Besides, the career opportunities will be open for a certified person. Now, you can get the valid and best useful SC-100 Exam Training material. Our SC-100 study torrent is with 100% correct questions & answers, which can ensure you pass at first attempt. All SC-100 practice torrents can be easily and instantly downloaded after purchase.

Microsoft SC-100 Certification Exam is a vendor-neutral certification, which means that it is not tied to any particular technology or product. This makes it an excellent choice for IT professionals who want to demonstrate their knowledge and skills in cybersecurity without being limited to a specific vendor's products. Microsoft Cybersecurity Architect certification is recognized globally and is highly respected in the industry. It is a valuable asset for anyone looking to advance their career in cybersecurity.

Microsoft Cybersecurity Architect Sample Questions (Q208-Q213):

NEW QUESTION # 208

A customer has a Microsoft 365 E5 subscription and an Azure subscription.

The customer wants to centrally manage security incidents, analyze log, audit activity, and hunt for potential threats across all deployed services.

You need to recommend a solution for the customer. The solution must minimize costs.

What should you include in the recommendation?

- A. Microsoft Sentinel
- B. Microsoft Defender for Cloud
- C. Microsoft Defender for Cloud Apps
- D. Microsoft 365 Defender

Answer: A

NEW QUESTION # 209

Your company plans to follow DevSecOps best practices of the Microsoft Cloud Adoption Framework for Azure to integrate DevSecOps processes into continuous integration and continuous deployment (CI/CD) DevOps pipelines. You need to recommend which security-related tasks to integrate into each stage of the DevOps pipelines.

What should recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Infrastructure scanning: 

- Build and test
- Commit the code
- Go to production
- Operate
- Plan and develop

Static application security testing: 

- Build and test
- Commit the code
- Go to production
- Operate
- Plan and develop

 Microsoft

Answer:

Explanation:

Answer Area

Microsoft

Infrastructure scanning:

Go to production
Build and test
Commit the code
Go to production
Operate
Plan and develop

Static application security testing:

Plan and develop
Build and test
Commit the code
Go to production
Operate
Plan and develop

NEW QUESTION # 210

Your company has an Azure subscription that has enhanced security enabled for Microsoft Defender for Cloud. The company signs a contract with the United States government. You need to review the current subscription for NIST 800-53 compliance. What should you do first?

- A. From Defender for Cloud, enable Defender for Cloud plans.
- B. From Defender for Cloud, add a regulatory compliance standard.
- C. From Defender for Cloud, review the Azure security baseline for audit report.
- **D. From Defender for Cloud, review the secure score recommendations.**

Answer: D

NEW QUESTION # 211

You need to recommend a solution to meet the AWS requirements.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

For the AWS EC2 instances:
