L5M5模擬問題、L5M5関連合格問題

いつもあなたに最高のL5M5認定試験に関連する試験参考書を与えられるために、Topexamは常に問題集の質を改善し、ずっと最新の試験のシラバスに応じて問題集を更新しています。現在の市場では、Topexamはあなたの最もよい選択です。長い間にわたって、Topexamは多くの受験生に認可されました。私を信じていないなら、周りの人々に聞いてみてもいいです。Topexamの試験問題集を利用したことがある人がきっといますから。Topexamは最優秀な試験L5M5参考書を提供してあなたを試験に合格させることを保証します。

CIPS L5M5 認定試験の出題範囲:

トピック	出題範囲
トピック 1	<ul style="list-style-type: none"> Understand initiatives and standards related to ESG (Environmental, Social, and Governance) that support ethical and sustainable procurement and supply: This section of the exam measures the skills of Procurement Leaders and covers the global frameworks and standards that shape ethical supply practices. It explores international labour standards set by organizations such as the UN and ILO, and labour codes like the Ethical Trading Initiative and SA800. Candidates also examine external environmental frameworks, industry accreditations, and their role in meeting ESG goals. Finally, this section addresses fair trade principles, organizations such as WFTO and Fairtrade International, and the need to align internal governance with global standards.
トピック 2	<ul style="list-style-type: none"> Understand the impact of ESG (Environmental, Social, and Governance) considerations on ethical and sustainable supply chains: This section of the exam measures the skills of Procurement Managers and covers how ESG principles are applied to secure ethical and sustainable supply chains. It looks at the role of environmental, social, and governance factors in procurement decisions, alongside risks and benefits of ESG adoption. Learners also explore issues such as modern slavery, bribery, and human rights, as well as the importance of diversity, inclusion, and stakeholder management. The section highlights how globalization, culture, and labour practices shape supply strategies and examines potential conflicts that may arise when balancing ESG priorities with business demands.
トピック 3	<ul style="list-style-type: none"> Understand the importance of compliance with ESG (Environmental, Social, and Governance) factors to achieve ethical and sustainable procurement and supply arrangements: This section of the exam measures skills of Supply Chain Specialists and covers methods to ensure compliance with ESG standards in procurement. It includes the use of supply chain mapping, risk management, stakeholder engagement, and contractual terms to secure sustainable practices. Candidates also learn how to monitor supplier performance, handle non-compliance, and utilize third-party auditors to maintain ethical standards. Relationship management strategies, corrective actions, and escalation processes are emphasized as part of ensuring suppliers meet ESG expectations.

CIPS Managing Ethical Procurement and Supply (L5M5) 認定 L5M5 試験問題 (Q59-Q64):

質問 # 59

Creating value responsibly for shareholders would sit under which aspect of the sustainability triple bottom line?

- A. Economic
- B. Social
- C. Environmental
- D. Legal

正解: A

解説:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The economic pillar of the Triple Bottom Line refers to the creation of financial value while maintaining responsibility toward stakeholders. The L5M5 study guide (p.179) explains that sustainability in procurement is not only about compliance with social and environmental standards but also about ensuring financial viability. Activities such as delivering shareholder returns, managing costs, and achieving long-term profitability fall under the economic dimension. "Legal" is not one of the TBL pillars, and while law supports governance, it is not itself a sustainability principle. Therefore, creating value for shareholders through responsible economic performance is clearly categorised under the economic aspect of TBL.

質問 # 60

A procurement team runs a tender for new office furniture, prioritising cost. What is the main risk of this approach?

- A. Suppliers may sacrifice sustainability agenda
- B. Rushed tender process
- C. Not receiving any bids
- D. Receiving too many bids

正解: A

解説:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

When cost is the overriding priority, suppliers may compromise on sustainability. The L5M5 study guide explains that cheap materials may be unsustainably sourced (e.g., timber from non-certified forests). This is particularly highlighted in the old syllabus under LO 3.4, which noted risks when cost or speed is prioritised over ESG. Procurement professionals must balance cost, quality, speed, and sustainability to avoid reputational damage and unethical practices. Focusing solely on cost undermines long-term ESG commitments.

質問 # 61

Jan is a procurement manager exploring Low-Cost Country Sourcing. Which of the following is a legitimate motive for this?

- A. To get free holidays
- B. To reduce operational expenses
- C. To exploit other countries' natural resources
- D. To avoid stringent restrictions in your own country

正解: B

解説:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The L5M5 study guide (p.71) explains that the legitimate motive for Low-Cost Country Sourcing (LCCS) is reducing operational expenses by accessing cheaper materials, labour, or manufacturing. However, this must be conducted ethically, balancing cost savings with environmental, social, and legal responsibilities. Options A and B reflect unethical practices, while C is irrelevant. Procurement professionals must carefully evaluate suppliers in low-cost countries to ensure compliance with ethical standards such as labour rights, environmental protection, and anti-bribery legislation. LCCS can create value but must not compromise sustainability or governance.

質問 # 62

Which of the following statements about the ILO (International Labour Organisation) is incorrect?

- A. The ILO has a representation and complaints process
- B. The ILO sets standards on health and safety in the workplace and maternity protection
- C. It is a body of the WTO
- D. A principle of the ILO is to eliminate child labour

正解: C

解説:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The ILO (International Labour Organisation) is an agency of the United Nations (UN), not the WTO. The L5M5 study guide (p.249) explains that the ILO promotes labour rights globally, sets international standards, and provides mechanisms for complaints and representation. Its principles include eliminating child labour, eradicating forced labour, and promoting safe and fair working conditions, including maternity protection. By contrast, the WTO (World Trade Organisation) deals with trade rules and disputes, not labour standards. This distinction is essential in procurement, as professionals must understand which bodies regulate trade versus labour practices.

質問 # 63

Liam, a Procurement Officer at Zenith Corp, oversees a contract with Apex Supplies, a key supplier of essential manufacturing components. After identifying a critical issue in Apex Supplies' delivery process, which TWO documents should Liam complete?

- A. SWOT Analysis and KPIs
- B. KPI's and Root Cause Analysis
- C. Root Cause Analysis and Corrective Action Plan
- D. Corrective Action Plan and SWOT Analysis

正解: C

解説:

Choice B- Root Cause Analysis (RCA): This document identifies the underlying reasons for the issue in Spades Ltd's conduct. Conducting a thorough RCA ensures Ruby understands the cause of the problem, enabling effective solutions.

Incorrect answer:

Choice A- While Key Performance Indicators (KPIs) are useful for tracking performance, they do not directly address or resolve specific issues..

Corrective Action Plan (CAP): Once the root cause is identified, a CAP outlines specific steps Spades Ltd must take to address and resolve the issue. It also ensures that measures are put in place to prevent recurrence. Therefore option B is the answer.

Choice C- A SWOT analysis is more strategic, focusing on strengths, weaknesses, opportunities, and threats, rather than resolving specific conduct issues.

Choice D- Neither of these documents directly addresses identifying or fixing a conduct issue.
