So they want to get a WGU Information Technology Management QGC1 Information-Technology-Management Certification rise above the common herd.

WGU Information Technology Management QGC1 Sample Questions (Q200-Q205):

NEW QUESTION # 200

What is a common risk associated with outsourcing software development?

- **A. Risk of breach of confidential information**
- B. High cost of developers' salaries
- C. Short-term contracts that are difficult to renew
- D. Lack of flexibility to respond to rapid market changes

Answer: A

NEW QUESTION # 201

Which risk do strategic chief information officers face?

- **A. Organizational resistance to change**
- B. Focusing too much on technical solutions
- C. Falling behind on market trends
- D. Losing credibility with non-technical employees

Answer: A

Explanation:

Strategic CIOs focus on innovation and aligning IT with business growth. A major risk they face is organizational resistance to change, as employees and departments may be reluctant to adopt new systems, processes, or technologies. Overcoming this resistance requires strong change management, communication, and leadership skills.

Option A: Incorrect-while staying updated is important, the larger challenge is adoption within the organization.

Option C: Incorrect-strategic CIOs emphasize business alignment, not just technical focus.

Option D: Incorrect-credibility risks exist but are not the primary challenge.

Therefore, the primary risk is organizational resistance to change.
