

# Trustworthy NCP-EUC Accurate Prep Material | Easy To Study and Pass Exam at first attempt & Well-Prepared Nutanix Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam

BTW, DOWNLOAD part of Lead2PassExam NCP-EUC dumps from Cloud Storage: <https://drive.google.com/open?id=15p1EE63GsJP5qyiqMvg2hOZswnZ0IdTN>

If you don't purchase any course, although you spend a lot of time and effort to review of knowledge to prepare for Nutanix Certification NCP-EUC Exam, it is still risky for you to pass the exam. But selecting Lead2PassExam's products allows you to spend a small amount of money and time and safely pass the exam. I believe that Lead2PassExam is more suitable for your choice in the society where time is so valuable. Moreover, our Lead2PassExam a distinct website which can give you a guarantee among many similar sites. Choosing Lead2PassExam is equivalent to choose success.

In order to meet the requirements of our customers, Our NCP-EUC test questions carefully designed the automatic correcting system for customers. It is known to us that practicing the incorrect questions is very important for everyone, so our NCP-EUC exam question provide the automatic correcting system to help customers understand and correct the errors. If you are finding a study material in order to get away from your exam, you can spend little time to know about our NCP-EUC Test Torrent, it must suit for you.

## Latest NCP-EUC Exam Testking & NCP-EUC Exam Guide Materials

The secret of success is constancy to purpose. If your purpose is passing exams and getting a certification. NCP-EUC exam cram PDF will be the right shortcut for your exam. You shouldn't miss any possible chance or method to achieve your goal, especially our NCP-EUC Exam Cram Pdf always has 100% passing rate. Mostly choice is greater than effort. Well-pointed preparation for your test will help you save a lot of time. Nutanix NCP-EUC exam cram PDF will be great helper for your coming exam definitely.

The NCP-EUC Certification Exam covers a range of topics, including the installation and configuration of Nutanix's VDI solutions, the management of virtual machines, and the configuration of user profiles. It also covers the implementation of security measures and

the management of virtual desktops to ensure that they are running efficiently.

## Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q63-Q68):

### NEW QUESTION # 63

An administrator is using Citrix Studio to configure policies for their existing CVAD environment on to a Nutanix Files share. The administrator would like to use Citrix Director to reset user profiles.

How should the user profiles be configured?

- A. Redirect user's Desktop, Documents and Favorites to a Nutanix Files home share.
- B. **use Nutanix Files distributed shares. Deploy Citrix Profile Management user stores inside the user's top-level directory.**
- C. Redirect user's Desktop, Documents and Favorites to a Nutanix Files general share.
- D. use Nutanix Files standard shares

Deploy Citrix Profile Management user stores inside the user's top-level directory

### Answer: B

Explanation:

This is because this option will allow the administrator to use Citrix Director to reset user profiles on a Nutanix Files share that provides high performance, scalability, and resilience3.

Citrix Profile Management is a solution that allows administrators to manage user profiles and settings across different devices and sessions12. Nutanix Files is a software-defined file storage solution that provides high performance and scalability for file data12. Nutanix Files supports all forms of profile management with efficient metadata caching techniques that optimize for faster VDI logon times12. Nutanix Files offers two types of shares: standard shares and distributed shares3. Standard shares are hosted on a single file server, while distributed shares are hosted on multiple file servers for load balancing and high availability3.

### NEW QUESTION # 64

An administrator has been asked to enable multi-monitor support for a graphic designer that needs to be able to use four monitors. After on boarding the designer on to the Frame desktop, the end user does not see the ability to use all four monitors while using the Firefox web browser.

What should the administrator do to enable the ability to use all four monitors?

- A. **Deploy Frame App**
- B. Switch to Safari
- C. Switch to Chrome
- D. Switch to Edge

### Answer: A

Explanation:

According to Nutanix documentation, to use more than two monitors with Frame, you need to deploy the Frame App. The Frame App provides multi-monitor support, whereas using Frame through web browsers is currently limited to two monitors.

