2025 Latest Prep4sures ZDTA PDF Dumps and ZDTA Exam Engine Free Share: https://drive.google.com/open?id=1QKI7YOLvaxyHwwJvXN4OQsxSG_2wxsgjg

Only with high quality and valid information of our ZDTA exam braindumps, our candidates can successfully pass their exams. At the same time, own to our professional experts constantly improvement on the design of the ZDTA study materials, we have developed three versions of layouts: PDF, Software and APP online. Though the content of them are the same, the different layouts provide lots of conveniences out of your imagination. Just have a try and you will love our ZDTA Practice Engine.

Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	• Risk Management: This domain measures skills of Risk Managers and Security Architects in using Zscaler's comprehensive risk management suite. Candidates are expected to understand risk capabilities, dashboards, asset and financial risk insights, vulnerability management, deception tactics, identity protection, and breach prediction analytics.

Topic 2	• Connectivity Services: This domain evaluates Network Security Engineers on configuring and managing connectivity essentials like device posture assessment, trusted network definitions, browser access controls, and TLS • SSL inspection deployment. It also includes applying policy frameworks focused on authentication and enforcement for internet access, private access, and digital experience.
Topic 3	• Access Control Services: This area assesses Security Operations Specialists on implementing access control mechanisms including cloud app control, URL filtering, file type controls, bandwidth controls, and segmentation. It also covers Microsoft 365 policies, private application access strategies, and firewall configurations to protect enterprise resources.
Topic 4	• Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.
Topic 5	• Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.
Topic 6	• Cyberthreat Protection Services: This domain targets Cybersecurity Analysts and covers broad cybersecurity fundamentals and advanced threat protection capabilities. Candidates must know about malware protection, intrusion prevention systems, command and control channel detection, deception technologies, identity threat detection and response, browser isolation, and incident detection and response. Data Protection Services
Topic 7	• Zscaler Zero Trust Automation: This part measures Automation Engineers on their ability to utilize Zscaler APIs, including the One API framework, for automating zero trust security functions and integrating with broader enterprise security and orchestration tools.

Free PDF 2026 Zscaler ZDTA Unparalleled New Test Duration

Our ZDTA exam guide question is recognized as the standard and authorized study materials and is widely commended at home and abroad. Our ZDTA study materials boost superior advantages and the service of our products is perfect. We choose the most useful and typical questions and answers which contain the key points of the test and we try our best to use the least amount of questions and answers to showcase the most significant information. Our ZDTA learning guide provides a variety of functions to help the clients improve their learning and pass the ZDTA exam.

Zscaler Digital Transformation Administrator Sample Questions (Q95-Q100):

NEW QUESTION # 95

Assume that you have four data centers around the globe, each hosting multiple applications for your users.

What is the minimum number of App Connectors you should deploy?

Assume that you have four data centers around the globe, each hosting multiple applications for your users.

What is the minimum number of App Connectors you should deploy?

- A. Six - one per data center plus two for cold standby.
- B. Eight -two per data center.
- C. Four - one per data center.
- D. Sixteen - to support a full mesh to the other data centers.

Answer: B

Explanation:

You need at least two App Connectors per data center to ensure high availability and load distribution, so with four data centers the minimum total is eight.

NEW QUESTION # 96

Which attack type is characterized by a commonly used website or service that has malicious content like malicious JavaScript running on it?

- **A. Watering Hole Attack**
- B. Exploit Kits
- C. Pre-existing Compromise
- D. Phishing Attack

Answer: A

Explanation:

A Watering Hole Attack targets users by compromising a website or service that is commonly visited by the intended victims. The attacker injects malicious content such as malicious JavaScript or malware into the website, so when the user visits the site, their system gets infected. This attack relies on the trust users have in popular or legitimate websites and exploits it by turning those sites into infection vectors.

Pre-existing Compromise refers to attacks where the target environment is already compromised before the attack is recognized, but it does not specifically describe malicious content injected into popular websites.

Phishing Attack involves deceiving users to click malicious links or reveal credentials, not compromising websites directly. Exploit Kits are automated tools that scan for vulnerabilities and deliver exploits but are not characterized by the use of commonly used websites hosting malicious scripts.

The study guide clearly explains Watering Hole Attacks as a method where attackers infect trusted websites frequented by target users to deliver malicious payloads.

NEW QUESTION # 97

Which type of malware is specifically used to deliver other malware?

- **A. Downloaders**
- B. RAT
- C. Maldocs
- D. Exploitation tool

Answer: A

Explanation:

Downloaders are a specific type of malware whose primary purpose is to download and install other malicious software onto a victim's machine. Unlike standalone threats, downloaders typically establish initial access and then retrieve payloads like ransomware, trojans, or spyware from a command and control server.

Their role in the malware chain is fundamental for multi-stage attacks.

NEW QUESTION # 98

Which of the following are types of device posture?

- A. Detect CrowdStrike, CrowdStrike ZTA score, First name
- **B. Unauthorized Modification, OS Version, License Key**
- C. Domain Joined, Process Check, Deception Check
- D. Certificate Trust, File Path, Full Disk Encryption

Answer: B

Explanation:

Types of device posture typically include attributes that reflect the security and compliance status of a device.

This includes Unauthorized Modification, which checks if the device has unauthorized changes; OS Version, verifying if the operating

system is up-to-date; and License Key, confirming the validity of software licenses on the device. These attributes help in assessing device trustworthiness for access control.

NEW QUESTION # 99

- A. Import
B. LDAP Sync
C. SCIM
D. SAML

Explanation:

Explanation:

NEW QUESTION # 100

Our ZDTA training prep can be applied to different groups of people. Whether you are trying this exam for the first time or have experience, our ZDTA learning materials are a good choice for you. Whether you are a student or an employee, our ZDTA exam questions can meet your needs. This is due to the fact that our ZDTA Learning Materials are very user-friendly and express complex information in easy-to-understand language. We assure you that once you choose our ZDTA practice materials, your learning process is very easy.
