Track Your Progress And Get Succeed With UiPath UiPath-ABAv1 Practice Test

Our web-based practice exam software is an online version of the UiPath UiPath-ABAv1 practice test. It is also quite useful for instances when you have internet access and spare time for study. To study and pass the UiPath UiPath-ABAv1 Certification Exam on the first attempt, our UiPath UiPath-ABAv1 practice test software is your best option.

UiPath Certified Professional Automation Business Analyst Professional v1.0 Sample Questions (Q79-Q84):

NEW QUESTION # 79

Which of the following is a valid reason for defining a system exception?

- A. Internet connection failure in case of a web application usage
- B. Application login failure because of incorrect credentials
- C. Input data does not pass validation criteria
- D. Email attachment not available

Answer: A

Explanation:

A valid reason for defining a system exception includes scenarios like an Internet connection failure in the case of a web application usage. System exceptions refer to errors that are caused by external factors unrelated to the business logic, such as technical failures or connectivity issues, which disrupt the normal functioning of an application. References: UiPath Documentation on Exception Handling at <https://docs.uipath.com/>.

NEW QUESTION # 80

What does a Business Logic Translation Table do?

- A. Capture every action performed by the SME on the application layer
- B. Capture short video recordings
- C. Process activities detailed at key stroke level with respective screen shots captured
- **D. List the business rules and use them as reference in the As-Is process description**

Answer: D

Explanation:

A Business Logic Translation Table lists the business rules and uses them as a reference in the As-Is process description. This table is essential for translating complex business rules into understandable and actionable items that can be incorporated into the automated process, ensuring that all business requirements are met accurately.

UiPath Documentation on Business Logic Translation at <https://docs.uipath.com/>.

NEW QUESTION # 81

What does a Business Logic Translation Table do?

- A. Capture every action performed by the SME on the application layer
- B. Capture short video recordings
- C. Process activities detailed at key stroke level with respective screen shots captured
- **D. List the business rules and use them as reference in the As-Is process description**

Answer: D

Explanation:

A Business Logic Translation Table lists the business rules and uses them as a reference in the As-Is process description. This table is essential for translating complex business rules into understandable and actionable items that can be incorporated into the automated process, ensuring that all business requirements are met accurately. References: UiPath Documentation on Business Logic Translation at <https://docs.uipath.com/>.

NEW QUESTION # 82

From a Document Understanding perspective what kind of document is the one below?

□

Make all checks payable to ACME Corporation

If you have any questions concerning this invoice, contact Road Runner

THANK YOU FOR YOUR BUSINESS!

- **A. Fixed structured format**
- B. Semi-structured
- C. Structured
- D. Semi-unstructured

Answer: A

Explanation:

The document shown is an invoice with a consistent layout, known fields (e.g., invoice number, date, line items, shipping & handling, totals). In Document Understanding, such a document is classified as a fixed structured format.

As per UiPath's definition:

"Fixed structured format documents are documents with a well-defined and unchanging structure, such as invoices, purchase orders, and utility bills." These documents are typically the easiest to work with because the location and format of fields do not vary, enabling highly accurate extraction using form-based extractors or pre-trained models.

NEW QUESTION # 83

What are the environments that the UiPath Platform provides entitlements for deploying and licensing the product?

- A. Automation Cloud, Automation Suite, Individual Products
- B. Document Understanding, Test Suite, AI Center
- C. Robots, Studio, Orchestrator
- D. Automation Suite, Orchestrator

Answer: A

Explanation:

The UiPath Platform provides entitlements for deploying and licensing products in various environments, notably the Automation Cloud, Automation Suite, and individual products like Robots, Studio, and Orchestrator. The Automation Cloud offers cloud-based services while the Automation Suite enables deployment in hybrid or on-premises environments. Individual products focus on specific components of the UiPath ecosystem that can be licensed separately.
