GAQM CDCS-001 Pdf Files - New CDCS-001 Real Exam

Newest CDCS-001 Reliable Test Vce & Leading Offer in Qualification Exams & Unparalleled CDCS-001: Certified Data Centre Specialist (CDCS)

ExamBoosts is a website specifically provide the certification exam information sources for GAQM professionals. Through many reflects from people who have purchase ExamBoosts's products, ExamBoosts is proved to be the best website to provide the source of information about CDCS-001 Certification Exam. The product of CDCS-001 is a very reliable training tool for you. The answers of the exam exercises provided by ExamBoosts is very accurate. Our ExamBoosts's senior experts are continuing to enhance the quality of our training materials.

The CDCS-001 exam covers a wide range of topics related to data center management, including power and cooling, networking, storage, virtualization, security, and disaster recovery. CDCS-001 exam consists of 100 multiple-choice questions and must be completed within 120 minutes. The passing score for the exam is 70%, and candidates who pass the exam receive a certificate that is valid for three years.

GAQM Certified Data Centre Specialist (CDCS) Sample Questions (Q20-Q25):

NEW QUESTION # 20
For which one of these processes is Direct Current essential, and will not work with alternating current?

- A. Heating
- B. Electrolysis
- C. Lighting
- D. Turning a motor

Answer: B

Explanation:
Explanation
Direct Current (DC) is essential for the process of electrolysis. Electrolysis is the process of breaking down a compound using an electric current. The electric current causes ions to move, which results in a chemical reaction that breaks down the compound. In order for electrolysis to work, a direct current is required, as the ions must flow in one direction. Alternating Current (AC) changes direction and would not provide a consistent flow of ions.
Heating, lighting, and turning a motor can be done by either DC or AC. Heating can be done by passing an electric current through a heating element, which can be powered by either DC or AC. Lighting can be done by passing an electric current through a light bulb, which can be powered by either DC or AC. A motor can be powered by either DC or AC, but the type of motor and the application will determine which type of current is more suitable.

NEW QUESTION # 21
Which one of the following uses sensors such as laser beams or touch sensor?

- A. CCTV

If you buy online classes, you will need to sit in front of your computer on time at the required time; if you participate in offline counseling, you may need to take an hour or two of a bus to attend class. But if you buy CDCS-001 test guide, things will become completely different. Unlike other learning materials on the market, Certified Data Centre Specialist (CDCS) torrent prep has an APP version. You can download our app on your mobile phone. And then, you can learn anytime, anywhere. Whatever where you are, whatever what time it is, just an electronic device, you can do exercises. With Certified Data Centre Specialist (CDCS) torrent prep, you no longer have to put down the important tasks at hand in order to get to class; with CDCS-001 Exam Questions, you don't have to give up an appointment for study.

The CDCS certification exam is ideal for professionals who work in the data centre industry, such as infrastructure architects, data centre managers, network engineers, server administrators, and storage professionals. It is also suitable for those who are seeking to switch their career to data centre technologies and want to learn best practices in designing and managing data centres.

GAQM CDCS-001 (Certified Data Centre Specialist (CDCS)) Exam is a professional certification exam that focuses on the latest techniques and best practices for data centre operations and management. CDCS-001 exam is designed to test the knowledge and skills of individuals who are responsible for the day-to-day operations and management of data centres. Certified Data Centre Specialist (CDCS) certification is recognized globally and provides individuals with the necessary skills to excel in their careers as data centre specialists.

The CDCS-001 Exam is ideal for professionals who work in data centers, including data center managers, network engineers, system administrators, and IT professionals. Certified Data Centre Specialist (CDCS) certification program is also beneficial for

those who aspire to work in data centers or are interested in pursuing a career in this field. The CDCS-001 exam is an excellent way to demonstrate your knowledge and skills in data center design, operations, and management, and to enhance your career prospects in this high-demand field.

New CDCS-001 Real Exam | Reliable CDCS-001 Exam Prep

The Certified Data Centre Specialist (CDCS) (CDCS-001) certification exam is one of the top-rated career advancement certifications in the market. This Certified Data Centre Specialist (CDCS) (CDCS-001) exam dumps have been inspiring beginners and experienced professionals since its beginning. There are several personal and professional benefits that you can gain after passing the GAQM CDCS-001 Exam. The validation of expertise, more career opportunities, salary enhancement, instant promotion, and membership of GAQM certified professional community.

GAQM Certified Data Centre Specialist (CDCS) Sample Questions (Q47-Q52):

NEW QUESTION # 47
Which one of the following is an overall consideration for physical security?

- A. Identify the problem
- B. Apply the solution
- C. Define the problem
- D. Apply the technology

Answer: C

Explanation:
Defining the problem is an important overall consideration for physical security. This process involves identifying and analyzing the threats and vulnerabilities that could potentially affect the security of the system, as well as determining what steps need to be taken to mitigate these risks. This process should be done before any other steps are taken to ensure physical security, as it helps to ensure that the security measures are tailored to the specific needs of the system.

NEW QUESTION # 48
If a waveform period is determined to be 10 microseconds in duration, what is the frequency of the signal?

- A. 100 kHz
- B. 1000 Hz
- C. 100 Hz
- D. 10 kHz

Answer: A

Explanation:
Frequency is the inverse of period, so to calculate the frequency of a signal with a period of 10 microseconds, you would divide 1 by the period, which is equal to 100 kHz.

NEW QUESTION # 49
Which one of the following is an advantage of using Natural Gas?

- A. Maximum carbon build up
- B. More exhaust able
- C. Tends to cost more
- D. Minimum carbon build up

Answer: D

Explanation:
Explanation
The main advantage of using natural gas is that it tends to produce fewer carbon emissions than other fossil fuels, such as coal or oil. Natural gas combustion produces less carbon dioxide and other pollutants than other fuels, making it a cleaner and more renewable source of energy. Additionally, natural gas costs less than other fuels, making it a more cost-effective option.

NEW QUESTION # 50

Which system in Air Distribution System takes the hot exhaust air from the IT equipment to the CRAC

- A. Regulation system
- B. Supply system
- C. Maintenance system
- D. Return system

Answer: D

Explanation:
Explanation
The return system in an air distribution system takes the hot exhaust air from the IT equipment and returns it to the Computer Room Air Conditioner (CRAC) unit. The CRAC unit cools the hot exhaust air and recirculates it back into the data center. The return system typically includes ducts, grills, and other components that allow the hot air to be efficiently and effectively returned to the CRAC unit.
Supply system is responsible for bringing in the cooled and filtered air from the CRAC unit to the data center.
Maintenance system and regulation system are not related to air distribution system in the data center.

NEW QUESTION # 51

_____ security means keeping unauthorized or ill-intentioned people out of places that they do not belong.

- A. Physical
- B. Network
- C. Logical
- D. Topological

Answer: A

Explanation:
Physical security means keeping unauthorized or ill-intentioned people out of places that they do not belong.
This can involve a variety of measures, such as locks, alarms, access control systems, cameras, and guards.
Physical security is an important part of any security system, as it helps to protect valuable assets and personnel from theft, vandalism, and other malicious activities.

NEW QUESTION # 52

......
