# 100% Pass 2026 VMware 2V0-17.25: Useful VMware Cloud Foundation 9.0 Administrator Certification Training

We are confident that our VMware 2V0-17.25 training online materials and services are competitive. We are trying to offer the best high passing-rate VMware 2V0-17.25 Training Online materials with low price. Our 2V0-17.25 exam materials will help you pass exam one shot without any doubt.

The VMware Cloud Foundation 9.0 Administrator certification exam is a valuable asset for beginners and seasonal professionals. If you want to improve your career prospects then 2V0-17.25 certification is a step in the right direction. Whether you're just starting your career or looking to advance your career, the 2V0-17.25 Certification Exam is the right choice. With the 2V0-17.25 certification you can gain a range of career benefits which include credibility, marketability, validation of skills, and access to new job opportunities.

2V0-17.25 Valid Braindumps Pdf, Reliable 2V0-17.25 Test Materials

It's critical to have mobile access to VMware practice questions in the fast-paced world of today. All smart devices support ExamPrepAway VMware 2V0-17.25 PDF, allowing you to get ready for the exam anytime and wherever you like. You may easily fit studying for the exam into your hectic schedule since you can access VMware 2V0-17.25 Real Exam Questions in PDF from your laptop, smartphone or tablet. Questions available in the ExamPrepAway VMware 2V0-17.25 PDF document are portable, and printable.

VMware Cloud Foundation 9.0 Administrator Sample Questions (Q67-Q72):

NEW QUESTION # 67
An administrator is responsible for a vSAN Express Storage Architecture (ESA) cluster running workloads with a RAID-6 policy. The administrator must enable auto-policy management in vSAN ESA.
What is the minimum number of hosts required for workloads with RAID-6?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
The vSAN ESA documentation in VCF 9.0 explains that auto-policy management dynamically selects the most efficient data placement policy based on cluster size. For RAID-6 (erasure coding with double parity), the minimum required host count is 6. The docs state:
"RAID-6 (Erasure Coding with FTT=2) requires a minimum of six hosts in a vSAN ESA cluster. This ensures that data and parity components can be distributed across unique failure domains." With fewer than six hosts, RAID-6 cannot be enforced and auto-policy management will fall back to RAID-1 mirroring. RAID-6 in vSAN ESA provides higher storage efficiency but comes with stricter host count requirements. Options 2 and 4 are far below requirements, while 8 provides more redundancy but is not the minimum. Therefore, the correct minimum number of hosts for RAID-6 with ESA is 6.

NEW QUESTION # 68
An administrator is deciding on a storage solution to create the first management workload domain for a new VMware Cloud Foundation (VCF) instance. Which three storage solutions can be used as principal storage? (Choose three.)

- A. NFSv3
- B. vSAN OSA
- C. Virtual Volumes (vVols)
- D. NVMe/TCP
- E. VMFS on Fibre Channel (FC)

Answer: A,B,E

Explanation:
The management domain must be deployed using vSAN, NFS, or Fibre Channel (FC). Supported protocols include NFSv3 and VMFS on FC.
vSAN (including OSA) is the default recommended option, but NFSv3 and VMFS on FC are also supported for environments where external storage arrays are required.
NVMe/TCP and vVols are not supported for the initial management domain's principal storage.
vVols may be used in workload domains after deployment, but they are not a supported foundation for the management domain.
Therefore, the three correct storage solutions for the first management workload domain are:
VMFS on FC, NFSv3, and vSAN OSA.

NEW QUESTION # 69
Which vSphere feature enables an automated response if a specific condition-like high CPU usage-persists for a VM or a host?

- A. vCenter Alarms
- B. vRealize Log Insight
- C. vSphere Data Protection
- D. vSphere Distributed Switch Health Check

Answer: A

Explanation:
vCenter Alarms can be configured to trigger actions or alerts when certain thresholds or events occur.
The distributed switch health check focuses on network misconfigurations, Log Insight aggregates logs, and vSphere Data Protection provides backup/restore.

NEW QUESTION # 70
What are three prerequisites for deploying an NSX Edge cluster in a VMware Cloud Foundation (VCF) solution? (Choose three.)

- A. Verify that the NSX host overlay VLAN and NSX Edge overlay VLAN are routed to each other.
- B. Configure BGP as a dynamic routing protocol on the physical switches.
- C. Install Aria Operations and enable Edge Cluster monitoring.
- D. Use separate VLAN IDs and subnets for the NSX host overlay and NSX Edge overlay networks.
- E. Create DNS entries for the NSX Edge nodes.
- F. Set up vSAN storage policies for the Edge VMs.

Answer: A,D,E

Explanation:
The NSX host overlay VLAN and NSX Edge overlay VLAN must be routed to each other so Edge nodes can establish overlay tunnels with transport nodes.
DNS A records for each NSX Edge node are required for name resolution during deployment and operation.
NSX requires distinct VLAN IDs and subnets for the host overlay network (transport nodes) and the Edge overlay network to segregate traffic and avoid IP space conflicts.
https://techdocs.broadcom.com/us/en/vmware-cis/vcf/vcf-5-2-and-earlier/5-2/map-for-administering-vcf-5-2/deploying-nsx-edge-clusters-admin/prerequisites-for-an-nsx-edge-cluster-admin.html

NEW QUESTION # 71
Which security feature in ESXi ensures that only signed and trusted code can run during the host boot process?

- A. Lockdown Mode
- B. vSphere Encryption
- C. Secure Boot
- D. TPM 2.0 Integration

Answer: C

Explanation:
Secure Boot uses digital signatures to verify the integrity of the ESXi boot loader and kernel modules.
Lockdown Mode restricts remote access, TPM integration stores cryptographic keys, and vSphere Encryption secures VM data at rest, not the boot process itself.

NEW QUESTION # 72
......

When preparing to take the 2V0-17.25 exam dumps, knowing where to start can be a little frustrating, but with VMware 2V0-17.25 practice questions, you will feel fully prepared. Using our 2V0-17.25 practice test ExamPrepAway, you can prepare for the increased difficulty on 2V0-17.25 Exam day. Plus, we have various question types and difficulty levels so that you can tailor your 2V0-17.25 exam dumps preparation to your requirements.

2V0-17.25 Valid Braindumps Pdf: https://www.examprepaway.com/VMware/braindumps.2V0-17.25.ete.file.html

Nowadays, using computer-aided software to pass the 2V0-17.25 exam has become a new trend, Our methods are tested and proven by more than 90,000 successful 2V0-17.25 Valid Braindumps Pdf - VMware Cloud Foundation 9.0 Administrator Exam that trusted ExamPrepAway 2V0-17.25 Valid Braindumps Pdf, Success in the VMware Cloud Foundation 9.0 Administrator 2V0-17.25 exam is impossible without proper 2V0-17.25 exam preparation, ExamPrepAway is one of the few trusted brands that has been helping candidates crack the 2V0-17.25 test since its beginning.

The professionals have carefully created and managed very nicely for the 2V0-17.25 perfect preparation, It covers in detail the attitudes and views of freelancers, the selfemployed and others with nontraditional work situations.
