How You Can Pass the CompTIA 220-1202 Exam with Excellent Marks

Nowadays, everyone lives so busy every day, and we believe that you are no exception. If you want to save your time, it will be the best choice for you to buy our 220-1202 study torrent. Because the greatest advantage of our study materials is the high effectiveness. As a powerful tool for a lot of workers to walk forward a higher self-improvement, DumpsActual continue to pursue our passion for advanced performance and human-centric technology. We aimed to help some candidates who have trouble in pass their 220-1202 Exam and only need few hours can grasp all content of the exam. In recent years, our test torrent has been well received and have reached 99% pass rate with all our dedication.

CompTIA A+ Certification Exam: Core 2 Sample Questions (Q30-Q35):

NEW QUESTION # 30

An organization is experiencing an increased number of issues. A technician notices applications that are not installed by default. Users are reporting an increased number of system prompts for software licensing. Which of the following would the security team most likely do to remediate the root cause?

- A. Remove users from the local admin group.
- B. Enable stricter UAC settings on Windows.
- C. Implement stronger controls to block suspicious websites.
- D. Deploy an internal PKI to filter encrypted web traffic.

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

If unauthorized or non-standard applications are appearing on systems and users are receiving licensing prompts, it's likely users are installing software themselves. Removing users from the local administrators group will prevent them from installing software without approval and reduce the likelihood of introducing unapproved or malicious programs.

A: Deploying a PKI helps with secure communications but doesn't address user software installation rights.

C: Blocking suspicious websites is helpful but doesn't prevent local installations.

D: Stricter UAC may add prompts but can still be bypassed by admin users.

Reference:

CompTIA A+ 220-1102 Objective 2.2: Compare and contrast access control methods and user privilege settings.

Study Guide Section: Principle of least privilege and managing local admin rights

NEW QUESTION # 31

Which of the following malware types typically has very high computing resource usage?

- A. Cryptominer
- B. Trojan
- C. Rootkit
- D. Boot sector virus

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Cryptominerexploit system resources to mine cryptocurrency, often without user consent, leading to high CPU and GPU usage. From Quentin Docter - CompTIA A+ Complete Study Guide:

"Cryptomining malware can cause significant performance degradation by monopolizing system resources like CPU and GPU to mine digital currency."

NEW QUESTION # 32

Users are reporting that an unsecured network is broadcasting with the same name as the normal wireless network. They are able to access the internet but cannot connect to the file share servers. Which of the following best describes this issue?

- A. Unreachable DNS server
- B. Rogue wireless access point
- C. Incorrect IP address
- D. Virtual local area network misconfiguration

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

This scenario describes a rogue access point - a malicious or unauthorized wireless access point that uses the same SSID as the legitimate network. Users may connect to it unknowingly, which can result in limited network access, data interception, or redirection of traffic. The inability to reach internal file servers supports this being an unauthorized AP with no connection to internal resources.

A: A DNS issue would impact name resolution, not connectivity to file servers directly.

B: VLAN issues generally affect segmentation, not mimic SSID problems.

C: An incorrect IP address could cause connectivity issues, but not in the presence of a malicious AP broadcasting the same SSID.

Reference:

CompTIA A+ 220-1102 Objective 2.4: Compare and contrast wireless and physical security threats.

Study Guide Section: Rogue access points and their detection

NEW QUESTION # 33

A help desk technician needs to remove RAM from retired workstations and upgrade other workstations that have applications that use more memory with this RAM. Which of the following actions would the technician most likely take?

- A. Demagnetize memory for security.
- B. Plug in the power supply to ground each workstation.
- **C. Use antistatic bags for storage and transport.**
- D. Install memory in identical pairs.

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

RAM is an electrostatic-sensitive component. When removing or transporting RAM modules, they should be stored in antistatic bags to protect against electrostatic discharge (ESD), which can damage the memory. This is a standard best practice in hardware handling.

A). Demagnetization is not applicable to RAM.

C). Plugging in power to ground is not safe or recommended for static protection.

D). Installing identical memory pairs is applicable for dual-channel configuration, but not directly related to transporting or handling RAM.

Reference:

CompTIA A+ 220-1102 Objective 4.3: Explain environmental impacts and procedures.

Study Guide Section: ESD safety practices and component handling procedures

NEW QUESTION # 34

A town clerk wants to work from home and access documents on a town hall server. What should a technician set up?

- **A. VPN**
- B. VNC
- C. RDP
- D. SSH

Answer: A

Explanation:

AVPN (Virtual Private Network) creates a secure tunnel between the clerk's home device and the town server, ensuring private and authenticated access.

From Quentin Docter - CompTIA A+ Complete Study Guide:

"VPNs are essential for remote access to internal resources, providing secure connections over public networks."

NEW QUESTION # 35

.....

If you want to pass the exam smoothly buying our 220-1202 study materials is your ideal choice. They can help you learn efficiently, save your time and energy and let you master the useful information. Our passing rate of 220-1202 study materials is very high and you needn't worry that you have spent money and energy on them but you gain nothing. We provide the great service after you purchase our 220-1202 Study Materials and you can contact our customer service at any time during one day.
