## How to study the CIPT Exam

Preparation of certification exams could be covered with two resource types. The first one are the study guides, reference books and study forums that are elaborated and appropriate for building information from ground up. Apart from them video tutorials and lectures are a good option to ease the pain of through study and are relatively make the study process more interesting nonetheless these demand time and concentration from the learner. Smart candidates who wish to create a solid foundation altogether examination topics and connected technologies typically mix video lectures with study guides to reap the advantages of each but practice exams or practice exam engines is one important study tool which goes typically unnoted by most candidates. Practice exams are designed with our experts to make exam prospects test their knowledge on skills attained in course, as well as prospects become comfortable and familiar with the real exam environment. Statistics have indicated exam anxiety plays much bigger role of students failure in exam than the fear of the unknown. TorrentVCE expert team recommends preparing some notes on these topics along with it don't forget to practice **CIPT Exam exam dumps** which had been written by our expert team, each of these can assist you loads to clear this exam with excellent marks.

## IAPP Certified Information Privacy Technologist (CIPT) Sample Questions (Q169-Q174):

### NEW QUESTION # 169

Many modern vehicles incorporate technologies that increase the convenience of drivers, but collect information about driver behavior in order to Implement this. What should vehicle manufacturers prioritize to ensure enhanced privacy protection for drivers?

- A. Provide easy to read, in-vehicle instructions about how to use the technology.
- B. Share the sensitive data collected about driver behavior with the driver.
- C. Derive implicit consent for the processing of sensitive data by the continued use of the vehicle.
- **D. Obtain affirmative consent for processing of sensitive data about the driver.**

**Answer: D**

Explanation:

vehicle manufacturers should prioritize obtaining affirmative consent for processing sensitive data about drivers in order to ensure enhanced privacy protection. Affirmative consent involves obtaining explicit agreement from individuals before collecting or processing their personal data.

### NEW QUESTION # 170

Which of the following became a foundation for privacy principles and practices of countries and organizations across the globe?

- A. The Code of Fair Information Practices.
- B. The Personal Data Ordinance.
- **C. The Organization for Economic Co-operation and Development (OECD) Privacy Principles.**
- D. The EU Data Protection Directive.

**Answer: C**

Explanation:

Explanation/Reference: <https://privacyrights.org/resources/review-fair-information-principles-foundation-privacy-public-policy>

### NEW QUESTION # 171

Which of the following is an example of the privacy risks associated with the Internet of Things (IoT)?

- **A. An insurance company raises a person's rates based on driving habits gathered from a connected car.**
- B. A group of hackers infiltrate a power grid and cause a major blackout.
- C. A water district fines an individual after a meter reading reveals excess water use during drought conditions.
- D. A website stores a cookie on a user's hard drive so the website can recognize the user on subsequent visits.

**Answer: A**

### NEW QUESTION # 172

What is the main privacy threat posed by Radio Frequency Identification (RFID)?

- A. An individual with an RFID receiver can track people or consumer products.
- B. An individual can scramble computer transmissions in weapons systems.
- C. An individual can use an RFID receiver to engage in video surveillance.
- D. An individual can tap mobile phone communications.

**Answer: A**

Explanation:

RFID technology uses electromagnetic fields to automatically identify and track tags attached to objects. The main privacy threat posed by RFID is that it can be used to track people or consumer products without their knowledge or consent. This occurs because RFID tags can be read from a distance without the individual's awareness, potentially revealing their location or other personal information. This type of tracking can lead to significant privacy invasions. According to the IAPP, understanding and mitigating such privacy risks is essential for ensuring the responsible use of RFID technology in various applications.

### NEW QUESTION # 173

In the realm of artificial intelligence, how has deep learning enabled greater implementation of machine learning?

- A. By using hand-coded classifiers like edge detection filters so that a program can identify where an object starts and stops.
- B. By using algorithmic approaches such as decision tree learning and inductive logic programming.
- C. By hand coding software routines with a specific set of instructions to accomplish a task.
- D. By increasing the size of neural networks and running massive amounts of data through the network to train it.

**Answer: D**
