ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q68-Q73):

NEW QUESTION # 68

Which related lists should primarily be used to capture financial data in a project?

Choose 2 answers

- A. Cost Plans
- B. Risks
- C. Programs
- D. Monetary Benefit Plans

Answer: A,D

Explanation:

Explanation

Cost Plans and Monetary Benefit Plans are the related lists that should primarily be used to capture financial data in a project. Cost Plans allow you to define the expected costs of a project over time, based on the planned and actual work, resources, and expenses. Monetary Benefit Plans allow you to define the expected financial benefits of a project over time, based on the estimated and realized value, revenue, and savings. You can find more information about these related lists in the Product Documentation for ServiceNow.

NEW QUESTION # 69

Which of the following can be used to calculate planned cost when creating a resource plan?

Choose 2 answers

- A. Demand rate
- B. Project rate
- C. Default rate
- D. Rate card

Answer: B,D

Explanation:

According to the ServiceNow documentation¹, a rate card is a table that defines the hourly cost of labor for different roles or resources. A project rate is a fixed rate that is applied to all resources assigned to a project, regardless of their roles or individual rates. Both of these can be used to calculate the planned cost of a resource plan by multiplying the hours allocated to each resource by the corresponding rate. The other options are incorrect because:

A . Demand rate: A demand rate is a rate that is applied to a demand, not a resource plan. It is used to estimate the cost of fulfilling a demand before it is converted into a project².

C . Default rate: A default rate is a rate that is applied to a resource when no other rate is specified. It is not a valid option for calculating the planned cost of a resource plan, as it is only used as a fallback option³.

1: https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/resource-management/concept/c_RateCards.html 2: https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/demand-management/concept/c_DemandRate.html 3: https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/resource-management/concept/c_DefaultRate.html

NEW QUESTION # 70

If a project manager is responsible for approving time sheets or submitting time cards on behalf of team members, they should be given what role?

- A. approval_admin.
- B. activity_admin.
- C. form_admin.
- D. timecard_admin.

Answer: D

Explanation:

According to the ServiceNow documentation¹, the timecard_admin role can approve time sheets or submit time cards on behalf of team members. This role also has the ability to create and modify time sheet policies, time sheet groups, and time sheet periods. The other options are incorrect because:

A . activity_admin: The activity_admin role can create and modify activities, activity sets, and activity plans².

C . form_admin: The form_admin role can create and modify forms, form sections, and form layouts³.

D . approval_admin: The approval_admin role can create and modify approval rules, approval groups, and approval stages⁴.

NEW QUESTION # 71

Which role is needed to group related projects and demands?

- A. it_project_manager
- B. it_project_user
- C. it_program_manager
- D. it_demand_manager

Answer: C

Explanation:

According to the ServiceNow documentation¹, the it_program_manager role is needed to group related projects and demands. This role can create and manage programs, which are containers for projects and demands that share a common goal or objective. The other options are incorrect because:

B . it_project_manager: The it_project_manager role can create and manage projects, but not group them into programs².

C . it_demand_manager: The it_demand_manager role can create and manage demands, but not group them into programs³.

D . it_project_user: The it_project_user role can view and edit project tasks, but not create or manage projects, demands, or programs⁴.
