party load balancer.

Which two steps should the architect include within the implementation plan to ensure a successful deployment of vRealize Automation? (Choose two.)

- A. Turn off the health monitors or change them temporarily to default to ICMP and ensure traffic is still forwarding to the primary node
- B. Disable all secondary nodes from the load balancer pools
- C. Create and configure the monitoring of vRealize Automation and vRealize Orchestrator
- D. Enable all non-primary nodes on the load balancer
- E. Ensure all the SAN certificates for vRealize Suite are available

**Answer: A,B**

### NEW QUESTION # 117

After an organization completed an audit of their vSphere environment, they found that virtual machine deployments weren't consistent. They weren't using appropriate vSphere tags, resulting in confusion around who owned what virtual machines. Going forward Aria Automation has been chosen to bring consistency to their deployments and day two management. The organization wants to make sure the resources of each department are tagged appropriately.

Which two options will meet the technical requirements? (Choose two.)

- A. Apply tags manually after deployment
- B. Create a single project for all departments
- C. Set capability tags in cloud zone
- D. Create a project for each department
- E. Set resource tags in every project

**Answer: D,E**

Explanation:

Creating a project for each department and defining resource tags in each project ensures resources are automatically and consistently tagged per department during deployment, meeting the organization's requirements for ownership and consistency.

### NEW QUESTION # 118

An architect is responsible for designing the physical deployment of a four-node VMware Aria Operations cluster for a healthcare customer. The following requirements must be met:

vSphere management cluster consists of three nodes

Recovery Time Objective (RTO) of less than 2 hours

Use existing customer backup solution

Which recommendation should the architect make to satisfy the requirements?

- A. Deploy VMware Aria Operations relying on customer backup solution for backup and restore capabilities.
- B. Deploy VMware Aria Operations high availability to address unintended disaster recovery with customer backup and restore capabilities.
- C. Deploy VMware Aria Operations continuous availability to address downtime with customer backup and restore capabilities.
- D. Deploy VMware Aria Operations with both high availability and continuous availability with customer backup and restore capabilities.

**Answer: B**

Explanation:

High availability in VMware Aria Operations ensures the solution can tolerate node failures and minimize downtime, supporting a low RTO. Leveraging the existing customer backup solution provides backup and restore capabilities without the added complexity of

continuous availability, which is not strictly required for an RTO under 2 hours.

#### NEW QUESTION # 119

An architect is designing a new VMware Aria Cloud Management solution. During the requirements gathering workshop, the customer made the following comments:

The monthly uptime target of the cloud management solution must be 99.9%.

All components of the cloud management solution must be deployed with a N+1 redundancy.

When creating the design documentation, how should these requirements be classified?

- A. Recoverability
- B. Performance
- C. Availability
- D. Manageability

**Answer: C**

Explanation:

Requirements for uptime targets and N+1 redundancy relate directly to system availability, ensuring the solution remains accessible and operational as specified.

#### NEW QUESTION # 120

An architect is designing the deployment of VMware Aria Operations for Logs for a customer. The following information is provided:

Three on-premises DNS servers: dns01.rainpole.local, dns02.rainpole.local and dns03.rainpole.local.

Configure VMware Aria Operations for Logs to support on-prem redundancy in consuming DNS services.

What design decision would the architect choose to achieve the requirement?

- A. Configure VMware Aria Operations for Logs instance to use dns01.rainpole.local, dns02.rainpole.local and dns03.rainpole.local.
- B. Configure VMware Aria Operations for Logs instance to use dns02.rainpole.local only.
- C. Configure VMware Aria Operations for Logs instance to use dns01.rainpole.local and dns03.rainpole.local only.
- D. Configure VMware Aria Operations for Logs instance to use a public DNS server and dns01.rainpole.local.

**Answer: A**

Explanation:

Configuring all three on-premises DNS servers provides redundancy, ensuring that DNS services remain available even if one or two servers fail, which meets the on-premises redundancy requirement.

#### NEW QUESTION # 121

.....

We are engaging in this line to provide efficient reliable 3V0-32.23 practice materials which is to help you candidates who are headache for their 3V0-32.23 exams. They spend a lot of time and spirits on this exam but waste too much exam cost. Our 3V0-32.23 quiz question torrent can help you half work with double results. Sometimes choice is more important than choice. After purchasing our exam 3V0-32.23 Training Materials, you will have right ways to master the key knowledge soon and prepare for 3V0-32.23 exam easily, you will find clearing 3V0-32.23 exam seems a really easily thing.
