## SPLK-4001 Learning materials: Splunk O11y Cloud Certified Metrics User & SPLK-4001 Exam Preparation

After paying our SPLK-4001 exam torrent successfully, buyers will receive the mails sent by our system in 5-10 minutes. Then candidates can open the links to log in and use our SPLK-4001 test torrent to learn immediately. Because the time is of paramount importance to the examinee, everyone hope they can learn efficiently. So candidates can use our SPLK-4001 Guide questions immediately after their purchase is the great advantage of our product. It is convenient for candidates to master our SPLK-4001 test torrent and better prepare for the SPLK-4001 exam.

## Splunk O11y Cloud Certified Metrics User Sample Questions (Q30-Q35):

### NEW QUESTION # 30

A customer wants to share a collection of charts with their entire SRE organization. What feature of Splunk Observability Cloud makes this possible?

- A. Chart exporter
- B. Shared charts
- C. Dashboard groups
- D. Public dashboards

**Answer: C**

Explanation:

According to the web search results, dashboard groups are a feature of Splunk Observability Cloud that allows you to organize and share dashboards with other users in your organization<sup>1</sup>. You can create dashboard groups based on different criteria, such as

service, team, role, or topic. You can also set permissions for each dashboard group, such as who can view, edit, or manage the dashboards in the group. Dashboard groups make it possible to share a collection of charts with your entire SRE organization, or any other group of users that you want to collaborate with.

### NEW QUESTION # 31

For which types of charts can individual plot visualization be set?

- A. Histogram, Line, Column
- B. Bar, Area, Column
- C. Line, Area, Column
- D. Line, Bar, Column

**Answer: C**

Explanation:

Explanation

The correct answer is C. Line, Area, Column.

For line, area, and column charts, you can set the individual plot visualization to change the appearance of each plot in the chart. For example, you can change the color, shape, size, or style of the lines, areas, or columns. You can also change the rollup function, data resolution, or y-axis scale for each plot<sup>1</sup> To set the individual plot visualization for line, area, and column charts, you need to select the chart from the Metric Finder, then click on Plot Chart Options and choose Individual Plot Visualization from the list of options. You can then customize each plot according to your preferences<sup>2</sup> To learn more about how to use individual plot visualization in Splunk Observability Cloud, you can refer to this documentation<sup>2</sup>.

1: <https://docs.splunk.com/Observability/gdi/metrics/charts.html#Individual-plot-visualization> 2:

<https://docs.splunk.com/Observability/gdi/metrics/charts.html#Set-individual-plot-visualization>

### NEW QUESTION # 32

To refine a search for a metric a customer types host: test-\*. What does this filter return?

- A. Every metric except those with a dimension of host and a value equal to test.
- B. Only metrics with a value of test- beginning with host.
- C. Only metrics with a dimension of host and a value beginning with test-.
- D. Error

**Answer: C**

Explanation:

Explanation

The correct answer is A. Only metrics with a dimension of host and a value beginning with test-.

This filter returns the metrics that have a host dimension that matches the pattern test-. For example, test-01, test-abc, test-xyz, etc.

The asterisk (\*) is a wildcard character that can match any string of characters<sup>1</sup> To learn more about how to filter metrics in Splunk Observability Cloud, you can refer to this documentation<sup>2</sup>.

1: <https://docs.splunk.com/Observability/gdi/metrics/search.html#Filter-metrics> 2:

<https://docs.splunk.com/Observability/gdi/metrics/search.html>

### NEW QUESTION # 33

A customer has a large population of servers. They want to identify the servers where utilization has increased the most since last week. Which analytics function is needed to achieve this?

- A. Standard deviation
- B. Rate
- C. Sum transformation
- D. Timeshift

**Answer: D**

Explanation:

The correct answer is C. Timeshift.

According to the Splunk Observability Cloud documentation<sup>1</sup>, `timeshift` is an analytic function that allows you to compare the current value of a metric with its value at a previous time interval, such as an hour ago or a week ago. You can use the `timeshift` function to measure the change in a metric over time and identify trends, anomalies, or patterns. For example, to identify the servers where utilization has increased the most since last week, you can use the following SignalFlow code:

```
timeshift(1w, counters("server.utilization"))
```

This will return the value of the `server.utilization` counter metric for each server one week ago. You can then subtract this value from the current value of the same metric to get the difference in utilization. You can also use a chart to visualize the results and sort them by the highest difference in utilization.

#### NEW QUESTION # 34

In the Splunk distribution of the OpenTelemetry Collector, what is the difference between the `agent_config.yaml` and the `splunk-otel-collector.conf` files?

- A. `agent_config.yaml` configures the gateway's address and `splunk-otel-collector.conf` sets the memory limits for the collector.
- B. `splunk-otel-collector.conf` defines the OpenTelemetry pipeline, and `agent_config.yaml` sets endpoint URLs and access tokens.
- C. `splunk-otel-collector.conf` configures processors and `agent_config.yaml` sets the memory limits for the collector.
- D. `agent_config.yaml` defines the OpenTelemetry pipeline, and `splunk-otel-collector.conf` sets endpoint URLs and access tokens.

**Answer: B**

#### NEW QUESTION # 35

.....

Splunk SPLK-4001 latest exam lab questions are collected and arranged based on latest exam questions and new information materials. It covers a range wide and includes latest exam knowledge points. If you are urgent to pass exam SPLK-4001 Latest Exam lab questions will be the best preparation materials for you. Complete and valid exam study learning materials will help you save time cost and economic cost, then clear exam easily.
