

Microsoft Power Platform Fundamentals Learning Tool Aims to Help You Learn Easily and Effectively - Getcertkey

What's more, part of that Getcertkey PL-900 dumps now are free: <https://drive.google.com/open?id=1O4WpZ-mghLg1VByNVfsOasJFFT62uttm>

While the Microsoft PL-900 practice questions in PDF format are helpful for learning all the relevant answers to clear the PL-900 exam, we offer an additional tool to enhance your confidence and skills. Our online Microsoft Practice Test engine allows you to learn and practice for the Microsoft Power Platform Fundamentals (PL-900) exam simultaneously. This feature is designed to strengthen your knowledge and ensure you are fully prepared for success.

Check out a few resources to prepare for the PL-900 Exam:

There is a large number of resources available with which you can prepare for the examination. Some of them are as follows:

- Exam preparation guides - There are guidebooks available to help you with the study material for this exam that would include a section on each topic that would include a set of questions that would test your knowledge regarding the subject. Capabilities for this would be very helpful especially if you are doing these on your own.
- Test materials - Test materials also help you in preparing for the exams by practicing all possible questions types and gives you ample guidance on how to answer them correctly. Assessment tools are also available on the dashboards for this exam.
- Online resources - These are some online resources that you can study from, such as the Microsoft certification website, Microsoft Power Platform Fundamentals PL-900 test exam dumps, and also books. You can also search and watch any video to get an idea of the exam.

Several options like, above sources would be very much helpful in the preparation for the PL-900 exam, but there are some limitations. It demands time, focus, and a lot of studies. Harder, you study the more focused you will become on the topic. Many paid courses are available on different tech sites which will improve your knowledge and will help you to cover all the subjects of the exam. Selection of the right material and also note-taking must be done in a proper manner to get the exam preparation completed. Shared information would be very much helpful. Display of your learning pattern is very important.

Second, we have prepared free demo in this website for our customers to have the first-hand experience of the PL-900 Latest Torrent compiled by our company before making their final decision. So do not hesitate any more, just hurry up to buy our PL-900 test question which will never let you down.

Microsoft Power Platform Fundamentals Sample Questions (Q168-Q173):

NEW QUESTION # 168

A user is trying to understand the differences between the various ways apps can be built by using Power Apps.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Box 1: Yes

You can create a canvas app and then embed that within a model driven app.

Box 2: No

With the capability to build a portal in PowerApps, you can create a website for external and internal users enabling them to interact with data stored in Common Data Service.

Note: Common Data Service lets you securely store and manage data that's used by business applications.

Data within Common Data Service is stored within a set of entities. An entity is a set of records used to store data, similar to how a table stores data within a database. Common Data Service includes a base set of standard entities that cover typical scenarios, but you can also create custom entities specific to your organization and populate them with data using Power Query. App makers can then use PowerApps to build rich applications using this data.

Box 3: Yes

To get started building a report you'll need the latest version of Power BI Desktop and a PowerApps environment with the latest version of the Common Data Service.

NEW QUESTION # 169

A company uses a custom-built system to record financial data that runs on a manager's machine.

The system does not have an API. New customer details must be manually entered into the system by the manager from a central spreadsheet. The user interface of the system contains the complex business logic that is needed for the manual customer data entry process.

You need to ensure that new customer details can be entered into the system automatically by using Power Automate.

Which type of flow should you create?

- A. desktop
- B. automated cloud
- C. instant cloud
- D. business process

Answer: A

Explanation:

Desktop flows is the Robotic Process Automation (RPA) solution within Power Automate.

Desktop flows provides automation for Windows desktop applications, services, and experiences for orchestration and deployment within Power Platform.
