GIAC Certified Incident Handler Sample Questions (Q65-Q70):

NEW QUESTION # 65

Which of the following statements about reconnaissance is true?

- A. It is a computer that is used to attract potential intruders or attackers.
- B. It is also known as half-open scanning.
- C. It describes an attempt to transfer DNS zone data.
- D. It is any program that allows a hacker to connect to a computer without going through the normal authentication process.

Answer: C

NEW QUESTION # 66
You work as a System Engineer for Cyber World Inc. Your company has a single Active Directory domain. All servers in the domain run Windows Server 2008. The Microsoft Hyper-V server role has been installed on one of the servers, namely uC1. uC1 hosts twelve virtual machines. You have been given the task to configure the Shutdown option for uC1, so that each virtual machine shuts down before the main Hyper-V server shuts down. Which of the following actions will you perform to accomplish the task?

- A. Create a logon script to shut down the guest operating system before the server shuts down.
- B. Enable the Shut Down the Guest Operating System option in the Automatic Stop Action Properties on each virtual machine.
- C. Create a batch file to shut down the guest operating system before the server shuts down.
- D. Manually shut down each of the guest operating systems before the server shuts down.

Answer: B
