

# 100% JN0-224 Exam Coverage, New JN0-224 Dumps Free

BTW, DOWNLOAD part of 2Pass4sure JN0-224 dumps from Cloud Storage: <https://drive.google.com/open?id=1zVpjiNvb9oCiQja19oNSLrSZJcOqsPB>

As we all know, respect and power is gained through knowledge or skill. The society will never welcome lazy people. Do not satisfy what you have owned. Challenge some fresh and meaningful things, and when you complete JN0-224 Exam, you will find you have reached a broader place where you have never reach. Your life will become more meaningful because of your new change, and our JN0-224 question torrents will be your first step.

According to a recent report, those who own more than one skill certificate are easier to be promoted by their boss. To be out of the ordinary and seek an ideal life, we must master an extra skill to get high scores and win the match in the workplace. Our JN0-224 exam question can help make your dream come true. What's more, you can have a visit of our website that provides you more detailed information about the JN0-224 Guide Torrent. Just have a try our JN0-224 exam questions, then you will know that you will be able to pass the JN0-224 exam.

>> 100% JN0-224 Exam Coverage <<

## Excellent JN0-224 Prep Guide is Best Study Braindumps for JN0-224 exam

Our JN0-224 study braindumps can be very good to meet user demand in this respect, allow the user to read and write in a good environment continuously consolidate what they learned. Our JN0-224 prep guide has high quality. So there is all effective and central practice for you to prepare for your test. With our professional ability, we can accord to the necessary testing points to edit JN0-224 Exam Questions. It points to the exam heart to solve your difficulty. So high quality materials can help you to pass your exam effectively, make you feel easy, to achieve your goal.

## Juniper Automation and DevOps, Associate (JNCIA-DevOps) Sample Questions (Q49-Q54):

### NEW QUESTION # 49

Junos supports which two APIs for on-box scripting? (Choose two.)

- A. JET
- B. Chef
- C. Puppet
- D. XML

**Answer: A,D**

Explanation:

Juniper Networks' Junos operating system supports several APIs for on-box scripting, two of which are:

JET (Juniper Extension Toolkit): JET is a modern API framework that provides a programmable interface for interacting with Junos.

It allows developers to create custom applications that run directly on Junos devices, enabling the automation of network operations. JET provides both a gRPC and a REST API interface, allowing for flexible integration with external systems.

XML API: The Junos XML API allows direct interaction with the Junos OS through XML-based requests. This API can be used to retrieve information, configure devices, and execute commands on Junos devices. The XML API is crucial for automation tasks as it provides a structured and consistent way to interact with the device's configuration and operational data.

Detailed Explanation:

JET (A) provides high-performance access to Junos routing, switching, and service elements via programmable interfaces. It is highly used for creating custom applications that require tight integration with the Junos OS.

XML (C), on the other hand, is a well-established method for interacting with Junos, especially for legacy systems or when working within environments where XML is the standard data format.

Other options like Puppet (B) and Chef (D) are not APIs provided by Junos for on-box scripting but are configuration management tools used externally to manage Junos devices.

Reference:

Juniper Networks JET Documentation: Provides details on how to leverage JET APIs for automation.

Junos XML Management Protocol Guide: Describes how to use XML for scripting and automating tasks in Junos.

These APIs are key components of Juniper's automation strategy, allowing for scalable, flexible, and efficient network operations.

### NEW QUESTION # 50

Exhibit.

Referring to the exhibit, which XPath statement would retrieve the commit-user attribute in the candidate configuration?

- A. configuration/junos: commit-user
- B. configuration:@ junos: commit-user
- C. configuration/commit-user
- D. configuration/@ junos: commit-user

**Answer: B**

Explanation:

.

### NEW QUESTION # 51

What are two Junos PyEZ configuration object methods? (Choose two.)

- A. config ()
- B. lockO
- C. device ()
- D. commie ()

**Answer: A,B**

Explanation:

In Junos PyEZ, the Config object provides various methods for interacting with device configurations. Two of the key methods are: lock(): This method locks the candidate configuration database to prevent other users or processes from making changes while you are modifying the configuration.

config(): This method is used to create a Config object that represents the configuration database, allowing you to load, modify, and commit configuration changes.

