

Oracle 1Z0-1163-1 Reliable Test Vce, Latest 1Z0-1163-1 Exam Vce

What's more, part of that PrepPDF 1Z0-1163-1 dumps now are free: <https://drive.google.com/open?id=1NX-m5Cwf7JCrsEcSSj7pHBsmYPWStrI>

Great concentrative progress has been made by our company, who aims at further cooperation with our candidates in the way of using our 1Z0-1163-1 exam engine as their study tool. Owing to the devotion of our professional research team and responsible working staff, our training materials have received wide recognition and now, with more people joining in the 1Z0-1163-1 Exam army, we has become the top-raking 1Z0-1163-1 training materials provider in the international market. Believe in our 1Z0-1163-1 study guide, you will succeed in your exam!

Oracle 1Z0-1163-1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.
Topic 2	<ul style="list-style-type: none">• Oracle Cloud Applications and Oracle Modern Best Practice (OMBP): This section of the exam measures the skills of Cloud Application Consultants in understanding Oracle Cloud Applications and their capabilities. It covers the key offerings within the Oracle Cloud ecosystem and highlights the features of the Oracle SCM suite. Candidates will learn about data flow between the SCM OMBPs and how these processes optimize supply chain management.
Topic 3	<ul style="list-style-type: none">• OMBPs for Innovation: This section evaluates the expertise of Supply Chain Innovation Analysts in leveraging SCM Innovation modules. It focuses on understanding the functionalities that drive product development and improving time-to-market. Candidates will explore key design considerations, best practices, and performance metrics that ensure faster product launches and enhanced innovation processes.
Topic 4	<ul style="list-style-type: none">• OMBPs for Procurement: This section tests the abilities of Procurement Specialists in managing procurement operations within Oracle Cloud Applications. It covers the flow of procurement processes, integration points with other SCM modules, and best practices for improving procurement efficiency. Candidates will gain insights into the key metrics used to evaluate procurement performance and cost-effectiveness.
Topic 5	<ul style="list-style-type: none">• OMBPs for Logistics: This section tests the expertise of Logistics Coordinators in optimizing logistics and transportation management within Oracle Cloud Applications. It covers the process flows, best practices for logistics operations, and integration of different logistics modules. Candidates will understand performance metrics that impact supply chain visibility, efficiency, and customer satisfaction.

Topic 6	<ul style="list-style-type: none"> • OMBPs for Supply Chain Planning: This section assesses the knowledge of Supply Chain Planners in managing planning modules within Oracle SCM. It explains process flows, integration points, and how different planning modules work together. Candidates will learn about best practices for designing efficient planning workflows and key metrics used to measure supply chain responsiveness and effectiveness.

1Z0-1163-1 exam study material & 1Z0-1163-1 exam training pdf & 1Z0-1163-1 latest practice questions

PrepPDF is a professional website. It gives every candidate to provide quality services, including pre-sale service and after-sale service. If you need our products, you can be trying to use PrepPDF Oracle 1Z0-1163-1 free demo. Any place can be easy to learn with pdf real questions and answers! If it is ok, we look forward to your further contacts. If you unfortunately fail, we will refund all fees. And we will provide free updates for a year until you pass Oracle 1Z0-1163-1 Certification.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q39-Q44):

NEW QUESTION # 39

What role does the Inventory Management function play in Oracle Fusion Cloud SCM?

- A. It manages only supplier shipments, not warehouse stock.
- **B. It ensures optimal inventory levels by tracking stock movement and availability.**
- C. It focuses on reducing supplier costs instead of stock levels.

Answer: B

Explanation:

Inventory Management in Oracle Fusion Cloud SCM ensures optimal inventory levels by tracking stock movement, availability, and replenishment needs across warehouses and supply chains. It monitors quantities on hand, in transit, and on order, using real-time data to prevent overstocking or stockouts. For instance, if a product's stock drops below a reorder point, the system triggers a replenishment alert. Option A is incorrect-reducing supplier costs is a procurement goal, not Inventory Management's focus, which is stock optimization. Option B is wrong as it manages warehouse stock, not just supplier shipments. This function balances inventory costs with service levels, supporting efficient operations and customer satisfaction by ensuring products are available when needed without tying up excess capital.

NEW QUESTION # 40

What is the primary purpose of the Supplier Collaboration feature in Oracle Fusion Cloud Procurement?

- A. It restricts suppliers from accessing invoice details.
- B. It automates the creation of supplier contracts.
- C. It eliminates the need for supplier performance reviews.
- **D. It allows suppliers to view and respond to purchase orders in real time.**

Answer: D

Explanation:

The Supplier Collaboration feature (D) in Oracle Fusion Cloud Procurement, often via the Supplier Portal, allows suppliers to view and respond to purchase orders (POs) in real time, fostering efficient communication. Suppliers can access PO details (e.g., 500 units due next week), confirm acceptance, or propose adjustments instantly, reducing delays. Option A is incorrect-performance reviews remain necessary, supported by collaboration data. Option B is false-contract creation is a separate process, not automated here. Option C is wrong-suppliers can view invoices and POs, not be restricted. For example, a supplier might use this feature to confirm a PO and flag a shipment delay, enabling proactive buyer adjustments. This real-time interaction strengthens partnerships, improves visibility, and accelerates procurement cycles.

NEW QUESTION # 41

Which feature in Oracle Fusion Cloud SCM provides real-time order promising based on supply and demand constraints?

- A. Cost Accounting.
- B. Manufacturing Execution.
- C. Global Order Promising.
- D. Supplier Portal.

Answer: C

Explanation:

Global Order Promising (A) provides real-time order promising by analyzing supply (inventory, production) and demand (orders, forecasts) constraints across the enterprise. For instance, if a customer requests 100 units and only 80 are available with a 2-day production lead time, GOP promises delivery in 2 days. Option B (Supplier Portal) supports collaboration, not promising. Option C (Manufacturing Execution) tracks production, not order commitments. Option D (Cost Accounting) handles financials. GOP enhances customer trust and planning accuracy by delivering feasible, data-driven promises.

NEW QUESTION # 42

What is the primary purpose of the Demand to Management OMBP in Oracle Fusion Cloud SCM?

- A. It focuses only on local inventory availability.
- B. It ensures accurate demand forecasting and planning.
- C. It eliminates the need for supplier collaboration.
- D. It guarantees same-day delivery for all orders.

Answer: B

Explanation:

The Demand to Management OMBP (C) in Oracle Fusion Cloud SCM ensures accurate demand forecasting and planning, translating market signals into actionable supply strategies. It uses tools like machine learning and collaborative forecasting to predict demand-e.g., forecasting 1,000 units for a holiday season-and aligns inventory and production accordingly. Option A is incorrect-it addresses enterprise-wide demand, not just local stock. Option B is false-no process guarantees same-day delivery; it focuses on planning. Option D is wrong-supplier collaboration is integral to fulfilling demand. This OMBP minimizes overstocking or shortages, optimizing resources and enhancing customer service through precise planning.

NEW QUESTION # 43

What is the primary purpose of the Predict Demand process in Oracle Fusion Cloud SCM?

- A. It focuses only on local inventory availability.
- B. It eliminates the need for supplier collaboration.
- C. It guarantees same-day delivery for all orders.
- D. It uses machine learning and statistical forecasting to predict demand.

Answer: D

Explanation:

The Predict Demand process (B) in Oracle Fusion Cloud SCM aims to forecast customer demand using advanced tools like machine learning and statistical forecasting. Machine learning analyzes historical sales, market trends, and external factors (e.g., weather or economic indicators) to predict future demand with high accuracy, while statistical forecasting provides a baseline using mathematical models like moving averages. For example, it might predict a 20% increase in demand for air conditioners in summer based on past patterns. Option A is incorrect-demand prediction isn't limited to local inventory but informs broader supply planning. Option C is false; supplier collaboration remains essential to fulfill predicted demand. Option D is unrealistic-Predict Demand focuses on forecasting, not delivery guarantees. This process ensures businesses can proactively adjust inventory and production, reducing costs and improving service levels.

NEW QUESTION # 44

.....

Do you want to pass your exam with the least time? Our 1Z0-1163-1 learning materials are high-quality, and you just need to spend 48 to 72 hours on learning, you can pass the exam successfully. What's more, free demo for 1Z0-1163-1 exam dumps is available, and you can have a try before buying, so that you can have a deeper understanding of what you are going to buy. If you fail to pass the exam by using 1Z0-1163-1 Exam Braindumps, we will give you full refund, and no other questions will be asked. We have online and offline chat service, and if you any questions for 1Z0-1163-1 training materials, you can have a conversation with us.
