Workday Pro Talent and Performance Exam Sample Questions (Q13-Q18):

NEW QUESTION # 13

You want to launch a performance review with calibration. The Talent Administrator would like to verify that all performance reviews are complete before calibration launches.

How do you configure the business process to meet this requirement?

- A. Shared Participation step on the Launch Calibration business process
- **B. The Await Calibration Completion service step in the Complete Manager Evaluation for Performance Review business process**
- C. Update Performance Review Rating for Manager Evaluation step on the Complete Manager Evaluation for Performance Review business process
- D. To Do step on the Complete Manager Evaluation for Performance Review business process

Answer: B

Explanation:

- * When using calibration with performance reviews, Workday requires reviews to be completed first before calibration begins.
- * The correct configuration is to insert the "Await Calibration Completion" service step into the Complete Manager Evaluation for Performance Review business process.
- * This ensures that calibration will not launch until all manager evaluations are complete.
- * Other options:
- * To Do step# only generates a reminder, not an enforced process dependency.
- * Shared Participation step on Launch Calibration# configures collaboration for calibration itself, not sequencing.
- * Update Performance Review Rating step# controls how ratings are updated, not workflow dependencies.

NEW QUESTION # 14

You want each talent partner to create their own talent pools and be able to manually add or remove pool members.

If they choose to create a pool that is not shared with others, what type of talent pool will they create?

- A. Restricted Dynamic Talent Pool
- B. Restricted Static Talent Pool
- C. Private Dynamic Talent Pool
- **D. Private Static Talent Pool**

Answer: D

Explanation:

- * Static Talent Pools allow manual addition and removal of members.
- * Private means the pool is only visible to the creator and not shared with others.
- * Therefore, a Private Static Talent Pool lets talent partners create their own pools, manage membership manually, and keep them unshared.
- * Incorrect options:
- * Dynamic Pools# membership is controlled by saved searches, not manual additions.
- * Restricted Pools# visibility is limited to certain groups but still shared, not completely private.

Pro certification training: "Private Static Pools allow personal management of membership without sharing."

NEW QUESTION # 15

What functionality prevents managers from having visibility to peer-to-peer feedback?

- **A. Private Feedback**
- B. Feedback Badges
- C. Confidential Feedback
- D. Anonymity

Answer: A

Explanation:

- * Private Feedback ensures that only the feedback recipient can see the comments.
- * This means managers have no visibility to peer-to-peer private feedback.
- * Other options:
- * Confidential Feedback# visible to both the worker and their manager.
- * Feedback Badges# recognition icons, not a visibility control.
- * Anonymity# hides the feedback giver's name but does not control manager visibility.

NEW QUESTION # 16

What task do you configure to use suggested skills?

- A. Edit Tenant Setup - System
- **B. Maintain Skills and Experience Setup**
- C. Configure Optional Fields
- D. Edit Tenant Setup - HCM

Answer: B

Explanation:

- * Suggested skills functionality is enabled and configured using the Maintain Skills and Experience Setup task.
- * This controls whether Workday will suggest skills to workers based on their profiles and activity.
- * Incorrect options:
- * Edit Tenant Setup - System and Edit Tenant Setup - HCM# global settings, not skill suggestions.
- * Configure Optional Fields# defines visibility of fields but not skill suggestion functionality.

NEW QUESTION # 17

You want to create a performance review template with only an Overall section where the manager has to choose a rating. What configuration option accomplishes this?

- A. Prompt for Overall Rating
- B. Manual Entry
- C. Calculated Ratings with Overrides
- D. Calculated Ratings with No Overrides

Answer: A

Explanation:

- * When you want a performance review template with only an Overall section, the correct configuration is Prompt for Overall Rating.
- * This option requires the manager to provide a single overall rating without averaging or weighting items.
- * Other options:
- * Manual Entry# applies to ratings on items, not a single overall section.
- * Calculated Ratings with No Overrides# automatically calculates from section ratings (not desired here).
- * Calculated Ratings with Overrides# allows calculation plus manual override, but still requires sections/items.

Pro exam study notes: "Use Prompt for Overall Rating when only an overall section rating is required."
