formats.

CheckPoint Check Point Certified Security Administrator - R82 Sample Questions (Q69-Q74):

NEW QUESTION # 69

Which of the following is NOT a component of Check Point Capsule?

- A. Capsule Workspace
- B. Capsule Cloud
- C. Capsule Docs
- D. Capsule Enterprise

Answer: D

Explanation:

The components of Check Point Capsule are Capsule Docs, Capsule Cloud, and Capsule Workspace¹²³. There is no Capsule Enterprise component. Capsule Docs protects business documents everywhere they go. Capsule Cloud protects mobile users outside the enterprise security perimeter. Capsule Workspace creates a secure business environment on mobile devices. Check Point Capsule Datasheet, Check Point Capsule Workspace Datasheet, Mobile Secure Workspace with Capsule

NEW QUESTION # 70

What is the difference between SSL VPN and IPSec VPN?

- A. IPSec VPN requires installation of a resident VPN client and SSL VPN requires only an installed Browser
- B. SSL VPN and IPSec VPN are the same
- C. IPSec VPN does not require installation of a resident VPN client
- D. SSL VPN requires installation of a resident VPN client

Answer: A

Explanation:

The difference between SSL VPN and IPSec VPN is that IPSec VPN requires installation of a resident VPN client and SSL VPN requires only an installed browser⁵. IPSec VPN uses a pre-shared key or certificates to authenticate the endpoints and encrypts the data at the network layer. SSL VPN uses SSL/TLS protocols to authenticate the endpoints and encrypts the data at the application layer. NEW QUESTION # 71

One of major features in R80.x SmartConsole is concurrent administration. Which of the following is NOT possible considering that AdminA, AdminB, and AdminC are editing the same Security Policy?

- A. AdminA, AdminB and AdminC are editing three different rules at the same time.
- B. AdminA and AdminB are editing the same rule at the same time.
- C. AdminB sees a pencil icon next the rule that AdminB is currently editing.
- D. AdminC sees a lock icon which indicates that the rule is locked for editing by another administrator.

Answer: B

Explanation:

One of the major features in R80.x SmartConsole is concurrent administration, which allows multiple administrators to work on the same Security Policy at the same time¹². However, only one administrator can edit a rule at a time. If AdminA and AdminB are editing the same rule at the same time, it will cause a conflict and prevent them from saving their changes¹². Therefore, the correct answer is B. AdminA and AdminB are editing the same rule at the same time.

NEW QUESTION # 72

With URL Filtering, what portion of the traffic is sent to the Check Point Online Web Service for analysis?

- A. The complete communication is sent for inspection.
- B. The end user credentials.
- C. The IP address of the source machine.
- **D. The host portion of the URL.**

Answer: D

Explanation:

With URL Filtering, only the host portion of the URL is sent to the Check Point Online Web Service for analysis. The host portion is the part of the URL that identifies the web server, such as `www.example.com`. The Check Point Online Web Service uses this information to categorize the URL and return the appropriate action to the Security Gateway³. The other options are not sent to the Check Point Online Web Service for analysis, as they may contain sensitive or irrelevant data.

NEW QUESTION # 73

What are the advantages of a "shared policy" in R80?

- A. Allows the administrator to install a policy on one Security Gateway and it gets installed on another managed Security Gateway
- B. Allows the administrator to share a policy between all the administrators managing the Security Management Server
- **C. Allows the administrator to share a policy so that it is available to use in another Policy Package**
- D. Allows the administrator to share a policy between all the users identified by the Security Gateway

Answer: C

Explanation:

A shared policy is a set of rules that can be used in multiple policy packages. It allows the administrator to create a common security policy for different gateways or domains, and avoid duplication and inconsistency. The other options are not advantages of a shared policy. [Shared Policies Overview], [Shared Policies Best Practices]

NEW QUESTION # 74

.....
