Avaya IP Office™ Platform Support Online Test Sample Questions (Q81-Q86):

NEW QUESTION # 81

Which Configuration tile within the Configuration Wizard, must be populated first, before any other tiles can be seen?

- A. Ignite
- B. Status
- C. System
- D. Users

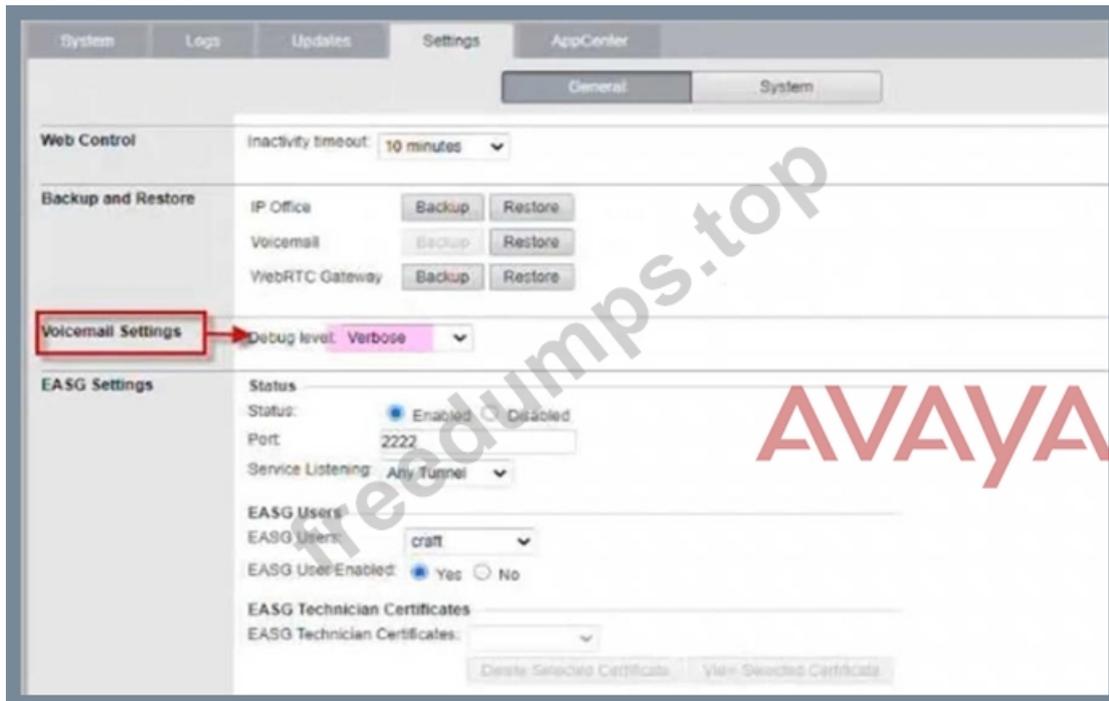

Answer: C

Explanation:

Within the Configuration Wizard, the System tile must be populated first before any other tiles can be seen. This step involves configuring the system settings, which are required as a foundational setup before proceeding with other configurations such as users, voicemail, or telephony settings.

NEW QUESTION # 82

Refer to the Exhibit.

Before simulating an error condition in relation to voicemail logs, a Business Partner has set the Voicemail Settings to a debug level of Verbose.

When setting the level to Verbose, what is the equivalent level number shown in the audit logs?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

When the Voicemail Settings are set to a Verbose debug level, the equivalent level number shown in the audit logs is 9. This setting allows for the most detailed level of logging, capturing extensive information about voicemail activity.

NEW QUESTION # 83

To display Avaya IP Office™ resources including CPU utilization, Channel utilization, and license status, which application is used?

- A. Web Manager Application
- B. WebLM Application
- C. System Status Application
- D. System Monitor Application

Answer: C

Explanation:

The System Status Application is used to display Avaya IP Office™ resources, including CPU utilization, channel utilization, and license status. This application allows administrators to monitor the system's health and resource usage, ensuring the system is operating optimally.

NEW QUESTION # 84

Which statement about the Linux OS for IP Office is true?

- A. IP Office system configurations can be completed using either the Linux command line or a GUI interface.
- B. The IP Office for Linux software is only available as a custom order from Avaya and cannot be downloaded.
- C. The base operating system installed is CentOS.
- D. The Linux OS is an optional component that can be installed after IP Office Server Edition installation.

Answer: D

Explanation:
