New M2 Dumps Free & M2 Exam Objectives Pdf

In the increasingly competitive IT industry, M2 certification exam seems to be the basic condition of the development of the industry. If you want to pass the M2 exam certification easier and quicker, it's a very feasible way for you to take advantage of TestkingPDF's International Code Council M2 Exam Training materials. We promise that after you purchase M2 exam dumps, if you fail the M2 exam certification, we will give a full refund.

International Code Council Commercial Mechanical Inspector Sample Questions (Q46-Q51):

NEW QUESTION # 46

Infrared radiant heaters shall be installed:

- A. with clearances from combustible material in accordance with the manufacturer's installation instructions.
- B. with a 6-ft. clearance on all sides.
- C. in accordance with UL 2158.
- D. in accordance with UL 1240.

Answer: A

Explanation:

The ICC mechanical code provision for infrared radiant heaters states that the heaters must be installed with clearances from combustible material in accordance with the manufacturer's installation instructions .

That makes Option D the correct answer. The code does not establish a blanket 6-foot clearance on all sides in this section, and the

exam expects the candidate to rely on the listed installation requirements for the appliance.

NEW QUESTION # 47

The optional integral clearance reduction system is designed to meet which NFPA standard?

APPLICATION: Low proximity, low CFM requirements. Designed for all types of cooking equipment with surface temperatures ranging from 450 – 700 degrees. Optional rear plenum provides up to 90 percent make-up air. Product requires minimal kitchen space.

DESIGN FEATURES AND ADVANTAGES

- UL Listed for use over 450° and 700° F cooking surface temperatures. UL Listed to Canadian safety standards, NSF Listed, and built in accordance with NFPA 96 as required by ICC
- Up to 90% make-up air supplied through optional rear air plenum
- Separate flue gas chamber not required
- Stainless steel construction with double wall, insulated front panel
- Aluminum filters with optional stainless steel or high velocity cartridge filters (model ABC)
- Factory pre-wired lighting for illumination of cooking surface
- 30" minimum width
- Integral stainless steel double-end panels provided to maximize hood performance and eliminate effects of cross draft
- Optional UL Listed light and fan control switches, pre-wired and flush mounted through built-in electrical chaseway
- Optional integral clearance reduction system meet requirements of NFPA 96
- Optional UL Listed exhaust fan/temper (model AB-100)

GENERAL SPECIFICATIONS

- Fabricated of Type 430 stainless steel #3 or #4 polish, on all exposed surfaces, optional Type 304 stainless steel available
- Fitted with 12" high, UL Classified, baffle-type aluminum filters, removable for cleaning
- An 1/8 inch per foot minimum sloped grease trough with removal 1/2 pint cup to drain grease
- Pre-punched hanging angles on each end of hood
- End panels are sloped from lower (1/8" per foot) or bottom back for 450° F cooking surfaces; full ends for 700° F

PERFORMANCE DATA

Hood Model Type	Cooking Surface	Max Avg. Cooking Surface Temp (°F) Filter Type	Min. Exhaust CFM/Ft	Suggested Supply CFM/Ft via Optional Back Supply Plenum
AB AB-100	Gas Charbroilers Electric Charbroilers Meatpile Cookers	700° with standard baffle filter	200	160
ABC ABC-100	Charcoal Charbroilers Gas Conveyor Charbroilers	700° with high velocity cartridge filter	180	144
AB AB-100	Ovens Steamers Kettles	450° with standard baffle filter	150	135
ABC ABC-100	Open-Burner Ranges Griddles Fryers	425	112	

- A. 92A
- B. 0
- C. 1
- D. 2

Answer: B

Explanation:

Based on the specification sheet shown in the exhibit, the design features state that the optional integral clearance reduction system meets the requirements of NFPA 96 . Therefore, the correct answer is D .

NEW QUESTION # 48

An 8-inch Type B venting system with a listed vent cap must terminate a minimum of _____ feet above the flat roof through which it passes.

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

Explanation:

For a Type B gas vent with a listed vent cap terminating through a flat roof, the minimum required termination height is 1 foot above the roof. That makes Option A correct. This is consistent with gas vent termination tables used with listed Type B vent systems and the code framework for Type B vent terminations.

NEW QUESTION # 49

For the installation of listed fuel-burning appliances, the required clearances should be found:

- A. on the approved plans and specifications for the building.
- B. in the mechanical code.
- C. by using a calculation based on the Btu/h output rating of the appliance.
- **D. on the nameplate of the appliance.**

Answer: D

Explanation:

The IMC requires fuel-burning units to be marked with the hourly rating, approved fuel type, and required clearances. That means the appliance marking/nameplate is the direct source for the required clearance information for listed fuel-burning appliances. This is why B is the correct answer.

NEW QUESTION # 50

Which of the following is not a required mechanical inspection?

- A. Underground
- **B. Annual system test**
- C. Rough-in
- D. Final

Answer: B

Explanation:

The ICC mechanical administrative inspection sequence includes underground inspection, rough-in inspection, and final inspection as required inspections. An annual system test is not listed as one of the required permit inspections in that section, so Option D is the correct answer. This fits the M2 General Administration content area, which includes permit and inspection administration.

NEW QUESTION # 51

.....

Do you want to have a new change about your life? If your answer is yes, it is high time for you to use the M2 question torrent from our company. As the saying goes, opportunities for those who are prepared. If you have made up your mind to get respect and power, the first step you need to do is to get the M2 Certification, because the certification is a reflection of your ability. If you have the M2 certification, it will be easier for you to get respect and power. Our company happened to be designing the M2 exam question.