Option C (lock) and Option D (config) are correct because they are valid methods provided by the PyEZ Config object.

Option A (commie) and Option B (device) are incorrect as they are not methods of the Config object.

Supporting Reference:

Junos PyEZ Documentation: Details the methods available in the Config object, including lock() and config().

### NEW QUESTION # 52

What are two important aspects of the DevOps culture? (Choose two.)

- A. separation of duties
- B. people

- C. communication
- D. use of specific tools

**Answer: B,C**

Explanation:

Two important aspects of the DevOps culture are:

Communication (A): In a DevOps environment, continuous and effective communication between development, operations, and other stakeholders is crucial. It ensures that everyone is aligned, reduces misunderstandings, and facilitates faster and more efficient workflows.

People (D): DevOps is as much about the people as it is about the processes and tools. The culture emphasizes collaboration, shared responsibility, and a mindset focused on continuous improvement. Empowering people to work together across different disciplines is at the heart of DevOps.

Options B and C are not primary aspects of the DevOps culture. While tools are essential in implementing DevOps practices, the culture emphasizes communication and collaboration among people more than the use of specific tools or rigid separation of duties.

Reference:

DevOps Handbook: Discusses the cultural aspects of DevOps, with a focus on communication and people.

DevOps Best Practices: Highlights the importance of fostering a culture that prioritizes collaboration and shared goals.

### NEW QUESTION # 53

Which two programming languages are used for Junos on-box scripting? (Choose two.)

- A. Ruby
- B. XSLT
- C. Perl
- D. SLAX

**Answer: B,D**

Explanation:

Junos on-box scripting supports the following programming languages:

SLAX (C): SLAX (Structured Language for XML) is a scripting language designed specifically for Junos devices. It allows for easy manipulation of XML data, making it ideal for creating Junos scripts that interact with device configurations.

XSLT (D): XSLT (Extensible Stylesheet Language Transformations) is another language used for transforming XML documents into other formats. It is commonly used in Junos for transforming XML data into different views or outputs.

Options A (Perl) and B (Ruby) are not used for Junos on-box scripting. While these languages are popular in other contexts, Junos scripting relies heavily on XML-based languages like SLAX and XSLT.

Reference:

Junos XML API and Scripting Guide: Describes the use of SLAX and XSLT for on-box scripting.

Juniper Networks Automation Documentation: Provides examples and best practices for using SLAX and XSLT in Junos scripting.

### NEW QUESTION # 54

.....

The prominent benefits of Automation and DevOps, Associate (JNCIA-DevOps) certification exam are validation of skills, updated knowledge, more career opportunities, instant rise in salary, and advancement of the career. Obviously, every serious professional wants to gain all these advantages. With the Juniper JN0-224 Certification Exam, you can achieve this goal nicely and quickly.

**New JN0-224 Dumps Free:** <https://www.2pass4sure.com/Automation-and-DevOps/JN0-224-actual-exam-braindumps.html>

Builds JN0-224 Exam Confidence, Juniper 100% JN0-224 Exam Coverage Even the students can afford it, Juniper 100% JN0-224 Exam Coverage You can enjoy the nice service from us, Juniper 100% JN0-224 Exam Coverage If you like use paper to learn, you can print in PDF, And there is nothing to worry about, just move you hand and choose us, JN0-224 dumps torrent: Automation and DevOps, Associate (JNCIA-DevOps) will 100% help you pass the exam, As one of hot certification exam, New JN0-224 Dumps Free - Automation and DevOps, Associate (JNCIA-DevOps) attracts increasing people for its high quality and professional technology.

Security accounts in a domain are stored in the domain's Active Directory database, Remember that what you are painting is the mask not the adjustment, Builds JN0-224 Exam Confidence.

Even the students can afford it, You can enjoy JN0-224 the nice service from us, If you like use paper to learn, you can print in PDF, And there is nothing to worry about, just move you hand and choose us, JN0-224 dumps torrent: Automation and DevOps, Associate (JNCIA-DevOps) will 100% help you pass the exam.

## 2026 The Best 100% Free JN0-224 – 100% Free 100% Exam Coverage | New Automation and DevOps, Associate (JNCIA-DevOps) Dumps Free
