NEW QUESTION # 36

Your company sells engines that are preconfigured by engineering, based on the customer location for which the engine-product is being sold. You must also include a user-manual specific to the customer's language, which represents a separate part number on the configured order.
Which type of Configurator model do you need to create?

- A. Pick to Order (PTO)
- B. Kit
- C. Make to Stock
- D. Configure to Order (CTO)
- E. Assemble to Order (ATO)

Answer: D

Explanation:
A Configure to Order (CTO) model is a type of configurator model that enables you to create customized products based on customer specifications. A CTO model allows you to define features and options that the customer can select, and apply rules and constraints to ensure the validity and feasibility of the configuration.
A CTO model also supports the inclusion of user manuals and other documentation as part of the configuration1. You need to create a CTO model to fulfill the requirement of selling engines that are preconfigured by engineering, based on the customer location, and include a user manual specific to the customer's language.
