Latest MS-102 Braindumps & MS-102 Actual Braindumps

As professional model company in this line, success of the MS-102 training materials will be a foreseeable outcome. Even some nit-picking customers cannot stop practicing their high quality and accuracy. We are intransigent to the quality of the MS-102 extra questions and you can totally be confident about their proficiency sternly. Undergoing years of corrections and amendments, our MS-102 Exam Questions have already become perfect. The pass rate of our MS-102 training guide is as high as 99% to 100%.

Microsoft 365 Administrator Sample Questions (Q424-Q429):

NEW QUESTION # 424

You have a Microsoft 365 E5 subscription that contains a SharePoint site named Site1. Site1 contains the files shown in the following table.

Name	Number of IP addresses in the file
File1	2
File2	5

You have the users shown in the following table.

Name	Role
User1	Site owners for Site1
User2	Site members for Site1
Admin1	SharePoint admins

You create a data loss prevention (DLP) policy with an advanced DLP rule and apply the policy to Site1. The DLP rule is configured as shown in the following exhibit.

Edit rule

Conditions

We'll apply this policy to content that matches these conditions.

Content contains

Default

Any of these

Sensitive info types

IP Address

High confidence

instance count 3 to Any

Add

Create group

Add condition

Exceptions

Actions

Use actions to protect content when the conditions are met.

Restrict access or encrypt the content in Microsoft 365 locations

☒ Restrict access or encrypt the content in Microsoft 365 locations

☒ Block users from receiving email or accessing shared SharePoint, OneDrive, and Teams files.

By default, users are blocked from sending Teams chats and channel messages that contain the type of content you're protecting. But you can choose who is blocked from receiving emails or accessing files shared from SharePoint, OneDrive, and Teams.

☒ Block everyone

☐ Block only people outside your organization

☐ Block only people who were given access to the content through the "Anyone with the link" option

For each of the following statements, select Yes if the statement is true Otherwise, select No NOTE: Each correct selection is worth one point.

Answer Area

Microsoft

Statements

User1 can open File2.

Yes

☐

No

☐

User2 can open File1.

☐☐

Admin1 can open File2.

☐☐

Answer:

Explanation:

Answer Area

Microsoft

Statements

User1 can open File2.

User2 can open File1.

Admin1 can open File2.

Yes

No

Explanation:

User1 can open File2: No User2 can open File1: Yes Admin1 can open File2: Yes User1 can open File2: No The DLP policy specifies that if a file contains 3 or more IP addresses, access to that content should be restricted. File2 contains 5 IP addresses, which exceeds the threshold set by the DLP policy. Therefore, User1, who is a site owner, will not be able to access File2 because it matches the conditions set in the DLP rule to block access.

User2 can open File1: Yes File1 contains only 2 IP addresses, which is below the threshold of 3 set by the DLP policy. Since the DLP policy does not apply to files with fewer than 3 IP addresses, User2, who is a site member, can access File1 without any restrictions.

Admin1 can open File2: Yes Admin1 is part of the SharePoint admins group, which typically has elevated privileges. Despite the DLP rule, SharePoint admins are generally not restricted by the same DLP rules that apply to regular users. Therefore, Admin1 can access File2.

NEW QUESTION # 425

From the Microsoft Purview compliance portal, you create a retention policy named Policy 1.

You need to prevent all users from disabling the policy or reducing the retention period.

How should you configure the Azure PowerShell command? To answer select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Set-RetentionCompliancePolicy

Set-ComplianceTag

Set-HoldCompliancePolicy

Set-RetentionCompliancePolicy

Set-RetentionPolicy

Set-RetentionPolicyTag

-Identity "Policy1"

-RestrictiveRetention

-enabled

-Force

-RestrictiveRetention

-RetentionPolicyTagLinks

-SystemTag

\$true

Answer:

Explanation:

Microsoft

NEW QUESTION # 426

You have a Microsoft 365 E5 tenant that contains the devices shown in the following table.

Name	Platform
Device1	MacOS
Device2	Windows 10 Pro
Device3	Windows 10 Enterprise
Device4	Ubuntu 18.04 LTS

You plan to implement attack surface reduction (ASR) rules. Which devices will support the ASR rules?

- A. Device3 only
- B. Device 1, Device2, and Device3 only
- C. Device1, Device2, Devices and Device4
- D. Device2 and Device3 only

Answer: D

Explanation:

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/security/defender-endpoint/enable-attack-surface-reduction?view=o365-worldwide#requirements>

NEW QUESTION # 427

You have a Microsoft 365 E5 subscription.

You need to configure Privileged Identity Management (PIM) for the User Administrator role in Microsoft Entra. Eligible users must meet the following requirements:

- * Always be able to request the User Administrator role.
 - * Must provide a reason when requesting the User Administrator role
 - * Must require multi-factor authentication (MFA) when activating the User Administrator role
- The solution must minimize administrative effort.

Answer Area

Always be able to request the User Administrator role:

Select Require approval to activate.
Set Allow permanent active assignment to Yes.
Set Allow permanent eligible assignment to Yes.

Must provide a reason when requesting the User Administrator role:

Select Require justification on activation.
Select Require ticket information on activation.
Set Require justification on active assignment to Yes.

Must require MFA when activating the User Administrator role:

Set On activation require to Azure MFA.
Set On activation require to Microsoft Entra Conditional Access authentication context.
Set Require Azure Multi-Factor Authentication on active assignment to Yes.

Answer:

Explanation:

Answer Area

Always be able to request the User Administrator role:

Select Require approval to activate.
Set Allow permanent active assignment to Yes.
Set Allow permanent eligible assignment to Yes.

Must provide a reason when requesting the User Administrator role:

Select Require justification on activation.
Select Require ticket information on activation.
Set Require justification on active assignment to Yes.

Must require MFA when activating the User Administrator role:

Set On activation require to Azure MFA.
Set On activation require to Microsoft Entra Conditional Access authentication context.
Set Require Azure Multi-Factor Authentication on active assignment to Yes.

NEW QUESTION # 428

You have a Microsoft 365 E5 tenant that contains the devices shown in the following table.

Name	Platform
Device1	MacOS
Device2	Windows 10 Pro
Device3	Windows 10 Enterprise
Device4	Ubuntu 18.04 LTS

You plan to implement attack surface reduction (ASR) rules. Which devices will support the ASR rules?

- A. Device3 only
- B. Device 1, Device2, and Device3 only
- C. Device1, Device2, Devices and Device4
- D. Device2 and Device3 only

Answer: D