Frame App is a native application that provides a better user experience for accessing Frame desktops and applications than a web browser1. Frame App supports the Frame multi-monitor feature automatically. If an end user has more than one monitor attached to their device, Frame App prompts the user if they want to use all of their monitors1. Frame Administrators do not have to enable explicitly multi-monitor support for Frame App users1.

### NEW QUESTION # 65

What should the administrator use when creating a Windows 10 gold image using Calm for Citrix MCS persistent desktops?

- A. Sysprepped Microsoft Windows 10 image
- B. **Snapshot of Citrix optimized Windows 10 image.**
- C. Microsoft downloaded Windows 10 ISO image.
- D. VMware optimized Windows 10 image.

### Answer: B

Explanation:

A snapshot is a point-in-time copy of a virtual machine that can be used as a template for creating new machines. A Citrix optimized Windows 10 image is a Windows 10 image that has been configured with best practices and optimizations for Citrix Virtual Apps and Desktops.

Using a snapshot of a Citrix optimized Windows 10 image can ensure that the persistent desktops have consistent performance, security, and user experience. It can also simplify the image management process by allowing you to update the snapshot with new patches or applications using Calm.

Calm is a tool that automates application lifecycle management across different environments. Calm can integrate with Citrix MCS to create, update, and delete virtual machines based on blueprints that define the configuration and dependencies of an application.

## NEW QUESTION # 66

What code is installed on virtual desktops and enables direct FlexCast Management Architecture (FMA) connections between the virtual desktop and user devices?

- A. Citrix Workspace app
- B. Nutanix Guest Tools (NGT)
- C. VirtIO Device Drivers
- D. **Virtual Delivery Agent (VDA)**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:

According to Citrix Virtual Apps and Desktops architecture documentation utilized in Nutanix EUC designs:

\* **VDA Functionality:** The Virtual Delivery Agent (VDA) is the essential software component that must be installed on every machine (virtual or physical) that delivers applications or desktops.

\* **FMA Role:** The VDA registers with the Delivery Controller (Broker) and manages the FMA (FlexCast Management Architecture) connection between the machine and the user device. It establishes and manages the HDX connection, allowing the Citrix Workspace app (on the client side) to connect directly to the desktop session.

\* **Distinction:**

\* Citrix Workspace app is installed on the client device (endpoint), not the virtual desktop.

\* VirtIO drivers are lower-level drivers for disk/network I/O virtualization on AHV, not FMA connection brokers.

\* NGT provides Nutanix-specific fabric features (SSR, FLR), not Citrix session connectivity.

## NEW QUESTION # 67

The operations team have been tasked with increasing overall datacenter efficiency with a target minimum of 80% CPU, memory, and storage capacity utilization. They are requesting usage data from all application owners be sent on a monthly basis to be ingested into their capacity management software.

An administrator has an implementation of four Nutanix clusters under the management of a single Prism Central Instance.

How should the administrator best provide the data needed to the operations team to ensure adherence to the datacenter utilization directive?

- A. Create a Metric Chart in Prism Central with CPU, Memory, and Storage usage across all clusters and export the data to be sent to the operations team,
- B. **Schedule a monthly email report with CPU, Memory, and Storage Usage data across all clusters under the Reporting facility in Prism Central.**
- C. Export the CPU Memory and Storage Usage metrics under Virtual Infrastructure/VMs in Prism Central and FTP the file to the operations team's FTP server.
- D. Review the VM Efficiencies widget in Prism Central and export the data to a comma delimited file to be sent to the operations team

**Answer: B**

Explanation:

This option allows you to create a custom report with the required metrics for all VMs across all clusters and send it automatically to the operations team via email4. This way, you don't have to manually export or FTP the data every month.

## NEW QUESTION # 68

It is not easy to continue keeping the good quality of a product and at the same time to continue keeping innovating it to become better. But we persisted for so many years on the NCP-EUC exam questions. Our NCP-EUC practice guide just wants to give you a product that really makes you satisfied. I know that we don't say much better than letting you experience our NCP-EUC Training Questions yourself. You can free download the demos of the NCP-EUC learning quiz to have a try!
